# **Management Report**

# **ELEVA European Selection**

In H1 2024, the ELEVA European Selection Fund - Class I (EUR) acc. is up 10.48% vs the STOXX Europe 600 index (Net Return), up 8.86%, an outperformance of 162 bps. Since inception the Fund is up 120.28% vs the index up 76.88%, an outperformance of 4,340 bps.

In H1, the sector allocation contributed slightly to the fund performance. The underweight in consumer staples and real estate and the overweight in technology contributed positively. On the other hand, the overweight in materials and financials and the underweight in health care detracted.

Stock-picking was a big contributor to H1 performance. The stock-picking in financials and health care was very favorable, but the consumer space was detrimental to the fund performance.

Looking at stock specifics, the fund benefitted from the good performance of financials (UniCredit, 3i Group, BBVA, Intesa Sanpaolo, Barclays) in the higher rate environment. As in 2023, Novo Nordisk is a top contributor to performance as it continues to deliver strong growth prospects. ASML was favored by investors as its technology is boosted by the AI story.

Among detractors, we find some companies which suffered from disappointing results (BNP Paribas, Infineon, Sika, Puma), the materialization of regulatory risks (Lloyds Banking Group, Edenred) or some which were absent from the portfolio (Rio Tinto, Shell, ING Groep).

### **ELEVA Euroland Selection**

In H1 2024, the ELEVA Euroland Selection Fund - Class I (EUR) acc. is up 8.38% vs the Euro Stoxx index (Net Return), up 7.94%, an underperformance of 44 bps. Since inception the Fund is up 73.43% vs the index up 55.86%, an outperformance of 1,757 bps.

In H1, the sector allocation was beneficial to the fund performance. The underweight in consumer staples and in health care and the overweight in technology contributed positively. On the other hand, the overweight in materials and financials and the underweight in energy detracted.

Stock-picking was also a contributor to H1 performance. The stock-picking in health care, materials and financials was favorable, but the selection effect was negative in consumer discretionary, industrials and technology.

Looking at stock specifics, the fund benefitted from the good performance of financials (UniCredit, BBVA, Intesa Sanpaolo) in the higher rate environment. As in 2023, Novo Nordisk is a top contributor to performance as it continues to deliver strong growth prospects. ASML was favored by investors as its technology is boosted by the AI story.

Among detractors, we find some companies which suffered from disappointing results (BNP Paribas, Infineon, Puma, Hugo Boss, Deutsche Post) and the materialization of specific risks (Edenred, Arkema).

Société d'Investissement à Capital Variable

### Management Report (continued)

# ELEVA Absolute Return Europe

The ELEVA Absolute Return Europe Fund – Class R (EUR) acc. is up 5.88% in H1 2024. Since inception, the strategy is up 53.67%.

In H1, alpha generation was very positive in the long book but was more difficult in the short book.

In the long book, financials, health care, industrials and technology were sector contributors while the consumer sectors and utilities detracted. Looking at stock specifics, the long book benefitted from the good performance of financials (UniCredit, 3i Group, BBVA, Intesa Sanpaolo, Barclays) in the higher rate environment. As in 2023, Novo Nordisk is a top contributor to performance as it continues to deliver strong growth prospects. ASML was favored by investors as its technology is boosted by the AI story. On the other hand, the long book was affected by some companies which suffered from disappointing results (BNP Paribas, Infineon, Puma), the materialization of regulatory risks (Lloyds Banking Group, Edenred) or some which were absent from the portfolio (Rio Tinto).

The short book was detrimental to the fund performance, both the index overlay and single names contributed negatively.

### ELEVA Leaders Small & Mid-Cap Europe

In H1 2024, the ELEVA Leaders Small & Mid Cap Europe Fund - Class I (EUR) acc. is up 5.72%, outperforming its benchmark by 184 bps, the STOXX Europe Small 200 Index (Net Return), up 3.88%. Since inception, the strategy is up 69.57% vs. the index up 47.06%, an outperformance of 2,251 bps.

On the one hand, the sector allocation was positive over the period. The underweight in financials and the overweight in technology detracted but this was more than compensated by the positive contribution of the overweight in industrials and the underweight in real estate, consumer discretionary and materials.

The stock-picking was also positive in H1. The strongest contributors were among technology (ASM International, ASML, Halma), industrials (SPIE, Arcadis, Elis, NKT, ID Logistics) and energy (Subsea7). The main detractors were found in technology (Aixtron, Edenred), health care (Sartorius Stedim, CompuGroup Medical, bioMerieux) and materials (Sika).

