INVESTMENT UNIVERSE

The fund invests mainly in real estate securities in the broad sense (real estate certificates, shares of Regulated Real Estate Companies (RRECs), real estate or property promotion and development companies, real estate investment companies, etc.). Companies must have a registered office and/or a significant proportion of their assets, activities, profit centres or decision-making centres in Europe and are selected on the basis of environmental, social and governance criteria. 50% of net assets must be composed of securities with a prospective 3-year return higher than the average of the investment universe. The average is defined as the benchmark's dividend yield. The fund may, on an optional basis, use derivatives to meet its goals/for hedging. It is an actively managed fund. The selection and weighting of the assets in the fund's portfolio may differ significantly from the composition of the benchmark.

DPAM B REAL ESTATE EUROPE DIVIDEND SUSTAINABLE - W

Institutional Factsheet | 30 June 2024

RISKS

The risk indicator assumes that you will hold the product for at least 5 years. The actual risk can vary significantly if you cash in at an early stage and you may get back less.

Investing in this product also entails risks that are materially relevant but not included in the risk indicator:

- Concentration risk: As the portfolio is mainly composed of equity securities issued by European real estate companies, it is likely to be more specifically exposed to the economic development of this sector and area.
- Liquidity risk: Instruments in the real estate sector may have high liquidity risk. This risk mainly arises during periods of market tension

This product does not include any protection from future market performance so you could lose some or all of your investment. We refer to the prospectus and KID for more explanation and a complete overview of the risks.
