Directors' report

Delegation of functions

Management Company

The Fund has appointed M&G Luxembourg S.A., pursuant to the Management Agreement, to serve as its management company within the meaning of the UCI Law.

The Management Company performs certain functions, subject to the overall supervision of the Directors, for the provision of investment management services, administrative services and marketing services to the Fund.

The Management Company acts as the management company of the Fund under the freedom to provide services organised by the UCITS Directive. In accordance with the relevant provisions of the UCI Law, the Management Company will be required to comply with the CSSF Rules (being the rules of the Management Company's 'home member state' for the purposes of the UCI Law) in relation to the organisation of the Management Company, including its delegation arrangements, risk management procedures, prudential rules and supervision, applicable prudential rules regarding the Management Company's management of UCITS authorised under the UCITS Directive and the Management Company's reporting requirements. The Management Company shall comply with the UCI Law as regards the constitution and functioning of the Fund.

The Fund has appointed the Management Company as its corporate and domiciliary agent. The Management Company will be responsible for the domiciliation of the Fund and will perform, inter alia, the functions as foreseen in the Luxembourg law of 31 May 1999 on the domiciliation of companies, as amended from time to time, and, in particular, allow the Fund to establish its registered office at the registered office of the Management Company, and provide facilities necessary for the meetings of the Fund's Directors, officers and/or of the Shareholders of the Fund.

Distributor

M&G Luxembourg S.A. acts as the distributor of Shares.

Investment manager

The Management Company has appointed M&G Investment Management Limited as investment manager to manage and invest the assets of the sub-funds pursuant to their respective investment objectives and policies.

The Investment Manager was appointed pursuant to the Investment Management Agreement. Under the Investment Management Agreement, the Investment Manager has full discretion, subject to the overall review and control of the Management Company and the Directors, to purchase and sell securities and otherwise to manage the assets of the Fund on a discretionary basis. The Investment Manager is also entitled to delegate investment management under the terms set out in the Investment Management Agreement.

Registrar and transfer agent

The Management Company has appointed State Street Bank International GmbH, Luxembourg Branch as registrar and transfer agent of the Fund on behalf of the Board of Directors.

Under the Registrar and Transfer Agency Agreement, the registrar and transfer agent is responsible for processing the issue, redemption and transfer of shares, as well as for the keeping of the register of Shareholders, subject to the overall review and control of the Management Company and the Directors.

Administrator

The Management Company has appointed State Street Bank International GmbH, Luxembourg Branch as the Administrator of the Fund on behalf of the Board of Directors. The Administrator will carry out certain administrative duties related to the administration of the Fund, including the calculation of the Net Asset Value of the shares and the provision of accounting services to the Fund, subject to the overall review and control of the Management Company and the Directors.

Directors' report

Depositary

The Management Company in conjunction with the Board of Directors has appointed State Street Bank International GmbH, Luxembourg Branch as the Depositary.

The Depositary shall perform all of the duties and obligations of a depositary under the UCITS Directive and the Luxembourg implementing laws and regulations with respect to each sub-fund.

The Depositary has been entrusted with the following main functions:

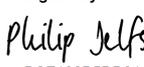

- ensuring that the sale, issue, repurchase, redemption and cancellation of shares are carried out in accordance with applicable law and the Articles;
- ensuring that the value of the shares is calculated in accordance with applicable law and the Articles;
- carrying out the instructions of the Management Company or the Fund (as the case may be), unless such instructions conflict with applicable law or the Articles;
- ensuring that, in transactions involving the assets of the Fund, any consideration is remitted to the Fund within the usual time limits;
- ensuring that the income of the Fund is applied in accordance with applicable law and the Articles;
- monitoring and oversight of the Fund's cash and cashflows in accordance with the UCITS Directive and the Luxembourg implementing laws and regulations; and
- safe-keeping of the Fund's assets, including the safe-keeping of financial instruments that can be held in custody and ownership verification and record-keeping in relation to other assets.

Fair Valuation and liquidity

There have not been any significant difficulties in valuing the portfolios during and since the period end.

Directors' statement

This report has been prepared in accordance with the requirements of the UCITS Directive 2009/65/EC of the European Parliament and Council of 13 July 2009.

Market review

In the opening half of 2024, developments in the global economy exerted significant influence on financial markets, including a decline in inflationary pressures, resilient growth and employment data, and the conclusion of the global monetary tightening cycle. Global equity markets performed exceptionally well, with many markets reaching all-time highs. Conversely, global bond markets encountered headwinds amid evolving interest rate outlooks and political risks.