#### Management Report (continued)

#### **ELEVA Global Bonds Opportunities**

ELEVA Global Bonds Opportunities was launched in September 2020. The fund is up 1.61% in H1 2024 (I acc. EUR share class).

More resilient European and US economies than previously expected and sticky core inflation from developed market central banks pushed short term rates higher. The fund duration was kept between 2.5 and 3.5 years during H1 2024, the exposure being split between the US and the Eurozone with a short position on Japanese govies. The duration positioning detracted, except for Japanese rates as the BoJ started to tighten its policy. The steepening positioning on the long end of the German and US curves detracted during the period. Regarding European govies, the portfolio remained slightly long Italy and short France at the end of Q2 (following the call for French snap elections). The credit pocket contributed positively as spread tightened across both the HY and IG ratings spectrum. We progressively reduced our allocation to European credit using CDS. We still favor hybrids but remain very selective. Emerging markets detracted mainly due to the Mexican positioning in local currency following the country's presidential elections. The fund's performance on FX strategies is negative mostly due to a weakening of JPY.

ELEVA Global Bonds Opportunities – I EUR Acc. is up 0.85% since inception.

#### **ELEVA Euro Bonds Strategies**

ELEVA Euro Bonds Strategies was launched in September 2020. The fund is down 0.52% in H1 2024, outperforming its benchmark (the Bloomberg Euro Aggregate Total Return Index Value Unhedged EUR) by 69 bps.

The fund was overweight duration in H1 2024, positioning which detracted. The portfolio duration in core German yields increased, the portfolio remained overweight versus its benchmark. The credit pocket was the main positive contributor driven by hybrids, bank subordinated debt and real estate. The exposure to credit was decreased using CDS exposure at the end of the period (following the call for French snap elections). The fund positioning on emerging countries (Poland & Romania) via EUR labelled securities contributed positively. Regarding the relative value strategies, the steepening positioning on the long end detracted whereas the steepening positioning on the front-end contributed positively.

ELEVA Euro Bonds Strategies – I EUR Acc. is down 6.39% since inception, outperforming the Bloomberg Euro Aggregate TR Index by 728 bps.

Société d'Investissement à Capital Variable

### Management Report (continued)

### ELEVA Sustainable Impact Europe

In H1 2024, the ELEVA Sustainable Impact Europe Fund - Class I (EUR) acc. is up 4.94% vs. the STOXX Europe 600 index (Net Return), up 8.86%, an underperformance of 392 bps. Since inception, the fund is up 14.99% vs. the index up 41.34%, an underperformance of 2,635 bps.

Top contributing sectors were Materials, Industrials two sectors on which the fund is overweigh relative to index and Communication Services. On the other hand, Financials, Consumer Discretionary and Utilities were the largest detractors.

The top performers over H1 2024 were SPIE (+92 bps / industrial equipment), and Relx (+77 bps / global provider of analytics and decision tools) and ASML (+67 bps / semiconductors). The main detractors were EDP Renovaveis (-112 bps / production of renewable energy), Alfen (-86 bps / electric grid equipment), and STMicroelectronics (-63 bps / semiconductors).

During H1 2024, the portfolio's construction evolved to incorporate stricter risk limits, particularly regarding minimum liquidity and the sizing of positions relative to its benchmark.

At the end of H1 2024, the fund was made of 35 positions and had a 68% exposure to UN SDG, meaning that if the fund was a company, it would have 68% of its revenue contributing to SDGs.

### ELEVA Euro Multi Opportunities

In 2024, ELEVA European Multi Opportunities - Class I (EUR) acc. is up 7.38%.

Most of the H1 performance was generated by the equity pocket despite the bond pocket also contributed positively.

In the equity pocket, financials, health care, industrials, and technology were the best sector contributors, while the consumer sectors slightly detracted. The top contributors were found in health care (Novo Nordisk), technology (ASML, SAP) and financials (UniCredit, 3i Group, BBVA, Intesa Sanpaolo). On the other hand, the main detractors were found in financials (BNP Paribas, Lloyds Banking Group), technology (Infineon) and materials (Rio Tinto, Sika, UPM).

