Fund Information

Disciplined Investment Process (DIP) (The "Fund") is organized in and under the laws of the Grand Duchy of Luxembourg as a mutual investment fund with separate Sub-Funds constituting each a separate portfolio of assets and liabilities.

The Fund is registered pursuant to the Part I of the Law of 17 December 2010, as amended, relating to undertakings for collective investment.

In accordance with the Management Regulations, the Board of Directors of the Management Company may issue Units in each Sub-Fund. A separate pool of assets is maintained for each Sub-Fund and is invested in accordance with the investment objectives applicable to the relevant Sub-Fund. As a result, the Fund is an "umbrella fund" enabling investors to choose between one or more investment objectives by investing in one or more Sub-Funds. Investors may choose which Sub-Fund(s) may be most appropriate for their specific risk and return expectations as well as their diversification needs.

Each Sub-Fund is treated as a separate entity and operates independently, each portfolio of assets being invested for the exclusive benefit of this Sub-Fund. A purchase of Units relating to one particular Sub-Fund does not give the holder of such Units any rights with respect to any other Sub-Fund.

The net proceeds from the subscription to each Sub-Fund are invested in the specific portfolio of assets constituting that Sub-Fund.

With regard to third parties, each Sub-Fund will be exclusively responsible for all liabilities attributable to it.

The Board of Directors of the Management Company may, at any time, create additional Sub-Funds.

Furthermore, in respect of each Sub-Fund, the Board of Directors of the Management Company may decide to issue one or more Classes of Units, each Class having e.g. a specific sales and redemption charge structure, a specific management fee structure, different distribution, Unit holders servicing or other fees, different types of targeted investors, different currencies and/or such other features as may be determined by the Board of Directors of the Management Company from time to time.

The currency in which the Classes of Units are denominated may differ from the Reference Currency of the relevant Sub-Fund.

Units of different Classes within each Sub-Fund may be issued, redeemed and converted at prices computed on the basis of the Net Asset Value per Unit, within the relevant Sub-Fund, as defined in the Management Regulations.

The Fund is managed in the interest of its Unitholders by the Management Company, a public limited company ("société anonyme") incorporated under the laws of Luxembourg and having its registered office in Luxembourg.

The assets of the Fund are separate from those of the Management Company and from those of other funds managed by the Management Company.

The Management Company manages the assets of the Fund in accordance with the Management Regulations. The Management Regulations are deposited with the Registre de Commerce et des Sociétés Luxembourg, where they may be inspected and copies may be obtained. A notice advising of the publication and deposit of the Management Regulations with the registry was published in the Mémorial, Recueil des Sociétés et Associations of Luxembourg.

Investment Management Report

General Market Overview

<u>Equities</u>

2018 started out as a volatile year, with equities markets surging in January before falling back sharply in early February due to higher US wage inflation and rumors of faster than expected US Federal Reserve (FED) tightening.

Equity markets continued in a seesaw pattern until the end of March then rose steadily through late September on the back of "strong" economic data, ignoring all unsettling geopolitical events.

From their peak in September, markets fell heavily through to the 3rd week of December, as the US-China trade war continued, economic reports starting to point to slower growth in the US, China and Europe, and Brexit negotiations dragging down. The MSCI world index as measured by the MXWO lost some 15%.

World equity markets rebounded the last week of December as the FED announced it would be more cautious on rate hikes and the Chinese and US Presidents agreeing on a 3 months truce on trade, helping markets to recover by providing some kind of relative stability.

<u>Bonds</u>

The global bond market was impacted by volatility throughout the year. Government bonds yields rose and fell along with investor sentiment, which reversed several times in 2018. Overall, corporate bonds had a very bad year, underperforming government bonds.

Central banks started the year with hawkish outlooks: as expected, the FED raised its rates 3 times in 2018 and the European Central Bank (ECB) announced the end of its bond purchase program.

However, the year ended on a downbeat tone, due to the inversion of the US yield curve on the back of macro-economic uncertainty. The 10 year US Treasury bond ended 2018 at a yield of 2.69% when the LIBOR (London Inter-Bank Offering Rate) rate was at 2.80%.

DIP - BlueMar Long - Short Fund

The Sub-Fund was launched at the end of October 2018, during a period of volatile markets and challenging trading conditions. High volatility and the gains in large cap banks and capital market brokers were not enough to make up for the losses in business

services, regional and trust banks and life insurances. In the second half of December, at the through of the market, the Sub-Fund started to identify tactical opportunities and increased its average Net Exposure.

In 2018, the performance of the Sub-Fund was:

- LU1850282754 A Class A -6.92%
- LU1850283059 B Class B -7.01%

DIP - Client Risk 3

The purpose of the Sub-Fund is to optimize the risk/reward ratio with a capital preservation policy and with 3% maximum ex-ante volatility. The Sub-Fund will invest in a wide range of asset classes: equities, fixed income, currencies, etc.

The economic context for this Sub-Fund has been difficult, because most asset classes have not produced positive returns in 2018. As a conservative multi-asset Sub-Fund, it has been really difficult to extract value from a dynamic asset allocation approach.

