	K	Max 1.00%	N/A	N/A	None

These fees shall be calculated based on the net asset value of the Sub-Funds and shall be paid quarterly in arrears.

<sup>(1)</sup> All or a portion of management fees charged at the level of the Master Fund are rebated to the Feeder Sub-Funds by the Management Company and the management fee payable by the Sub-Funds for each Class offered is set at such rates so as to ensure that, for any given Class, the aggregate amount of the management fee for that Class and the management fee payable at the level of the Master Fund for the Class in which the Sub-Funds invests corresponds to the management fee that would have been paid by an investor investing directly in that same share Class of the Master Fund. Rebates on the management fees of the Master funds are presented under the caption "Other income".

<sup>(2)</sup> The Management Company may charge a performance fee of 15% (including tax) of the outperformance above the index of reference (MSCI World Index Net Total Return). The performance fee is provisioned at each net asset value. The performance fee is adjusted at each net asset value calculation, on the basis of 15% including all taxes of the outperformance of the Sub-Fund compared to the reference indicator, on the condition that the Sub-fund's performance is positive (the net asset value is higher than the net asset value at the start of the period). If the Sub-Fund underperforms the benchmark, this provision is adjusted through write backs. Provision write backs are capped at the level of the allocations made. The methodology applied for the calculation of performance fees is based on the "fictional asset" calculation method, which simulates a fictional asset subject to the same subscription and redemption conditions as the original Sub-Fund, incremented by the performance of the benchmark. This fictional asset is then compared with the performance of the Sub-Fund's actual assets. The difference between the two assets therefore gives the Sub-Fund's outperformance relative to its reference indicator. The frequency of crystallization, i.e. the frequency at which the provisions for the performance fees can be definitively retained by the Management Company, is annual. The Observation Period for the calculation of the performance fee ends on 30 September each year. In case of launch of a new Class in the course of the financial year of the Sub-Fund, performance fees will only be crystallized after at least twelve months from the date of launch of such a new Class.

\* See Note 1, for further details.

### Note 3 - Management Company fees and performance fees (continued)

As a result, in case a new Class is launched in March of "Year 1", performance fees will only be crystallized in September of "Year 2". In the event that the Sub-Fund has outperformed at the end of the Observation Period and that it has a positive performance, the Management Company takes the fees provisioned for and a new Observation Period starts. In the event that the Sub-Fund has outperformed at the end of the Observation Period and has a negative performance, the Management Company takes no performance fee but a new Observation Period starts. In the case that the Sub-Fund has underperformed its reference indicator at the end of the Observation Period, no fee is charged and the initial Observation Period is extended by 12 months (catch-up period) so that this underperformance may be compensated for before a performance fee becomes payable again. The Observation Period may be extended as such by up to five years (reference period). Beyond that, if the residual underperformance has not been caught up, it will be abandoned. If a year of underperformance has occurred within this first 5-year period and has not been caught up by the end of this first period, a new period of up to 5 years will begin from this new year of underperformance.

No performance fees and no crystallisation occurred during the year.

When shares/units are redeemed, if there is a provision for performance fees, the amount proportional to the redeemed shares/units is paid to the management company.