Sovereign rates moved higher as disinflation remains insufficient for investors. Nevertheless, Ms. Lagarde delivered her first cut in June. The fixed-income pocked contributed positively in H1 thanks to the good performance of credit and the yield steepening strategy. We increased the portfolio duration on the front end, ahead of monetary policy easing and the exposure to France decreased after the dissolution of Parliament.

Société d'Investissement à Capital Variable

#### Management Report (continued)

#### **ELEVA Global Multi Opportunities**

The ELEVA Global Multi Opportunities fund seeks to achieve a positive absolute return over the medium term through capital growth, mainly through active and flexible management of equities and equity related securities of corporate issuers worldwide, bonds, currencies, and other debt securities.

The Sub-Fund will invest its net assets in equities (equity pocket) and debt securities (debt pocket). There are no specific constraints in terms of assets allocation that may vary from 0% to 100 % for each pocket.

The fund was launched on July 5, 2023.

#### **ELEVA Absolute Return Dynamic**

The ELEVA Absolute Return Dynamic fund seeks to achieve a positive absolute return over the medium term through capital growth by investing primarily in listed European equities and equity-related securities on both a long and short (through FDIs) basis, with at least 50% of European equities.

The fund was launched on December 18, 2023.

Société d'Investissement à Capital Variable

#### Schedule of Derivatives 30 June 2024

#### **Investments in Derivative Contracts**

The Fund may use financial derivative instruments ("FDIs") involving Transferable Securities and Money Market Instruments for the purpose of efficient portfolio management ("EPM") of its assets and for hedging purposes. The Fund may also use FDIs for investment purposes in accordance with ESMA Guidelines 2014/937 to meet the Fund's investment objectives only if provided for in the Prospectus within the limits set forth by law, regulation and administrative practice.

When entering into FDIs, securities lending transactions, repurchase agreements or other techniques or instruments, each of the Fund and its counterparties may require delivery of collateral as security against its exposure thereunder. The Sub-Fund's exposure, and therefore the collateral required to be posted, will typically be calculated on a daily mark-to-market basis. The level of collateral required by the Sub-Fund will be such that the risk exposure of each Sub-Fund to a single counterparty will not, unless otherwise permitted under the Law of 2010, exceed 5% of the relevant Sub-Fund's net assets. The Fund may only receive cash collateral, including when entering into Over The Counter Derivatives. Such collateral is typically not subject to a haircut and will be valued at its face value.

#### **Contracts for Differences**

As at 30 June 2024, the Eleva Absolute Return Europe Fund had entered into the following contracts on international listed shares with Societe Generale:

| Country of underlying |             | Commitment   | Unrealised Appreciation/<br>(Depreciation) |
|-----------------------|-------------|--------------|--|
| securities            | Quantity    | EUR          | EUR  |

Société d'Investissement à Capital Variable

#### Notes to the Financial Statements as at 30 June 2024

#### 1. General Information

Eleva UCITS Fund (the "Fund") is an investment company organised as a Société Anonyme under the laws of the Grand Duchy of Luxembourg and qualifies as a Société d'Investissement à Capital Variable (SICAV). The Fund was incorporated in Luxembourg on 22 January 2015 for an unlimited period and is authorised under Part I of the Luxembourg law of 17 December 2010 relating to undertakings for collective investment, as amended (the "Law of 2010"). The Fund qualifies as an Undertaking for Collective Investment in Transferable Securities under Article 1, Paragraph 2, (a) and (b) of the Directive 2009/65/EC.

The Fund has appointed Eleva Capital S.A.S. (the "Management Company") to serve as its designated Management Company in accordance with the Law of 2010. Pursuant to the Investment Management Agreement, Eleva Capital S.A.S. was appointed investment manager to the Fund. The Management Company has appointed, with the consent of the Fund, Eleva Capital S.A.S. as distributor of the Fund.

As at 30 June 2024, the Fund consisted of ten Sub-Funds: Eleva European Selection Fund, Eleva Absolute Return Europe Fund, Eleva Euroland Selection Fund, Eleva Leaders Small & Mid-Cap Europe Fund, Eleva Sustainable Impact Europe Fund, Eleva Euro Bonds Strategies Fund, Eleva Global Bonds Opportunities Fund, Eleva European Multi Opportunities Fund, Eleva Global Multi Opportunities Fund and Eleva Absolute Return Dynamic Fund.