The underperformance against its composite benchmark (which is composed of 52% EONIA, 28% Barclays Global Aggregate Corporate Total Return Index Hedged, 20% MSCI World in Local Currency) was mainly due to the over exposure to emerging market bonds during the first part of the year. The Sub-Fund had almost no USD, which contributed positively to the performance during the year, and was a hedge against the fall of equities and bonds in emerging markets. Our systematic approach does not work well in trendless markets, and it impacted negatively the performance.

At the end of the year we increased the USD exposure in the Sub-Fund in order to minimize the risk of the Sub-Fund as many assets were negatively correlated to the USD. We integrated the currency risk exposure into our methodology, allowing assets with a negative correlation to the USD to be over-exposed and assets with a positive correlation to the USD to be underexposed. Having direct investments in these types of assets in USD greatly improves the risk/reward of the strategy by obtaining almost the same return for less risk, thus increasing the Sharpe ratio of the Sub-Fund. The very high rotation, about 40% monthly, shows that the Sub-Fund had no static investments.

In 2018, the performance of the Sub-Fund was:

• LU0804746799 - A Cap Class A -4.83%

Investment Management Report (continued)

DIP - Client Risk 7

The objective of the Sub-Fund is to outperform its benchmark. In 2018, the Sub-Fund was down -10.72%. The under-performance of the Sub-Fund against its composite benchmark, (42.5% EONIA 1 year, 40% MSCI World Index, 17.5% Barclays Capital Euro Aggregate Bond Index) is mainly attributable to the high allocation in equities in the Sub-Fund during the last part of the year, and to its over-exposure to European markets versus US markets. The direct investment in High Yield Bonds and in Contingent Convertible bonds created an overweight in Corporate bonds versus Government bonds, also contributing to the negative performance.

In 2018, the performance of the Sub-Fund was:

• LU0804747177 - A Cap Class A -10.72%

DIP - European Equities Fund

The Sub-Fund is invested completely in European equities, using both direct investments in stocks and European futures indices. The main objective of the Sub-Fund is to outperform its benchmark: the MSCI Europe ex UK Local Currency Index.

European equities lagged developed markets rivals in 2018. The STOXX Europe 600 Index fell 13.24% in 2018, representing the largest yearly drop since 2008. Almost all of the 19 sub-sectors within the index recorded losses, with only utilities, healthcare and oil and gas gaining slightly. Finance and automobiles performed the worst, losing more than 25%. Investors sold off European banks last year due to issues in Italy, the Turkish crisis, negative rates and poor earnings.

The over-performance of the Sub-Fund comparing to its benchmark, is mainly attributable to the low volatility companies in the portfolio. The beta has remained pretty low during the whole year, below 0.80, which has contributed a lot to the performance by avoiding the volatile European markets.

About the asset allocation, our systematic approach generates a great diversification through the different sectors, but avoided the European banks and Consumer Discretionary sectors, which have underperformed the main index. We managed to overweigh the Consumer Staples and Utilities sectors, which have been outperforming the main European index during almost the whole year. The Sub-Fund is managed with a systematic approach. The strategy has a 33% monthly rotation rate, so the full portfolio could completely every three months. Due to the high rotation rate, there are no static investments in the Sub-Fund. Because of this, following the quantitative approach, when a stock is not performing up to expectations, or is not a valuable position in terms of risk/return or in terms of decorrelation, we will decide to eliminate the stock from the portfolio.

In 2018, the performance of the Sub-Fund was:

• LU1033775955 - A Cap Class A -4.07%

DIP - LIFT Global Value Fund

The Sub-Fund's objective is to preserve the invested capital and to provide a superior rate of return over the long-term while minimizing the market short-term volatility through an active and flexible investment strategy. The investment selection is conducted following value investing principles combined with the thorough analysis and disciplined decision-taking process used in private equity investments.

At the end of 2018 the net exposure of the Sub-Fund (taking into account any hedge on equities and fixed income) was approximately 30% in fixed income securities and 27% in equity. This compares with a net exposure of 24% in fixed income and 24% in equity at the end of 2017, but exposure has been managed actively throughout the year, with an initial increase in equities which was later downsized during market rallies.

Despite the significant drop of global equity markets during the year 2018, the performance of the Sub-Fund (Class A) was -3.62%, achieving the Sub-Fund objective to preserve invested capital over the long-term while minimizing the market short-term volatility.

In 2018, the performance of the Sub-Fund was:

- LU1379136820 A Cap Class A -3.62%
- LU1628005743 B Cap Class B -4.35%

DIP - Market Risk Global Bonds

Strong sentiment deterioration about the economic cycle throughout the year and fears of a possible global recession both served as catalysts for the collapse of the global stock markets. The European Central Bank (ECB) reinforced this feeling by adopting an accommodative stance, and by eliminating the fear of

Note: The figures stated in this report are historical and not necessarily indicative of futures results.

Investment Management Report (continued)

price rises (that the economy could resist at this stage). Complacency has returned to the markets: in just a few weeks the consensus has turned from expecting three rate hikes in 2019 by the US Federal Reserve (FED) to not expecting any at all.

Concerning monetary policy, at the end of December the risk that the FED could strangle the growth of the economy by being excessively aggressive with the rate hikes was greatly reduced.