During the review period, headline inflation continued to slow across major developed economies. In the US, inflation ticked up in the first quarter before subsequently resuming its decline to reach 3.3% in May. This arguably contributed to a divergence in central bank policy during the six months. Central banks in Canada, Switzerland, and Sweden, as well as the European Central Bank (ECB), cut rates in the period. However, the Federal Reserve (Fed) and the Bank of England (BoE) maintained their interest rates. Notably, the Bank of Japan (BoJ) ended its eight-year negative interest rate policy in March, increasing its short-term rate from -0.1% to a range of 0%-0.1% following a jump in wages and consumer prices.

Besides elevated inflation, one of the reasons the Fed kept interest rates on hold was the resilience of the US economy. Gross domestic product grew 1.4% year-on-year in the first quarter of 2024, supported by steady consumer spending and a healthy labour market, although that was down from 3.4% in the previous quarter. Against this backdrop, global equities rallied, led by the US. The S&P 500 Index repeatedly set record highs as it climbed 15.3% (in US dollars), fueled largely by the so-called 'Magnificent Seven' group of mega-cap technology stocks. During the second quarter, there were growing concerns about market breadth as a performance gap became evident between the S&P 500 and its equal-weighted counterpart, which was down 2.6% (in US dollars). Other developed markets which rose in the first half of the year included Europe, the UK and Japan. However, France lagged the global market in the period as share prices fell following President Macron's surprise decision to hold parliamentary elections.

Overall, emerging market (EM) equities rose in the six months but were behind the global market index. Indian equities resumed their meteoric rise, despite some volatility around the general election. Share prices in Taiwan rallied, driven by gains in the technology sector. Despite ongoing concerns about the economy and property market, China's stock market rose as share prices rebounded from lows in January. In Asia, smaller Southeast Asian markets such as Indonesia and Thailand were weak, while Brazil and Mexico registered large falls in Latin America. Brazil's stock market retreated due to uncertainties surrounding macroeconomic indicators and the government's ability to meet its fiscal target.

From a sector perspective, the fervour surrounding artificial intelligence (AI) kept the information technology sector at the forefront as the top-performing segment. Communication services closely followed suit, also reaping the benefits of this booming trend. Energy and financials also rose. In contrast, real estate remained out of favor with investors as 'higher-for-longer' interest rates continued to have a negative impact on the sector. Materials and consumer staples were also among the weakest areas.

Following the global bond market rally late in 2023, the subsequent six months were characterised by lacklustre performance as markets adjusted their expectations regarding the path of interest rates. As the timing of the expected rate cuts were pushed out, government bond prices declined. US Treasuries ending the period down 0.8%, while UK and German government bonds fell 2.6% and 2.1%, respectively. Corporate bonds were a bright spot in fixed income markets, with higher-risk high yield bonds performing well. The index of global high yield bonds rose 3.4% in the period. Building on a strong performance from the previous year, hard currency emerging market corporate and government bonds sustained their positive momentum in the first half of 2024. Emerging market local currency government bonds declined, however. In June, India's government bonds made their debut in the JPMorgan Government Bond Index-Emerging Markets, marking the country's

Market review

first-ever inclusion in a global bond index, significantly expanding its exposure to foreign inflows.

Commodities had a strong start to the year, with oil prices rising due to production cuts and geopolitical tensions, and notable gains from copper and gold. In the currency markets, the Japanese yen continued to depreciate, reaching a multi-decade low against the US dollar. Sterling also strengthened against the dollar and the euro.

Sub-fund performance

Please note past performance is not a guide to future performance and the value of investments, and the income from them, will fluctuate. This will cause the sub-fund price to fall as well as rise and you may not get back the original amount you invested.

To give an indication of the performance of the sub-fund, the following table shows the compound rate of return, per annum, over the period. Calculated on a price to price basis with income reinvested.

Sub-fund performance

Please note past performance is not a guide to future performance and the value of investments, and the income from them, will fluctuate. This will cause the sub-fund price to fall as well as rise and you may not get back the original amount you invested.

To give an indication of the performance of the sub-fund, the following table shows the compound rate of return, per annum, over the period. Calculated on a price to price basis with income reinvested.

Long-term performance by share class as at 30 June 2024

Sub-fund performance

Please note past performance is not a guide to future performance and the value of investments, and the income from them, will fluctuate. This will cause the sub-fund price to fall as well as rise and you may not get back the original amount you invested.