The Sub-Funds offer a number of different Classes of Shares. Certain Classes are available to Retail Investors while other Classes may be available only to Institutional Investors. These Classes may be sub-divided into accumulation of income or distribution of income categories as further detailed in the Prospectus. Hedged Classes of a Sub-Fund will be hedged against the Reference Currency of that Sub-Fund, with the objective of minimizing currency risk exposure.

#### Société d'Investissement à Capital Variable

#### Notes to the Financial Statements as at 30 June 2024 (continued)

#### 2. Significant Accounting Policies

The following is a summary of significant accounting policies followed by the Fund.

#### a) Presentation of Financial Statements

The financial year of the Fund ends on 31 December in each year. The financial statements have been prepared in accordance with generally accepted accounting principles in Luxembourg, legal and regulatory requirements applicable in Luxembourg and are presented in Euro.

#### b) Main Investment Valuation Principles

- The value of securities and/or financial derivative instruments which are quoted or dealt in on any stock exchange shall be based in respect of each security on the latest available dealing prices on the stock exchange which is normally the principal market for such security or the latest available quoted bid prices obtained by an independent pricing service;

- Where investments of the Fund are both listed on a stock exchange and dealt in by market makers outside the stock exchange on which the investments are listed, then the Board of Directors will determine the principal market for the investments in question and they will be valued at the latest available price in that market;

- Securities dealt in on another regulated market are valued in a manner as near as possible to that described in the first paragraph above;

- In the event that any of the securities held in the Fund's portfolio are not quoted or dealt in on a stock exchange or another regulated market, or for any of such securities, no price quotation is available, or if the price determined is not in the opinion of the Board of Directors representative of the fair market value of the relevant securities, the value of such securities shall be determined prudently and in good faith, based on the reasonably foreseeable sales or any other appropriate valuation principles;

- The financial derivative instruments which are not listed on any official stock exchange or traded on any other organised market are valued in a reliable and verifiable manner on a daily basis and verified by the Central Administration Agent;

- Units or shares in underlying open-ended investment funds shall be valued at their last available net asset value reduced by any applicable charges;

- Liquid assets and Money Market Instruments are valued at their market price, at their nominal value plus accrued interest or on an amortised cost basis in accordance with the European Securities and Markets Authority's guidelines on a common definition of European money market funds. If the Fund considers that an amortisation method can be used to assess the value of a Money Market Instrument, it will ensure that this will not result in a material discrepancy between the value of the Money Market Instrument and the value calculated according to the amortisation method;

- In the event that the above mentioned calculation methods are inappropriate or misleading, the Board of Directors may adjust the value of any investment or permit some other method of valuation to be used for the assets of the Fund if it considers that the circumstances justify that such adjustment or other method of valuation should be adopted to reflect more fairly the value of such investments.

Société d'Investissement à Capital Variable

#### Notes to the Financial Statements as at 30 June 2024 (continued)

#### 2. Significant Accounting Policies (continued)

#### b) Main Investment Valuation Principles (continued)

Realised gains/(losses) on investments sold are included in the Statement of Operations and Changes in Net Assets under "Net realised gain/(loss) on Investments".

#### c) Forward Foreign Exchange Contracts

Forward foreign exchange contracts represent obligations to purchase or sell foreign currency on a specified future date at a price fixed at the time the contracts are entered into. The values of the forward foreign exchange contracts are adjusted daily based on the applicable exchange rate of the underlying currency. Changes in the value of these contracts are recorded as unrealised appreciation or depreciation until the contract settlement date. When the forward contract is closed, the Sub-Fund records a realised gain or loss equal to the difference between the value at the time the contract was opened and the value at the time it was closed.

The unrealised appreciation/(depreciation) on forward foreign exchange contracts is disclosed in the Statement of Net Assets under "unrealised appreciation/(depreciation) on forward foreign exchange contracts". Realised gain/(losses) and change in unrealised appreciation/(depreciation) resulting there from are included in the Statement of Operations and Changes in Net Assets respectively under "Net realised gain/(loss) on Forward foreign exchange contracts" and "Net change in unrealised appreciation/(depreciation) on Forward foreign exchange contracts".