2018 has nonetheless been a tough year on the credit markets. Political risks (Brexit, Italian budget crisis and Catalonia's independence crisis) and a more challenging growth environment forced investors to reprice risk higher.

US government yields have increased because of the FED interest rate hikes. The rhythm of the rate hikes was reduced at the end of the year because of doubts on the evolution of the economic cycle. This produced a flattening the US Government bonds' yield curve.

In Corporate Credit, we have seen a huge widening in credit spreads, especially in the fourth quarter of 2018, with strong movements in subordinated debt and issuers linked to the economic cycle.

We managed actively the investments in Peripheral bonds throughout 2018, profiting from the increased volatility of these issuers, especially Italy's bonds.

In the last quarter of the year, we reduced the Sub-Fund's average duration, as well as the "short" positions in German government bonds (called bunds). Because of the high cross currency cost, we also reduced the Sub-Fund's investments in USD bonds.

We managed actively the Sub-Fund's sector composition of the portfolio during the year, by being over-weighted in the financial sector (both in senior and in subordinated bonds). The Sub-Fund has invested in Corporate Hybrid issuers with good fundamentals, low leverage, mostly in bonds with calls in the next coming years.

At the end of 2018, the composition of the portfolio was 24% in subordinated financials bonds, 6% corporate hybrids issuers, 10% in senior financial bonds, 28% in corporate senior debt, 16% governments or agencies debt and 16% in cash.

We reduced the Sub-Fund's holdings in low liquidity bonds.

We have invested in flattening strategies in Germany bunds (buy 30 Year /sell 5 Year).

We looked for opportunities in the primary market, buying Investment Grade and High Yield corporate and financial issues with short and medium duration that were offering a premium versus the secondary market. We broadly focused on a mix of corporate and financial issues which we believed had either a strong credit position or an interesting relative value.

The average rating of the fixed income portfolio is BBB. The average duration of the portfolio has declined to 1.8 years. The average yield of the portfolio is around 2.0%.

At the end of 2018, the Sub-Funds holds one defaulted bond in the portfolio: IT0005104713 (FERRARINI). The company will present a debt-restructuring plan in the first quarter of 2019.

In 2018, the net performance of the Sub-Fund was -4.75%. The benchmark (70% Barclays Global Aggregate Corporate Total Return Index Hedged, 30% EONIA) performance was -1.77%.

The Sub-Fund has under-performed its benchmark due to the greater exposure in corporate credit in 2018. We have seen huge widening in credit spreads, and a high volatility in Italian bonds that have penalized the portfolio in certain times. Other factors that have penalized the performance of the Sub-Fund were the short positions in German bunds and the small exposure in risk-free bonds in the Eurozone.

In 2018, the performance of the Sub-Fund was:

• LU0546216986 - A Cap Class A -4.75%

DIP - Market Risk Global Equities

The Sub-Fund is a flexible global equities fund managed through a disciplined investment process by screening a variety of factors. 2018 was a difficult year for global equity Indexes as the majority of the markets suffered severe losses. During 2018, the Sub-Fund was down -12.49%, underperforming its benchmark, which is composed of 75% of MSCI World in Local Currency and 25% EONIA. This underperformance was mainly due to the low equity exposure that we kept during April and August.

Note: The figures stated in this report are historical and not necessarily indicative of futures results.

Investment Management Report (continued)

In 2018, the performance of the Sub-Fund was:

• LU0546216713 - A Cap Class A -12.49%

DIP - Spanish Equities Fund

The Sub-Fund is mainly invested in Spanish equities and on an ancillary basis in Portuguese equities.

2018 was a difficult year for the global equity markets, heavily affected by the potential risks linked to the tariffs war and the global economic slowdown. But despite this environment, the Spanish economy followed the path of the previous years: the Spanish Gross Domestic Product (GDP) growth was higher than the average GDP growth of European countries.

In contrast to the positive growth of the country, the performance of the Spanish Equities Sub-Fund has been very poor. We over-weighted investments in banks and media (two cyclical sectors) in order to gain some exposure to the positive economic GDP performance. However, both sectors did not perform as expected. We had anticipated margin improvements in the banking sector, but the increase in central banks interest rates was delayed and as a result we do not expect any changes for 2019.

In early 2018, the media sector was benefiting from strong headwinds because of the changes in the advertisement sector. We expected a challenging future for the media sector. But we have been obliged to note that the market has overreacted. The sector did not perform well last year.

The Sub-Fund did not change its strategic positioning during the year, being over-weighted in financials, media and telecoms and underweighted in utilities and consumer discretionary stocks.

In 2018, the performance of the Sub-Fund was:

• LU1567663486 - A Cap Class A -19.59%

DIP - Strategic Portfolio Fund

The Sub-Fund is investing in a mix of assets, managed through a diversified asset allocation process, which aims to outperform its composite benchmark: 42.50% EONIA, 40% MSCI World Equities Local Currency Index, and 17.50% Barclays Cap Euro Aggregate Bond Index Value.

We have progressively reduced The Sub-Fund's exposure to fixed income in favor of alternative

investments and some conservative positions. The active management of the geographic allocation has been one of the biggest challenges in 20018 for the Sub-Fund. We kept (and strategically over-weighted) Europe versus the US. The Sub-Fund suffered from the underperformance of the Emerging Markets both in equities and fixed income.