To give an indication of the performance of the sub-fund, the following table shows the compound rate of return, per annum, over the period. Calculated on a price to price basis with income reinvested.

Sub-fund performance

Please note past performance is not a guide to future performance and the value of investments, and the income from them, will fluctuate. This will cause the sub-fund price to fall as well as rise and you may not get back the original amount you invested.

To give an indication of the performance of the sub-fund, the following table shows the compound rate of return, per annum, over the period. Calculated on a price to price basis with income reinvested.

Sub-fund performance

Please note past performance is not a guide to future performance and the value of investments, and the income from them, will fluctuate. This will cause the sub-fund price to fall as well as rise and you may not get back the original amount you invested.

To give an indication of the performance of the sub-fund, the following table shows the compound rate of return, per annum, over the period. Calculated on a price to price basis with income reinvested.

Sub-fund performance

Please note past performance is not a guide to future performance and the value of investments, and the income from them, will fluctuate. This will cause the sub-fund price to fall as well as rise and you may not get back the original amount you invested.

To give an indication of the performance of the sub-fund, the following table shows the compound rate of return, per annum, over the period. Calculated on a price to price basis with income reinvested.

European Specialist Investment Funds

Notes to the financial statements

1 General information

European Specialist Investment Funds (the 'Fund') is an investment company organised as a *société anonyme* under the laws of the Grand Duchy of Luxembourg and qualifies as a *société d'investissement à capital variable* ('SICAV'). The Fund was incorporated in Luxembourg on 8 March 2011. The Fund qualifies as an Undertaking for Collective Investment in Transferable Securities ('UCITS') under Part I of the amended Law of 17 December 2010 relating to UCITS and is registered with the Luxembourg Trade and Company Register under number B159397.

2 Basis of preparation

These financial statements have been prepared and presented in accordance with generally accepted accounting principles in Luxembourg and with the legal and regulatory requirements relating to the preparation and presentation of the financial statements as prescribed by the Luxembourg authorities for Luxembourg investment funds including the following significant accounting policies.

The financial statements have been prepared under a going concern assumption as deemed appropriate by the Board of Directors.

3 Significant accounting policies

a) Security valuation

The value of transferable securities, money market instruments and any other assets which are listed or dealt in on any stock exchange are based on the latest available closing price. Transferable securities, money market instruments and any other assets traded on any other regulated market are valued in a manner as similar as possible to that provided for listed securities.

For non-listed assets or assets not traded or dealt in on any stock exchange or other regulated market, as well as listed or non-listed assets on such other market for which no valuation price is available, or assets for which the listed prices are not representative of the fair market value, the value thereof shall be determined as the appropriate fair value of the asset by the Board of Directors.

b) Forward currency contracts

Open forward foreign exchange contracts are valued on the basis of forward exchange rates prevailing at the relevant valuation date. The fair value of open forward foreign exchange contracts is calculated as the difference between the contracted rate and the current forward rate that would close out the contract on the valuation date. The unrealised appreciation/(depreciation) on open forward foreign exchange contracts is reported under 'Investment assets' and 'Investment liabilities' as appropriate in the Statement of net assets.

When the contracts are closed, realised gains/(losses) arising from closed contract transactions and change in unrealised gains/(losses) as a result thereof are recorded as 'Forward currency contracts' under each respective section in the Statement of operations and changes in net assets.

c) Futures contracts

Upon entering into a futures contract, a sub-fund is required to deposit with its futures broker, an amount of cash or securities in accordance with the initial margin requirements of the broker or exchange. Futures contracts are valued using quoted daily settlement prices established by the exchange on which they trade. The sub-fund and the broker agree to exchange an amount of cash equal to the daily fluctuations in the value of the futures contract (variation margin).

European Specialist Investment Funds

Notes to the financial statements

For open futures, changes in the value of the contract are recognised under 'Investment assets' and 'Investment liabilities' by 'marking-to market' the value of the contract at the Statement of net assets date. When a contract is closed, the difference between the proceeds (or cost) of the closing transaction and the original transaction is recorded as a realised gains/(losses) in the Statement of operations and changes in net assets. Change in unrealised gains/(losses) as a result thereof is included in the Statement of operations and changes in net assets under 'Futures contracts'.

d) Credit default swaps and credit default index swaps

Credit default swaps and credit default index swaps are marked-to-market upon daily prices obtained from third party pricing agents and verified against the value from the counterparty. The unrealised appreciation/(depreciation) on credit default swaps and on credit default index swaps is reported under 'Investment assets' and 'Investment liabilities' as appropriate in the Statement of net assets. The swap premium is recorded as part of the cost of the swap contract.