#### d) Contracts for Differences

Contracts for differences are valued based on the closing market price of the underlying security converted into the base currency of the contract for differences, less any financing charges attributable to each contract which are booked separately. On entering a contract for differences, the Fund may be required to pledge an amount of cash and/or other assets to the broker which is equal to a certain percentage of the contract amount ('initial margin'). Subsequently, payments known as 'variation margins' are made or received by the Fund periodically, depending on the fluctuations in the value of the underlying security. Realised gains or losses at the closure of the contract are equal to the difference between the value of the contract for differences at the time it was opened (including any financial changes) and the value at the time it was closed. Dividends (net of withholding taxes) attributable to open contracts for differences are deemed to be dividends receivable or payable, depending on whether the Fund held short or long position in shares with contracts for differences, at the end of the period. The result of these revaluations on 30 June 2024 is shown in the Statement of Net Assets under 'Unrealised appreciation/(depreciation) on contracts for differences'. The reset day is as of the 15 calendar day of each month, or in the event that is not a business day, the next applicable business day.

The unrealised appreciation/(depreciation) on contracts for differences is disclosed in the Statement of Net Assets under "Unrealised appreciation on Contracts for differences". Realised gains/(losses) and change in unrealised appreciation/(depreciation) resulting there from are included in the Statement of Operations and Changes in Net Assets respectively under "Net realised gain on Contracts for differences" and "Net change in unrealised appreciation on Contracts for differences".

The dividend income/expenses resulting from contracts for differences are disclosed in the Statement of Operations and Changes in Net Assets under "Dividend income on contracts for differences" or "Dividend expenses on contracts for differences"

#### e) Foreign Currency

The books and records of the Sub-Funds are denominated in EUR. Although Shares of the different Classes within Sub-Funds may be denominated in different currencies, the Sub-Funds may invest the assets related to a Class in securities denominated in a wide range of other currencies. The Net Asset Value of the relevant Class of the relevant Sub-Funds as expressed in its Reference Currency will be impacted by the variations between the rate of the Reference Currency and the rate of the currencies in which the Sub-Funds' investments are denominated.

| Currency                 | Rate     |
|--------------------------|----------|
| Australian Dollar (AUD)  | 1.6048   |
| Brazilian Real (BRL)     | 5.9530   |
| British Pound (GBP)      | 0.8478   |
| Canadian Dollar (CAD)    | 1.4665   |
| Danish Krone (DKK)       | 7.4575   |
| Hungarian Forint (HUF)   | 394.9250 |
| Japanese Yen (JPY)       | 172.4017 |
| Mexican Peso (MXN)       | 19.5975  |
| New Zealand Dollar (NZD) | 1.7588   |
| Norwegian Krone (NOK)    | 11.4115  |
| Polish Zloty (PLN)       | 4.3085   |
| South African Rand (ZAR) | 19.5702  |
| Swedish Krona (SEK)      | 11.3500  |
| Swiss Franc (CHF)        | 0.9631   |
| U.S. Dollar (USD)        | 1.0718   |

The following EUR exchange rates were used to translate the assets and liabilities at the period -end:

#### f) Securities Lending

The Fund may enter into securities lending transactions in accordance with the provisions of Circular 08/356, Circular 14/592 and ESMA Guidelines 2014/937.

The Fund will ensure that it is able at any time to recall any security that has been lent out or terminate any securities lending agreement into which it has entered.

All revenues (less transaction costs) from securities lending transactions are accrued to the relevant Sub-Fund. All counterparties to securities lending transactions will meet the requirements of the Law of 2010 as to legal status, origin and minimum credit rating.

As at 30 June 2024, the Sub-Funds of the SICAV which are mentioned below were engaged in securities lending transactions. The value of the securities lent and the market value of the collateral received for each Sub-Fund is detailed in the following table:

\* High quality government bonds of any maturity are used as collateral.

The ratings of the collateral are presented in the Appendix.

Securities collateral received is typically valued on a daily mark-to-market basis in accordance with the Fund's valuation policy, subject to the application of a haircut in normal market conditions of approximately 5%.

Revenues from securities lending transactions are included in the caption "Interest income on securities lending" in the Statement of Operations and Changes in Net Assets.

#### g) Dividend Income and Expense

Dividend income on long positions and dividend expense on short positions are recognised in the Statement of Operations and Changes in Net Assets on the "ex-dividend" date.

#### h) Interest Income

Bank interest and interest income on bonds are accrued on a daily basis and includes the amortization of premiums and accretion of discounts.

#### i) Formation Expenses

The costs and expenses of the formation of the Fund were borne by the Eleva European Selection Fund and amortized over a period not exceeding five (5) years. The formation costs of any new Sub-Fund shall be borne by the relevant Sub-Fund and amortized over a period not exceeding five (5) years.