The equity exposure which was managed by active equity managers weighted negatively on the performance of the Sub-Fund. The lack of alpha was a common theme in 2018. In the next phase of the economic cycle, fundamentals should weight more and at the same time dispersion should increase, both creating a better environment for active managers.

In 2018, the performance of the Sub-Fund was:

• LU1300816490 - A EUR Cap Class A -8.68%

DIP - Taltrack Equity Managers Fund

The Sub-Fund lost 12,69% during 2018, underperforming its benchmark: MSCI World Local Currency. During the year, we have made some adjustments in regional funds and we have reduced our exposure in global equity funds. No major changes in the strategy of the portfolio were made in 2018. The main reason for the underperformance is the cost of USD hedging to eliminate the USD risk against the Euro. The benchmark has no USD risk as it is a local currency index.

- In 2018, the performance of the Sub-Fund was:
 - LU1086934871 A Cap Class A -12.69%

DIP - US Equities Fund

The Sub-Fund is invested primarily in US equities. The main objective of the Sub-Fund is to outperform its benchmark: S&P 500 Index.

In 2018, the Sub-Fund's underperformance is mainly due to the cyclical companies held in the portfolio during the first half year.

In 2018, the performance of the Sub-Fund was:

- LU0918540740 A Cap Class A -14.69%
- LU1000540432 B Cap Class B -10.94%

Note: The figures stated in this report are historical and not necessarily indicative of futures results.

General Information

The Management Company of the Fund decided to adopt the commitment approach for the Sub-Funds DIP - BlueMar Long - Short Fund, DIP - European Equities Fund, DIP - LIFT Global Value Fund, DIP - Market Risk Global Bonds, DIP Spanish Equities Fund and DIP - US Equities Fund to determine the global market risk exposure.

Summary of Value at Risk (VaR)

All the other five Sub-Funds are following the absolute VaR approach. The calculation of VaR is carried out using historical simulation in accordance with the following parameters:

(a) one-tailed confidence interval of 99%;

(b) Holding period equivalent to 1 month (20 business days);

(c) Effective observation period (history) of risk factors of at least 1 year (250 business days). A shorter observation period is justified by a significant increase in price volatility;

(d) Quarterly data set updates, or more frequent when market prices are subject to material changes;

(e) At least daily calculation.

Leverage is calculated as the sum of the notionals of the derivatives used according to the CESR Guidelines 10-788.

Leverage and VaR calculation methodologies for the five Sub-Funds are as follows:

VaR

Tur						
Sub-Funds	Calculation Method and Limit	Date Max VaR	Max VaR	Date Min VaR	Min	Average
DIP - Client Risk 3	Absolute VaR max 8%	28/02/2018	3.66%	29/11/2018	0.62%	1.67%
DIP - Client Risk 7	Absolute VaR max 15%	26/10/2018	3.54%	11/01/2018	1.10%	2.41%
DIP - Market Risk Global Equities	Absolute VaR max 20%	13/02/2018	7.28%	05/06/2018	0.79%	3.56%
DIP - Strategic Portfolio Fund	Absolute VaR max 15%	18/10/2018	4.32%	27/12/2018	2.02%	3.64%
DIP - Taltrack Equity Managers Fund	Absolute VaR max 20%	28/05/2018	9.50%	31/01/2018	3.95%	7.32%

Leverage

Sub-Funds	Max Leverage	Min Leverage	Average Leverage
DIP - Client Risk 3	24.48%	15.16%	19.25%
DIP - Client Risk 7	20.72%	0%	2.96%
DIP - Market Risk Global Equities	58.27%	0%	31.03%
DIP - Strategic Portfolio Fund	15.17%	0%	2.30%
DIP - Taltrack Equity Managers Fund	19.94%	0%	5.05%

Audit report

To the Unitholders of **DIP**

Our opinion

In our opinion, the accompanying financial statements give a true and fair view of the financial position of DIP and of each of its sub-funds (the "Fund") as at 31 December 2018, and of the results of their operations and changes in their net assets for the year then ended in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the financial statements.

What we have audited

The Fund's financial statements comprise:

- the Statement of Net Assets as at 31 December 2018;
- the Statement of Investments in Securities as at 31 December 2018;
- the Statement of Operations for the year then ended;
- the Statement of Changes in Net Assets for the year then ended; and
- the notes to the financial statements, which include a summary of significant accounting policies.

Basis for opinion

We conducted our audit in accordance with the Law of 23 July 2016 on the audit profession (Law of 23 July 2016) and with International Standards on Auditing (ISAs) as adopted for Luxembourg by the "Commission de Surveillance du Secteur Financier" (CSSF). Our responsibilities under the Law of 23 July 2016 and ISAs as adopted for Luxembourg by the CSSF are further described in the "Responsibilities of the "Réviseur d'entreprises agréé" for the audit of the financial statements" section of our report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

We are independent of the Fund in accordance with the International Ethics Standards Board for Accountants' Code of Ethics for Professional Accountants (IESBA Code) as adopted for Luxembourg by the CSSF together with the ethical requirements that are relevant to our audit of the financial statements. We have fulfilled our other ethical responsibilities under those ethical requirements.