When the contracts are closed, realised gains/(losses) arising from such transactions and net change in unrealised gains/(losses) as a result thereof are recorded under 'Swap contracts' of respective sections.

e) Interest rate swaps

Interest rate swaps are marked-to-market upon daily prices obtained from third party pricing agents and verified against the value from the counterparty. The unrealised appreciation/(depreciation) on interest rate swaps are reported under 'Investment assets' and 'Investment liabilities' as appropriate in the Statement of net assets.

When the contracts are closed, realised gains/(losses) arising from such transactions and net change in unrealised gains/(losses) as a result thereof are recorded under 'Swap contracts' of respective sections.

f) Reverse repurchase and repurchase agreement transactions

The Fund may enter into repurchase agreement transactions which consist of the purchase and sale of securities with a clause reserving the seller the right or the obligation to repurchase from the acquirer the securities sold at a price and term specified by the two parties in their contractual arrangement. The Fund can act either as purchaser or seller in repurchase agreement transactions or a series of continuing repurchase transactions.

As at and during the period ended 30 June 2024, the sub-funds did not enter into reverse repurchase and repurchase agreement transactions.

g) Foreign currency translation

The reference currency of the Fund is the Euro ('€'). The financial statements comprise the combined financial statements of the Fund expressed in Euro as well as individual information on each sub-fund expressed in the reference currency of each sub-fund. The reference currency of the M&G European Credit Investment Fund, the M&G European High Yield Credit Investment Fund, the M&G Sustainable European Credit Investment Fund, the M&G Sustainable Total Return Credit Investment Fund and the M&G Total Return Credit Investment Fund is the Euro ('€') and for M&G Senior Asset Backed Credit Fund is the UK sterling ('£').

Assets and liabilities expressed in currencies other than the reference currency of the sub-fund are converted into that currency at the exchange rate prevailing on the period end date.

The market value of investments and other assets and liabilities denominated in currencies other than the reference currency of the sub-funds have been translated at the rate of exchange ruling at the period end. The cost of investments, income and expenditure denominated in currencies other than the reference currency of the sub-funds have been translated at the exchange rates ruling on the day of the transaction. The following exchange rates were used to translate the assets and liabilities of the sub-funds at 28 June 2024:

European Specialist Investment Funds

Notes to the financial statements

1 Euro € = 1.466529768 Canadian dollar (CA\$)

1 Euro € = 172.401782107 Japanese yen (¥)

1 UK sterling £ = 203.343037403 Japanese yen (¥)

1 UK sterling £ = 1.264099449 US dollar (US\$)

h) Expenses

Expenses are recorded on an accrual basis. In addition, any Value Added Tax ('VAT') associated with any fees and expenses is charged to the Fund. The Fund's formation expense and the expenses relating to the creation of new sub-funds are capitalised and amortised over a period of five years.

i) Cash and cash equivalents

Cash and other liquid assets are valued at their face value with interest accrued, where applicable. All cash at bank balances are held either by State Street Bank International GmbH, Luxembourg Branch, on overnight deposit with a third party institution approved by the Board of Directors or directly with a sub-depositary. Cash and cash equivalents can also include amounts on deposit for the futures contracts initial and variation margin and the cash collateral held with counterparties for interest rate swaps, credit default swaps and credit default index swaps.

j) Interest income and interest expense

Interest income, adjusted for the accretion of discounts and amortisation of premiums, is recorded net on the accruals basis. Interest expense is also recorded on the accruals basis. Both are recognised in the Statement of operations and changes in net assets.

Any negative yield on cash deposit relates to negative interest incurred by the placing of the EUR balances out on overnight sweep.

k) Net realised gains and losses on sales of investments

Net realised gains/(losses) on the sales of investments are calculated on the basis of average cost of the investments sold.

l) Accounting estimates

The preparation of financial statements in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the financial statements requires the Board of Directors to make certain estimates and assumptions that affect the carrying amount of assets and liabilities and the reported amount of income and expenses during the period. Actual results could differ from those estimates. At the date of these financial statements no estimates and assumptions had a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities.