#### j) Cross Sub-Fund Investments

As at 30 June 2024, below Sub-Funds invested in cross Sub-Funds as per below. The total combined net assets of Eleva UCITS Fund at period-end, excluding the cross investment amounts to EUR 9,933,596,784.

| Sub Fund Name                           | Investment                                | Investment value<br>EUR |

### 2. Significant Accounting Policies (continued)

### k) Cash and Cash Equivalents

Cash and other liquid assets are valued at their face value with interest accrued, where applicable.

### I) Transaction Costs

Transaction costs are the costs incurred in the acquisition, issue, disposal or transfer of financial assets and liabilities. Transaction costs include fees and commissions paid to brokers and dealers, levies by regulatory agencies and securities exchanges, depositary transaction costs and transfer taxes and duties.

Transaction costs do not include debt premiums or discounts, financing costs or internal administrative or holding costs.

These costs are included with the cost of investments purchased and deducted from the proceeds received on sales of investments.

The total transaction costs paid by the Sub-funds during the period are as follows:

| Sub-Funds                                 | Currency | Broker costs | Transaction<br>related costs<br>(Bank commission) | Total      |
|---|----------|--------------|---|------------|

| Eleva Global Multi Opportunities Fund**   | EUR      | 28,413       | -   | 28,413     |
| Eleva Absolute Return Dynamic Fund****    | EUR      | 55,502       | -   | 55,502     |

\*\*Eleva Global Multi Opportunities Fund has been launched on 3 July 2023.
\*\*\*Eleva Absolute Return Dynamic Fund has been launched on 18 December 2023.

### m) Options

Outstanding options traded on a regulated market are valued based on the intraday price or the last available market price of the instruments.

OTC options are marked to market based upon daily prices obtained from third party pricing agents and verified against the value from the counterparty.

The market value of options is included in the statement of net assets under the headings "Unrealised appreciation/(depreciation) on Options". There are any open option contracts as at period end.

The realised gains/(losses) and change in unrealised appreciation/(depreciation) on options are disclosed in the statement of operations and changes in net assets respectively under the headings "Net realised gain/(loss) on Options" and "Net change in unrealised appreciation/(depreciation) on Options".

Société d'Investissement à Capital Variable

### Notes to the Financial Statements as at 30 June 2024 (continued)

### 2. Significant Accounting Policies (continued)

### n) Futures Contracts

Upon entering into a futures contract, the Fund is required to deposit with the broker, cash or securities in an amount equal to a certain percentage of the contract amount which is referred to as the initial margin account. Subsequent payments, referred to as variation margin, are made or received by each sub-fund periodically and are based on changes in the market value of open futures contracts.

The unrealised appreciation/(depreciation) on futures contracts is disclosed in the statement of net assets under "Unrealised appreciation/(depreciation) on Futures contracts". Changes in the market value of open futures contracts are recorded as unrealised appreciation/(depreciation) in the statement of operations and changes in net assets under "Change in unrealised appreciation/(depreciation) on Futures". Realised gains or losses, representing the difference between the value of the contract at the time it was opened and the value at the time it was closed, are reported at the closing or expiration of futures contracts". Securities deposited as initial margin account are designated in the Portfolio of investments and other Net Assets and cash deposited is recorded in the statement of net assets in "Cash and cash equivalents". A receivable and/or a payable to brokers for the daily variation margin is also recorded in the statement of net assets under caption Cash and cash equivalents.

### o) Credit Default Swaps

A credit default swap is a credit derivative transaction in which two parties enter into an agreement, whereby one party (the protection buyer) pays the other (the protection seller) a fixed periodic coupon for the specified life of the agreement in return for a payment contingent on a credit event related to the underlying reference obligation.

If a credit event occurs, the protection seller would be obliged to make a payment, which may be either: (i) a net cash settlement equal to the notional amount of the swap less the auction value of the reference obligation or (ii) the notional amount of the swap in exchange for the delivery of the reference obligation. Selling protection effectively adds leverage to a Fund's portfolio up to the notional amount of swap agreements.

Credit default swaps are marked to market at each NAV calculation date. The market value is based on the valuation elements laid down in the contracts, and is obtained from third party pricing agents, market makers or internal models.