Other information

The Board of Directors of the Management Company is responsible for the other information. The other information comprises the information stated in the annual report but does not include the financial statements and our audit report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

 $[\]label{eq:pricewaterhouseCoopers, Société coopérative, 2 rue Gerhard Mercator, B.P. 1443, L-1014 Luxembourg T: +352 494848 1, F: +352 494848 2900, www.pwc.lu$

Cabinet de révision agréé. Expert-comptable (autorisation gouvernementale n°10028256) R.C.S. Luxembourg B 65 477 - TVA LU25482518

In connection with our audit of the financial statements, our responsibility is to read the other information identified above and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the Board of Directors of the Management Company for the financial statements

The Board of Directors of the Management Company is responsible for the preparation and fair presentation of the financial statements in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the financial statements, and for such internal control as the Board of Directors of the Management Company determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Board of Directors of the Management Company is responsible for assessing the Fund's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors of the Management Company either intends to liquidate the Fund or to cease operations, or has no realistic alternative but to do so.

Responsibilities of the "Réviseur d'entreprises agréé" for the audit of the financial statements

The objectives of our audit are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an audit report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Law of 23 July 2016 and with ISAs as adopted for Luxembourg by the CSSF will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with the Law of 23 July 2016 and with ISAs as adopted for Luxembourg by the CSSF, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- identify and assess the risks of material misstatement of the financial statements, whether due to
 fraud or error, design and perform audit procedures responsive to those risks, and obtain audit
 evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting
 a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may
 involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal
 control;
- obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control;
- evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Board of Directors of the Management Company;

- conclude on the appropriateness of the Board of Directors of the Management Company's use of the
 going concern basis of accounting and, based on the audit evidence obtained, whether a material
 uncertainty exists related to events or conditions that may cast significant doubt on the Fund's ability
 to continue as a going concern. If we conclude that a material uncertainty exists, we are required to
 draw attention in our audit report to the related disclosures in the financial statements or, if such
 disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence
 obtained up to the date of our audit report. However, future events or conditions may cause the Fund
 to cease to continue as a going concern;
- evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

PricewaterhouseCoopers, Société coopérative Represented by

Luxembourg, 29 April 2019

Notes to the Financial Statements for the year ended 31/12/2018

1. FUND'S DETAILS

DIP (the "Fund") has been established in Luxembourg as a mutual investment fund ("Fonds Commun de Placement") with separate Sub-Funds each constituting a separate portfolio of assets and liabilities. The Fund is registered pursuant to Part I of the Law of 17 December 2010, as amended, on undertakings for collective investment. The fund was created for an indefinite term in Luxembourg on 30 July 2010.

2. FUND'S SUMMARY

The financial Statements are presented in accordance with the requirements of the Luxembourg legal and regulatory requirements. Figures in this report are shown as of 31 December 2018.

The accounts of the Fund, as well as the accounts of the Sub-Funds, are expressed in EUR. The combined statement of net assets and the combined statement of operations and the changes in net assets are the sum of the statement of net assets, the statement of operations and the changes in net assets of each Sub-Fund.

The financial statements for the Fund's first year are 31 December 2011 and subsequently on 31 December of each year. The inception dates for the Sub-Funds for the Fund are as follows:

Sub-Fund	Inception Date
DIP - BlueMar Long - Short Fund (*)	31/10/2018
DIP - Client Risk 3	25/07/2012
DIP - Client Risk 7	25/07/2012
DIP - European Equities Fund	07/03/2014
DIP - LIFT Global Value Fund	04/08/2016
DIP - Market Risk Global Bonds	29/10/2010
DIP - Market Risk Global Equities	29/10/2010
DIP - Spanish Equities Fund	03/03/2017
DIP - Strategic Portfolio Fund	17/12/2015
DIP - Taltrack Equity Managers Fund	19/09/2014
DIP - US Equities Fund	17/05/2013

(*) Sub-Fund launched during the year

3. DETERMINATION OF THE NET ASSET VALUE OF UNITS

The Net Asset Value per Unit of each Class of Units in each Sub-Fund is determined on each Valuation Day and is expressed in the Reference Currency of the Sub-Fund.

The Net Asset Value per Unit of each Class of Units is determined by dividing the value of the total assets of that Sub-Fund properly allocable to such Class less the liabilities of such Sub-Fund properly allocable to such Class by the total number of Units of such Class outstanding on the relevant Valuation Day.

4. REFERENCE CURRENCY

The reference currency of the Fund is Euro.

5. FOREIGN EXCHANGE

The Fund, during the year, has placed investments primarily in USD, JPY and EUR (its reference currency). The EUR foreign exchange rates as at 31 December 2018 are as follows:

Currency	Exchange rate	Currency	Exchange rate
Australian Dollar (AUD)	1.6245	Indonesian Rupiah (IDR)	16,446.3705
Canadian Dollar (CAD)	1.5617	Japanese Yen (JPY)	125.4543
Swiss Franc (CHF)	1.1272	Norwegian Krone (NOK)	9.9006
British Pound (GBP)	0.8978	Swedish Krona (SEK)	10.1375
Danish Krone (DKK)	7.4630	US Dollar (USD)	1.1433
Hong Kong Dollar (HKD)	8.9516		

6. SIGNIFICANT ACCOUNTING POLICIES

The Fund's financial statements are prepared in accordance with the Luxembourg regulations relating to undertakings for collective investment in transferable securities.

