## What is this product?

### Type

Shares of a sub-fund of Fidelity Funds SICAV, an Undertaking for Collective Investment in Transferable Securities (UCITS).

**SFDR product category:** Article 8 (promotes ESG characteristics).

### Term

This fund is open-ended.

### Objectives

**Objective:** The fund aims to achieve capital growth over the long term.

**Investment Policy:** The fund invests at least 70% of its assets, in equities of smaller companies that are headquartered, or do most of their business, in Asia Pacific (excluding Japan), including emerging markets. The fund may also invest in money market instruments on an ancillary basis.

The fund invests at least 50% of its assets in securities of issuers with favourable environmental, social and governance (ESG) characteristics.

The fund will invest less than 30% of its assets (directly and/or indirectly) in China A and B Shares (in aggregate).

Smaller companies are defined as having market capitalisation range of less than USD 8,000 million in terms of the company's full market capitalisation. The fund may invest in companies outside this range.

**Investment Process:** In actively managing the fund, the Investment Manager considers growth and valuation metrics, company financials, return on capital, cash flows and other measures, as well as company management, industry, economic conditions, and other factors. More particularly, the fund is managed with a quality and value bias within the Asian smaller companies' space.

The Investment Manager also considers ESG characteristics when assessing investment risks and opportunities. In determining favourable ESG characteristics, the Investment Manager takes into account ESG ratings provided by Fidelity or external agencies. Through the investment management process the Investment Manager aims to ensure that investee companies follow good governance practices.

The fund adheres to the Fidelity Sustainable Investing Framework standards. For more information, see "Sustainable Investing and

ESG Integration" and the Sustainability Annex.

**Derivatives and Techniques:** The fund may use derivatives for hedging, efficient portfolio management and investment purposes.

**Benchmark:** MSCI AC Asia Pacific ex Japan Small Cap Australia Capped 10% Index. Used for: investment selection, risk monitoring, and performance comparison.

**Base Currency:** EUR.

**Risk Management Method:** Commitment.

**Additional Information:** You may sell (redeem) some or all of your Shares on any Valuation Day. As this is a non-distributing share class, dividends are re-invested.

This key information document describes a sub-fund of Fidelity Funds. A separate pool of assets is invested and maintained for each sub-fund of Fidelity Funds.

### Intended retail investor

This product may appeal to investors with a basic knowledge of and no or limited experience of investing in funds; who plan to hold their investment for a recommended holding period of at least 4 years; who seek capital growth over the recommended holding period; and who understand the risk of losing some or all of the capital invested.

## What are the risks and what could I get in return?

### Risk Indicator

The risk indicator assumes you keep the product for 4 years.

The actual risk can vary significantly if you cash in at the early stage and you may get back less.

You may not be able to sell your product easily or you may have to sell at a price that significantly impacts on how much you get back.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 4 out of 7, which is a medium risk class.

This rates the potential losses from future performance at a medium level, and poor market conditions could impact the capacity to pay you.

**Be aware of currency risk. You will receive payments in a different currency, so the final return you will get depend on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.**

Additional risks: emerging markets, liquidity.

This product does not include any protection from future market performance so you could lose some or all of your investment.

If FIL Investment Management (Luxembourg) S.A. is not able to pay you what is owed, you could lose your entire investment.

### Performance scenarios

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product and a suitable benchmark over the last 10 years. Markets could develop very differently in the future.

Recommended holding period: 4 years Example investment : EUR 10,000		If you exit after 1 year	If you exit after 4 years
Scenarios			
<b>Minimum</b>	There is no minimum guaranteed return. You could lose some or all of your investment.		
<b>Stress</b>	What you might get back after costs	2,580 EUR	3,180 EUR
	Average return each year	-74.2%	-24.9%
<b>Unfavourable</b>	What you might get back after costs	7,080 EUR	9,570 EUR
	Average return each year	-29.2%	-1.1%
<b>Moderate</b>	What you might get back after costs	10,590 EUR	13,170 EUR
	Average return each year	5.9%	7.1%
<b>Favourable</b>	What you might get back after costs	16,440 EUR	18,600 EUR
	Average return each year	64.4%	16.8%

The stress scenario shows what you might get back in extreme market circumstances.

The unfavourable scenario occurred for an investment between 03/2016 and 03/2020.

The moderate scenario occurred for an investment between 11/2017 and 11/2021.

The favourable scenario occurred for an investment between 07/2013 and 07/2017.

## What are the costs?

The person selling you or advising you about this product may charge you other costs. If so, this person will provide you with information about these costs, and show you the impact that all costs will have on your investment over time.

### Costs over Time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.
- EUR 10,000 is invested.

	If you exit after 1 year	If you exit after 4 years
<b>Total costs</b>	144 EUR	684 EUR
<b>Annual cost impact (*)</b>	1.4%	1.5% each year

(\*)This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 8.7% before costs and 7.1% after costs.

### Composition of Costs