The unrealised appreciation/(depreciation) is disclosed in the statement of net assets under "Unrealised appreciation/(depreciation) on Swaps". Realised gains/(losses) and change in unrealised appreciation/ (depreciation) resulting there from are included in the statement of operations and changes in net assets respectively under the heading "Net realised gain/(loss) on Swaps" and "Net change in unrealised appreciation/(depreciation) on Swaps".

Société d'Investissement à Capital Variable

### Notes to the Financial Statements as at 30 June 2024 (continued)

### 3. Tax Status

Under current law and practice, the Fund is not liable for any Luxembourg tax on profits or income. The Fund is liable in Luxembourg for an annual subscription tax ("taxe d'abonnement") which is payable quarterly on the basis of the value of the net assets of the Fund at the end of the relevant calendar quarter. The rates of the subscription tax are 0.05% per annum of the Net Asset Value of each Class which is available to Retail Investors and 0.01% per annum of the Net Asset Value of each Class which is available to Institutional Investors.

Pursuant to article 175(a) of the Law of 17 December 2010, the net assets invested in UCI already subject to the "taxe d'adonnement" are exempt from this tax.

No corporate tax is payable in Luxembourg on realised or unrealised capital appreciation of the assets of the Fund.

Dividends and interest received by the Fund on its investments are in many cases subject to irrecoverable withholding taxes at source.

### 4. Dividends

In respect of the Accumulation Classes, under normal circumstances, the Sub-Funds do not intend to declare and make distributions with respect to the net investment income and realised capital gains of each Accumulation Class. Accordingly, the Net Asset Value per Share of these Accumulation Classes will reflect any net investment income or capital gains.

It is intended that the Board of Directors will make distributions to the holders of Class A1 (EUR) dis., Class A1 (GBP) dis. (unhedged), Class A1 (USD) dis. (hedged), Class I (EUR) dis., Class I2 (EUR) dis., Class R (EUR) dis., Class H1 (EUR) dis., Class J1 (GBP) dis. and Class J2 (GBP) dis. It is expected that net income (net of expenses and reserves) actually received by the Sub-Fund attributable to the relevant Class that is deemed by the Investment Manager in its sole discretion, to be distributable income, will be distributed to the relevant Class' Shareholders. No distribution may be made which would result in the net assets of the Sub-Fund falling below the minimum provided for by Luxembourg law.

Shareholders in Distribution Classes shall have the discretion to elect that any distribution payable or declared shall be reinvested in the appropriate Sub-Fund instead of being paid in cash. Distributions re-invested shall be treated in the same way as a subscription for Shares in the appropriate Sub-Fund.

Any distributions unclaimed after five years from the end of the relevant Financial Year will lapse and revert to the relevant Sub-Fund as a whole. No interest will be payable by the relevant Sub-Fund on distributions declared and held for the benefit of the relevant Shareholder until the date of payment or the date upon which such distributions are forfeited.

### Société d'Investissement à Capital Variable

### Notes to the Financial Statements as at 30 June 2024 (continued)

### 4. Dividends (continued)

During the period ended 30 June 2024, the following Sub-Funds distributed the following dividends per share (in share class currencies):

|                                   |                          |                             | Rate                              |                  | Total amount paid |

#### 5. Investment Management Fees

The Sub-Funds pay out of the assets of the Sub-Funds to the Investment Manager an investment management fee monthly in arrears at the rate per annum, as set out below, of the Net Asset Value of the relevant Class of the Sub-Funds. The investment management fees are calculated and paid in the base currency of the Sub-Funds.

The following table lists the Investment Management Fees paid by the Sub-Funds during the period ended 30 June 2024:

| Eleva European Selection Fund   |                            |
|---------------------------------|----------------------------|
| Class and Currency Denomination | Investment Management Fees |
| Class A1 (CHF) acc. (hedged)    | 1.5%                       |
| Class A1 (EUR) acc.             | 1.5%                       |
| Class A1 (EUR) dis.             | 1.5%                       |
| Class A1 (USD) acc.             | 1.5%                       |
| Class A2 (EUR) acc.             | 2%                         |
| Class H1 (EUR) acc.             | 0.9%                       |

### Notes to the Financial Statements as at 30 June 2024 (continued)

### 6. Performance Fees

#### a. Eleva European Selection Fund

The Management Company is entitled in respect of each Class to receive a performance fee calculated in relation to each period of 6 months beginning on 1 January and ending on 30 June (the "**Calculation Period**").