A. Foreign currencies

The accounting and financial statements of the Fund are expressed in Euro (EUR). The net assets as well as the market value of the investments in securities expressed in currencies other than EUR are converted into EUR at the exchange rate prevailing at the balance sheet date. Income and expenses expressed in currencies other than EUR are converted into EUR at the prevailing exchange rate at payment date. Gain or loss on foreign currencies is included in the Statement of Changes in Net Assets. The cost of securities denominated in currencies other than EUR is converted at the exchange rate prevailing at the date of acquisition.

B. Valuation of outstanding forward foreign exchange contracts

Unrealised appreciation and depreciation of outstanding forward foreign exchange transactions is valued at the forward rate applicable at the balance sheet date for the remaining period until maturity. Outstanding forward foreign exchange contracts as at year-end are disclosed in Note 10.

C. Valuation of outstanding financial futures contracts

Outstanding futures contracts are valued by reference to the last available settlement price on the relevant market. Outstanding futures contracts as at year-end are disclosed in Note 11.

D. Valuation of Investments

The net asset value is calculated in accordance with the following principles:

- The value of any cash on hand or on deposit, bills and demand notes and accounts receivable, prepaid expenses, cash dividends and interest declared or accrued as aforesaid and not yet received is deemed to be the full amount thereof, unless in any case the same is unlikely to be paid or received in full, in which case the value thereof is arrived at after making such discount as may be considered appropriate in such case to reflect the true value thereof.
- 2. The value of assets, which are listed or dealt in on any stock exchange, is based on the closing price of the preceding business day on the stock exchange, which is normally the principal market for such assets. If an asset is listed on multiple stock exchanges or regulated markets, the closing price on the stock exchange or regulated market, which constitutes the main market for such asset is used.
- 3. The value of the Total Return Swap is based on the closing prices of the underlying assets, cash in hand and income received and as well any expenses incurred within the Prime brokerage account of Morgan Stanley.
- 4. The value of assets dealt in on any other regulated market is based on the closing price of the preceding business day.
- 5. In the event that an asset is not listed or traded on a stock exchange or another regulated market or if the price as determined pursuant to paragraph above is not representative of the fair market value of the corresponding asset, the value of such asset is determined based on the reasonably foreseeable sales price determined prudently and in good faith by the Board of Directors of the Management Company.
- 6. All other assets are valued at fair market value as determined in good faith pursuant to the procedures established by the Board of Directors of the Management Company.

The Management Company, at its own discretion, may permit some other method of valuation to be used if it considers such valuation to be in the interest of a fair valuation of an asset of the Fund.

E. Acquisition of investments and realised gain/(loss) on disposal of investments

Investments are initially recognised at cost, which is the amount paid for the acquisition of securities, including transaction costs. Realised gains or losses arising on disposal of investments are determined on the basis of the average cost of investment sold and are recognised in the Statement of Operations.

F. Income recognition

Dividend income is accounted for on an ex-dividend basis, net of withholding tax. Interest income is recognised on an accrual basis.

G. Formation expenses

The costs of establishing the Fund are capitalised and written down over five years on a straight-line basis.

- 6. SIGNIFICANT ACCOUNTING POLICIES (continued)
 - H. Out-of-pocket expenses

Any reasonable disbursements and out-of-pocket expenses (including without limitation telephone, e-mail, website, cable and postage expenses) incurred by the Depositary, paying agent, registrar and transfer agent and any depositary charges of banks and financial institutions to which custody of assets of a Sub-Fund is entrusted, will be borne by the relevant Sub-Fund.

7. SUBSCRIPTION TAX

In accordance with the regulations, the Fund is subject to an annual "taxe d'abonnement" at a rate of 0.05% payable quarterly on the basis of the net assets of the Fund.

8. MANAGEMENT COMPANY AND INVESTMENT MANAGEMENT FEES

The Management Company and the investment manager are entitled to a management fee out of the Net Assets of the relevant Sub-Fund payable at the end of each quarter. Such fee is established as follows:

Sub-Fund	Management Company Fee per year	Effective Management Fee per year
DIP - BlueMar Long - Short Fund (*) (***)	0.05% with minimum 7,500 EUR	Class A - 1.50% Class B - 1.50%
DIP - Client Risk 3	0.05% with minimum 5,000 EUR	Class A - 0.80%
DIP - Client Risk 7	0.05% with minimum 7,500 EUR	Class A - 1.00%
DIP - European Equities Fund	0.05% with minimum 7,500 EUR	Class A - 1.50%
DIP - LIFT Global Value Fund (**)	0.05% with minimum 3,000 EUR	Class A - 1.25% Class B - 2.00%
DIP - Market Risk Global Bonds	0.05% with minimum 5,000 EUR	Class A - 0.80%
DIP - Market Risk Global Equities	0.05% with minimum 7,500 EUR	Class A - 1.50%
DIP - Spanish Equities Fund	0.05% with minimum 7,500 EUR	Class A - 1.75% Class I - 1.25%
DIP - Strategic Portfolio Fund	0.05% with minimum 7,500 EUR	Class A - 1.00%
DIP - Taltrack Equity Managers Fund	0.05% with minimum 7,500 EUR	Class A - 0.90%
DIP - US Equities Fund	0.05% with minimum 7,500 EUR	Class A - 1.50%