European Specialist Investment Funds

Notes to the financial statements

4 Transaction costs

Direct portfolio transaction costs include broker execution commission and taxes and are incremental costs that are directly attributable to the transaction. Indirect portfolio transaction costs represent the difference between the buying and selling prices of the sub-fund's investments (portfolio dealing spread); some types of investment, such as fixed interest securities, have no direct transaction costs and only the portfolio dealing spread is paid. Transaction costs are incorporated as part of realised gain/(loss) in the Statement of operations and changes in net assets.

| Direct portfolio transaction costs | For the period ended 30 June 2024 |
|---|-----------------------------------|
| M&G European Credit Investment Fund | €88,672 |
| M&G European High Yield Credit Investment Fund | €2,610 |
| M&G Senior Asset Backed Credit Fund | nil |
| M&G Sustainable European Credit Investment Fund | €32,163 |
| M&G Sustainable Total Return Credit Investment Fund | €29,523 |
| M&G Total Return Credit Investment Fund | €82,206 |

5 Annual Charge

The Fund pays an annual charge calculated as a percentage of the average daily net assets of each sub-fund or share class under its management (the 'Annual Charge'). The Annual Charge accrues daily and is payable quarterly in arrears at the rate specified in the following table and includes:

- Management fees
- Audit fees
- Directors' fees and expenses
- *Taxe d'abonnement*
- Service provider fees
- Other expenses as specified in the Prospectus

In addition, the Fund or any sub-fund may bear any extraordinary expenses including, without limitation, litigation expenses and the full amount of any tax, levy, duty or similar charge imposed on the Fund or sub-fund that would not be considered as ordinary expenses ('Extraordinary Expenses').

Notes to the financial statements

7 Directors' fees and expenses

The Directors are entitled to receive fees of €30,000 per director per annum. Philip Jelfs and Laurence Mumford have waived their entitlement to Director's fees. The Management Company shall also reimburse certain expenses of the Directors, in accordance with the Articles.

The Directors' Fees and Expenses form part of the Annual Charge. Please refer to note 5.

8 Tax status

As a Luxembourg SICAV, the Fund is not subject, under present tax laws, to income, withholding or capital gains taxes in Luxembourg. The Fund is subject to the Luxembourg *taxe d'abonnement* at the rate of 0.01% per annum on the net assets of all classes restricted to institutional investors and 0.05% for all other classes, such tax being payable quarterly and calculated on the total net assets of the class in issue at the end of the relevant quarter. A detailed listing of all available share classes can be found in the latest Prospectus.

Dividends, interest and capital gains on securities issued may be subject to withholding or capital gains taxes imposed in certain countries.

The *taxe d'abonnement* forms part of the Annual Charge. Please refer to note 5.

9 Swing pricing

A sub-fund may suffer a reduction in value, known as 'dilution' when trading the underlying investments as a result of net inflows or net outflows of the respective sub-fund. This is due to transaction charges and other costs that may be incurred by liquidating and purchasing the underlying assets and the spreads between the buying and selling prices. In order to counter this effect and to protect Shareholders' interests the Board of Directors will adopt a swing pricing mechanism as part of its valuation policy.

If on any Valuation Day, the aggregate net investor(s) transactions in a sub-fund exceed a threshold pre-determined by the Board of Directors, the net asset value per share may be adjusted upwards or downwards to reflect the costs attributable to the net inflows and net outflows respectively. Typically, such adjustments will increase the net asset value per share when there are net subscriptions into the sub-fund and decrease the net asset value per share when there are net redemptions out of the sub-fund. The Board of Directors is responsible for setting the threshold, which will be a percentage of the net assets of the respective sub-fund. The threshold is based on objective criteria such as the size of a sub-fund and the dealing costs for a sub-fund, and may be revised from time to time.

The swing pricing mechanism will be applied across all sub-funds of the Fund and it is not aimed at addressing the specific circumstances of each individual investor transaction. The amount of the swing factor will be up to a maximum of 2% of the NAV per share. The swing factors are determined on the basis of the sub-funds' objectives and investment profiles, the markets in which they invest and the various cost components which amongst others may include market spread.

Investors are advised that the volatility of the sub-funds' net asset value might not reflect the true portfolio performance as a consequence of the application of swing pricing.

The swing pricing was applied for all the sub-funds during the financial period, but the disclosed NAV was not swung for any of them at 30 June 2024.

10 Distribution policy

The Board of Directors have the option to declare a payment of a distribution to shareholders, out of all or part of the sub-funds' or Classes' current net investment income. If the distribution declared is less than €50 (or its equivalent in any other currency), the Directors reserve the right to reinvest the distribution into the same Class in the relevant sub-fund (free of any initial sales charges). In any event, no distribution may be made if, as a result thereof, the Net Asset Value of the Fund would fall below the equivalent of €1,250,000.
