

Invesco Sustainable Pan European Systematic Equity Fund

Z-Acc Shares

30 September 2025

This marketing communication is for Professional investors in Continental European countries as defined in the important information section, and Dubai. Investors should read the legal documents prior to investing. This document may also be used by financial intermediaries in the United States as defined in the important information section.

Summary of fund objective

The Fund aims to achieve long-term capital growth. The Fund seeks to achieve its objective by investing primarily in a diversified portfolio of equities or equity-related securities of companies with their registered office in a European country or exercising their business activities predominantly in European countries which are listed on recognised European stock exchanges and which meet the Fund's environmental, social and governance (ESG) criteria with a particular focus on environmental issues. For the full objectives and investment policy please consult the current prospectus. **Name changed from Invesco Sustainable Pan European Structured Equity Fund on 24 March 2025.**

Lower risk Higher risk

Investment risks

For complete information on risks, refer to the legal documents. The value of investments and any income will fluctuate (this may partly be the result of exchange rate fluctuations) and investors may not get back the full amount invested. The lack of common standards may result in different approaches to setting and achieving ESG objectives. In addition, the respect of the ESG criteria may cause the Fund to forego certain investment opportunities.

Fund Strategy

The fund applies a defensive multi factor stock selection approach while integrating Environmental, Social and Governance (ESG) considerations with a focus on environmental criteria. The fund incorporates key aspects of ESG, e.g. ESG integration, exclusions and a best-in-class approach. Furthermore, the investment team applies a UN Global Compact screening and excludes controversial activities, i.e. weapons, nuclear power and tobacco. The portfolio invests in European companies with the intended factor characteristics Momentum, Quality and Value. At the same time, a Low Volatility focus targets a more stable portfolio profile.

Past performance does not predict future returns. The performance period shown here starts on the last day of the first indicated month and ends on the last day of the last indicated month.

Invesco Distributors, Inc. is the appointed US sub-distributor of the Invesco Funds SICAV. All entities are indirect, wholly owned subsidiaries of Invesco Ltd.

ESG Supplement

30 September 2025

ESG Characteristics

The Invesco Sustainable Pan European Systematic Equity Fund (the fund) follows an ESG integrated multi-factor Low Volatility strategy. While strict ESG filters are applied, the investment team aims at earning factor premiums, using their proven multi-factor investment approach which considers Momentum, Quality and Value. The fund invests in European listed equities. The consideration of sustainability criteria is an integral part of every step of our investment process.

SFDR (see Glossary)

The fund complies with article 8 of SFDR (the EU's Sustainable Finance Disclosure Regulation) in that it promotes environmental or social characteristics, and in that the companies in which investments are made follow good governance practices. More information is available at www.invescomanagementcompany.lu

Invesco's Approach to ESG

Invesco has an investment-led ESG approach. We provide a comprehensive range of ESG-focused capabilities that enable clients to express their values through investing. Where appropriate, for certain funds, we also integrate financially material ESG considerations, taking into account critical factors that help us deliver strong outcomes to clients.

ESG Characteristics ¹	Fund	Comparator ³

⁵ Exclusion Criteria

The exclusion criteria may vary depending on the activity from zero tolerance to exclusions based on % of revenue. For further details on the revenue threshold applied to specific exclusions please refer to the Sustainability-related disclosures on the website of the Management Company.
www.invescomanagementcompany.lu

Exclusion criteria definitions are as follows:

Thermal Coal Extraction: The company extracts thermal coal.

Thermal Coal Power Generation: The company generates electricity from thermal coal.

Unconventional Oil and Gas: The company is involved in oil and gas exploration in the Arctic and/or extracts oil sands and/or is involved in shale energy exploration/production.

Oil and Gas (Conventional): The company is involved in oil and gas exploration and production.

Chemicals of Concern: The company produces chemicals which are banned by the three international conventions: UNEP Stockholm Convention, OSPAR Convention, the Montreal Protocol on Substances that Deplete the Ozone Layer.

Nuclear Power: The company generates power from nuclear sources or derives revenue from developing products or services that support the nuclear power industry.

Controversial Weapons: Companies that have been identified as having ties to controversial weapons, including cluster munitions, anti-personnel landmines, weapons containing depleted uranium, biological and chemical weapons.

Tobacco: The company manufactures tobacco products and/or supplies tobacco-related products/services.

UN Global Compact Status: Companies that have been identified as "non-compliant" under the United Nations Global Compact by Sustainalytics.

Nuclear Weapons Outside the Non-Proliferation Treaty: The company is involved in the manufacture of nuclear weapons or their tailor made components AND these weapons are distributed to a country that is not a declared nuclear power under the Treaty on the Non-Proliferation of Nuclear Weapons.

Recreational Cannabis: The company is involved in or has ties to revenue from recreational cannabis.

Military Contracting: The company derives revenue from the manufacturing of weapons / weapon components or from providing tailor-made products or services to the army or the defense industry.

Civilian Firearms: The company derives revenue from the manufacturing of small arms designed and marketed for the civilian market. This includes the manufacturing and retail of civilian firearms.