(*) The Sub-Fund launched during the year - refer to note 2

(**) The Sub-Fund pays Investment Advisory Fee for Class A and B respectively of 0.625% and 1% per year from the Investment Management Fee

(***) The Sub-Fund pays Sub-Investment Management Fee for Class A and B of 0.5% per year from the Investment Management Fee

9. PERFORMANCE FEES

The Investment Manager is entitled to receive, out of the assets of the relevant Sub-Fund(s), a performance fee for such Sub-Fund(s) where the Net Asset Value per Unit of such Sub-Fund(s) outperforms its high water mark. The high water mark is defined as the greater of the following two figures; the last highest Net Asset Value per Unit on which performance fee has been paid or the initial Net Asset Value per Unit. The performance fee is payable quarterly in arrears and is calculated and accrued on each Valuation Day on the basis of the Net Asset Value of the relevant Sub-Fund(s) or Class(es) thereof, on the relevant Valuation Day, as provided for each Sub-Fund or Class thereof. Such fee is established as follows:

Sub-Fund	Share Class	Performance Fees
DIP - BlueMar Long - Short Fund (*)	Class A / B	20.00% / 20.00%
DIP - Client Risk 3	Class A	5.00%
DIP - Client Risk 7	Class A	9.00%
DIP - European Equities Fund	Class A	10.00%
DIP - LIFT Global Value Fund	Class A / B	5.00% / n/a
DIP - Market Risk Global Bonds	Class A	5.00%
DIP - Market Risk Global Equities	Class A	10.00%
DIP - Spanish Equities Fund	Class A	n/a
DIP - Strategic Portfolio Fund	Class A	10.00%
DIP - Taltrack Equity Managers Fund	Class A	5.00%
DIP - US Equities Fund	Class A / B	10.00% / 10.00%

(*) The Sub-Fund launched during the year - refer to note 2

12. DEPOSITARY AND SAFEKEEPING FEES

The Depositary is entitled to a fee, payable monthly and calculated on the average net assets of the month of each Sub-Fund of 0.06% p.a. up to EUR 75 million; 0.045% p.a. from EUR 75 million to 250 million and 0.025% above EUR 250 million, with a minimum of EUR 10,000 per year for the whole Fund.

A supplementary Depositary Control Fee of 0.005% of the net assets and per Sub-Fund is also payable monthly and calculated on the average net assets of the month.

13. ADMINISTRATION FEES

The administration fee is payable monthly in arrears and is calculated and accrued on each Valuation Day on the basis of the Gross Asset Value of the relevant Sub-Fund(s) or Class(es) thereof, on the relevant Valuation Day, and shall not exceed:

- DIP BlueMar Long Short Fund: 0.09% per year with a minimum of EUR 16,000,
- DIP Client Risk 3: 0.09% per year with a minimum of EUR 16,000,
- DIP Client Risk 7: 0.09% per year with a minimum of EUR 16,000,
- DIP European Equities Fund: 0.09% per year with a minimum of EUR 16,000,
- DIP LIFT Global Value Fund: Up to 0.09% per year with a minimum of EUR 16,000,
- DIP Market Risk Global Bonds: 0.09% per year with a minimum of EUR 16,000,
- DIP Market Risk Global Equities: 0.09% per year with a minimum of EUR 16,000,
- DIP Spanish Equities: Up to 0.09% per year with a minimum of EUR 16,000,
- DIP Strategic Portfolio Fund: 0.09% per year with a minimum of EUR 16,000,
- DIP Taltrack Equity Managers Fund: 0.09% per year with a minimum of EUR 16,000, and
- DIP US Equities Fund: 0.09% per year with a minimum of EUR 16,000.

14. TRANSFER AGENT FEES

The Registrar and Transfer Agent fee is payable monthly in arrears and an annual flat rate is applied of EUR 4,000 per Sub-Fund with an additional EUR 500 per annum per share class after the 2nd share class.

15. CROSS-INVESTMENT

The value of the cross-investment has not been eliminated from the combined figures. There is one cross-investment concerning the following:

Sub-Fund DIP - Client Risk 7 in the Sub-Fund DIP - BlueMar Long - Short Fund.

As at 31 December 2018, the total cross Sub-Fund investment amounts to EUR 232,277.50 and therefore the total combined net assets of DIP at year-end, excluding the cross investment would amount to EUR 310,640,136.99.

16. CHANGES IN PORTFOLIO COMPOSITION

Details of purchases and sales of investments are available free of charge at the registered office of the Management Company.

17. MANAGEMENT FEE OF THE TARGET FUNDS

18. TOTAL RETURN SWAP

The Sub-Fund DIP – BlueMar Long – Short Fund investment objective is to generate attractive, risk-adjusted returns over time primarily through investments in long and short equity securities of U.S. and non-U.S. issuers. The Sub-Fund's investment (directly and via TRS) will be concentrated in Developed Markets and mainly in the U.S. Occasionally the Sub-Fund can invest in Emerging Markets ("EM") (with a maximum exposure of 30% limit to EM of the underlying assets of the TRS).

The Investment Manager has investments in an underlying portfolio using a Total Return Swap ("TRS") to allow the Sub-Fund to gain exposure to this portfolio. The Investment Manager of the Sub-Fund uses a TRS as opposed to buying each individual underlying investment in order to maximize operational efficiency and effectiveness.

The approved counterparty is Morgan Stanley & Co. International PLC, a UK based entity with an A-1 (short term) and A+ (Long Term) rating by S&P at the time of selection.

The positions that underlie the TRS at 31 December 2018 are comprised of listed securities entirely from US and European Union issuers. The financial instruments used in the TRS are long and short positions in equity securities, equity futures contracts, composite swap baskets, and foreign exchange currency. All counterparty credit exposure on the TRS is with Morgan Stanley & Co. International PLC, the swap counterparty.

As of 31 December 2018, the total market value of the TRS is 24,781,550.91 USD with a notional value of 24,683,142.70 USD and an unrealized amount of 98,408.20 USD.

19. SUBSEQUENT EVENTS

There were no subsequent events.

Unaudited appendix

Remuneration Policy

The Management Company established a remuneration policy that is compatible with a sound and efficient management of risks, that encourages such management, and which does not encourage excessive risk-taking which would be inconsistent with the risk profiles, rules or instruments of incorporation of the Funds.

The remuneration policy is aligned with the business strategy, objectives, values and the interests of the Management Company, of the Funds and of the investors in such Funds; and includes measures to avoid conflict of interests.

The remuneration policy and practice applies to those categories of employees, including senior management, risk takers, control functions and any employee receiving total remuneration that falls within the remuneration bracket of senior management and risk takers whose professional activities have a material impact on the risk profiles of the management companies or of the funds that they manage.

The below represents the total fixed and variable remuneration of the staff of the Management Company attributable to all the funds it manages, taking into account UCITS and non-UCITS; as well as the figures proportionate to the total net assets of the Fund:

DIP:

	Total for the Management Company	Proportionally to the assets of the Fund
Fixed remunerations	2,302,770	164,166
Variable remunerations	25,117	1,791
Number of beneficiaries (average headcount)	38	2.71
Amount paid directly by the Fund	0	0

The below represents the total fixed and variable remuneration of the staff of the Management Company attributable to all the funds it manages, taking into account UCITS and non-UCITS; as well as the figures proportionate to the total net assets of the Fund:

The below represents the aggregate amount of remuneration broken down by executive and identified staff, whose actions have a material impact on the risk profile of the funds, taking into account UCITS and non-UCITS; as well as the figures proportionate to the total net assets of the Fund:

DIP:

	Total for the Management Company	Proportionally to the assets of the Fund
Remuneration to management	427,140	30,451
Identified staff	295,821	21,089

The fixed element represents a sufficiently large proportion of the total remuneration and allows the Management Company to operate a completely flexible bonus policy, including the possibility to pay no variable remuneration component. No remuneration includes a variable element commitment. Bonuses were awarded by combining the evaluation of each employee's own performance based on non-financial criteria with that of the relevant operational department concerned and the results of the Management Company.

The Board of Directors establishes the general principles governing the Management Company's remuneration policy and supervises its implementation. This process is governed by the non-executive directors. In establishing this policy, the Board of Directors of the Management Company takes into account all elements pertaining to the Management Company's strategy, the risk-taking strategy, and the nature, scale and complexity of the activities. The Board of Directors of the Management Company is reviewing the remuneration policy on a yearly basis.

Unaudited appendix (continued)

Remuneration Policy (continued)

The implementation of this remuneration policy is subject, at least once a year, to an internal, centralised and independent analysis by control functions (primarily by the Compliance Officer), in order to verify compliance with the policies and procedures established by the Board of Directors.

The Remuneration Policy was updated in December 2018 in compliance with the Law of May 10 2016 and with the EU Directive 2014/914/UE. It is available on the website of the Management Company.

Securities Financing Transaction Regulation ("SFTR")

As at 31 December 2018, the only Sub-Fund invested in a total return swap ("TRS") is DIP - BlueMar Long – Short Fund. As at year end, the cash collateral linked to the TRS held by Morgan Stanley & Co. International PLC sums to 1,430,000 USD, which represents 5.49% of the net assets of the Sub-Fund. The total amount engaged with the TRS sums to 24,781,550.91 USD, which represents 95.06% of the net assets of the Sub-Fund. The Sub-Fund. The TRS has no securities/commodities on loan. The cost of the TRS sums to an amount of 105,086.70 USD which represents 0.40% of the net assets of the Sub-Fund. Finally, the return of the TRS sums to an amount of -1,381,614.46 USD which represents -5.30% of the net assets of the Sub-Fund.

The other Sub-Funds do not intent to enter in any kind of TRS, as defined in the Regulation (EU) 2015/2365 of the European Parliament and of the Council of 25 November 2015 on transparency of securities financing transactions and of reuse and amending Regulation (EU) 648/2012.