Adult Entertainment: The company derives revenue from adult entertainment. This includes sex shops, producers of adult movies, cinemas that show adult movies, adult entertainment magazines, and the broadcasting of adult entertainment.

Gambling: The company derives revenue from gambling. This includes companies that own casinos, offer bookmaking or online gambling, or manufacture gambling products (e.g. slot machines), etc.

Alcohol: The company derives revenue from alcoholic beverages. This includes producers as well as distributors or owners of retail stores that sell alcoholic beverages.

Responsible Investment Approach definitions are as follows:

ESG Integration: The process of including ESG factors in the fundamental financial analysis of companies and investments.

Negative Screen / Positive Allocation: A process that either excludes a portion of the investment universe that score badly on ESG criteria, focuses upon companies engaged in positive activities for the community or natural world, such as recycling, education or public transport or a combination of both.

Sustainable Investments: An investment in an economic activity that meets the definition of a Sustainable Investment per Article 2 (17) of the SFDR.

Impact Fund: Funds managed with the intention of generating positive, measurable social and environmental impacts, where impact has priority over financial performance.

Engagement: The process of communicating with representatives of a company as a shareholder with the aim of improving their behaviour and policies.

Voting (Equities only): Also known as Proxy Voting, it is a form of voting whereby the fund manager casts votes on behalf of their mutual fund shareholders on a variety of issues, that may include the election of board members, merger or acquisition approvals, or approving a stock compensation plan.

Glossary

ESG Characteristics: Environmental, social, and governance (ESG) information is a critical part of corporate and investment strategy and embedding material sustainability considerations into corporate and investment decisions is integral to long-term success from both financial and sustainability perspectives.

MSCI ESG Fund Rating: The Fund's ESG rating is designed to assess the resilience of the fund's aggregate holdings to long-term, financially relevant ESG risks and should facilitate the ability to rank or screen mutual funds and ETFs on a AAA to CCC ratings scale. This rating aims to provide fund level transparency and measures the ESG characteristics of the total portfolio. It is calculated as a direct mapping of MSCI ESG Quality Scores to letter rating categories. ESG Leaders are holdings with an ESG rating of AAA or AA (best in class), and ESG Laggards are holdings with an ESG rating of B or CCC.

MSCI ESG Quality Score: Calculated as the weighted average of the underlying holding's ESG scores, excluding any underlying holding where this information is not available. It is provided on a 0-10 scale, with 0 and 10 being the respective lowest and highest possible scores. MSCI scores underlying holdings according to their exposure to and management of key ESG issues, which are divided into three pillars: environmental, social and governance.

- **Environmental Pillar Score:** Provides an assessment of environmental factors including emissions, carbon footprint, fossil fuel usage and sustainable opportunities.
- **Social Pillar Score:** Relates to the operating environment of an underlying holding, including labour management, product liabilities, and health and safety.
- **Governance Pillar Score:** Provides an assessment of risk and management practices related to Corporate Governance and Corporate Behaviour.

ESG % Coverage: The percentage of the fund and comparator where MSCI ESG Research data is available.

Financed Emissions: Measure the greenhouse gas emissions associated with the investment. This figure represents the absolute overall exposure of the fund and is dependent on AUM, hence an increase in the AUM will cause the finance emissions to increase and vice versa. The fund AUM is used to calculate the Comparator's financed emissions which will also increase or decrease depending on the AUM size.

Scope 1: Covers direct emissions from owned or controlled sources.

Scope 2: Covers indirect emissions from the generation of purchased electricity, steam, heating and cooling consumed by the reporting company.

Scope 3: Includes all other indirect emissions that occur in a company's value chain.

Relative Carbon Footprint: The measure of the impact of activities on the amount of greenhouse gases produced, such as burning fossil fuels. Measured as Scope 1 + 2 + 3 Emissions per EUR 1M invested.

Wtd Avg (Weighted Average) Carbon Intensity: The underlying holdings exposure to carbon intensive holdings, calculated as the weighted average of the constituent's intensity metrics: Scope 1 + 2 and Scope 3 emissions per EUR 1M revenue for corporates and total country carbon emissions per EUR 1M GDP for government bonds.

% Carbon Coverage (excluding cash): This represents the % weighting of the Fund/Benchmark for which carbon data is available.

References to Regulations

SFDR: Part of the EU's Sustainable Finance Action Plan, the Sustainable Finance Disclosure Regulation aims to promote transparency on sustainability by ensuring that participants in the financial services sector provide consistent information to clients in relation to the sustainability of the products and services they provide.

Important Information

The information presented in this section is for illustrative purposes only. Providing this information is not indicative of how or whether ESG factors will be integrated into the fund. Unless otherwise stated in the legal offering documents, the ESG information provided in this document does not change the fund's investment objective or policy or constrain the fund's investable universe. Ratings may vary from one rating agency to another. A rating may change over time and is not a guarantee of future performance of the fund.

Certain information © 2025 MSCI ESG Research LLC. Reproduced by permission, no further distribution. This report contains certain information (the "Information") sourced from MSCI ESG Research LLC, or its affiliates or information providers (the "ESG Parties"). The information may only be used for your internal use, may not be reproduced or disseminated in any form and may not be used as a basis for or a component of any financial instruments or products or indices.