A performance fee may only be levied at the end of the Calculation Period if the percentage evolution of the Net Asset Value per Share of the relevant Class is superior to the percentage evolution of the Relevant Benchmark for that Class (as set out in the table below) during the Performance Reference Period.

The performance fee for each Class is set out in the table below and shall be payable in respect of the amount by which the percentage increase or decrease in the Net Asset Value per Share is, respectively, more than or less than the percentage increase or decrease in value of the Relevant Benchmark for each Class during the Performance Reference Period.

 $^7\,\rm{The}$  Share Class was launched on 20 September 2023 and closed on 21 March 2024.

Société d'Investissement à Capital Variable

### Notes to the Financial Statements as at 30 June 2024 (continued)

### 6. Performance Fees (continued)

### b. Eleva Absolute Return Europe Fund

The Management Company is entitled in respect of each Class to receive a performance fee calculated in relation to each period of 6 months beginning on 1 January and ending on 30 June (the "**Calculation Period**").

A performance fee may only be levied at the end of the Calculation Period where the Net Asset Value per Share of the relevant Class exceeds its High Water Mark. The "High Water Mark" model is more appropriate for calculating the performance fee of the Eleva Absolute Return Europe Fund than the "benchmark model" since Eleva Absolute Return Europe Fund is actively managed with no reference to a benchmark.

For a Performance Reference Period, the performance fee payable will be equal to a specified percentage (as detailed in the table below) of any "New Net Appreciation" of the relevant Class.

The High Water Mark is the greater of:

a) the Net Asset Value per Share of the relevant Class as of the end of the most recent Performance Period at which a performance fee was paid by such Class (after reduction for the performance fee then paid); and

b) if no performance fee has ever been paid, then the Net Asset Value per Share of the relevant Class upon first issue.

For the avoidance of doubt, a performance fee is only payable where the Net Asset Value per Share of the relevant Class exceeds its High Water Mark.

<sup>5</sup> The Share Class was launched on 25 April 2023.

#### e. Eleva Sustainable Impact Europe Fund

The Management Company is entitled in respect of each Class to receive a performance fee calculated in relation to each period of 6 months beginning on 1 January and ending on 30 June (the "**Calculation Period**").

A performance fee may only be levied at the end of the Calculation Period if the percentage evolution of the Net Asset Value per Share of the relevant Class is superior to the percentage evolution of the Relevant Benchmark for that Class (as set out in the table below) during the Performance Reference Period.

Société d'Investissement à Capital Variable

### Notes to the Financial Statements as at 30 June 2024 (continued)

### 6. Performance Fees (continued)

### e. Eleva Sustainable Impact Europe Fund (continued)

The performance fee for each Class is set out in the table below and shall be payable in respect of the amount by which the percentage increase or decrease in the Net Asset Value per Share is, respectively, more than or less than the percentage increase or decrease in value of the Relevant Benchmark for each Class during the Performance Reference Period.

Société d'Investissement à Capital Variable

### Notes to the Financial Statements as at 30 June 2024 (continued)

### 6. Performance Fees (continued)

### g. Eleva Global Bonds Opportunities Fund

The Management Company is entitled in respect of each Class H Shares to receive a performance fee calculated in relation to each period of 6 months beginning on 1 January and ending on 30 June (the "**Calculation Period**").

A performance fee may only be levied at the end of the Calculation Period where the Net Asset Value per Share of the relevant Class exceeds its High Water Mark. The "High Water Mark" model is more appropriate for calculating the performance fee of Eleva Global Bonds Opportunities Fund than the "benchmark model" since Eleva Global Bonds Opportunities Fund is actively managed with no reference to a benchmark.

The performance fee for each Class is set out in the table below and shall be payable in respect of the amount by which the percentage increase or decrease in the Net Asset Value per Share is, respectively, more than or less than the percentage increase or decrease in value of the Relevant Benchmark for each Class during the Performance Reference Period.

The High Water Mark is the greater of:

a) the Net Asset Value per Share of the relevant Class as of the end of the most recent Performance Period at which a performance fee was paid by such Class (after reduction for the performance fee then paid); and

b) if no performance fee has ever been paid, then the Net Asset Value per Share of the relevant Class upon first issue.

For the avoidance of doubt, a performance fee is only payable where the Net Asset Value per Share of the relevant Class exceeds its High Water Mark.

<sup>18</sup> The share Class was launched 31 January 2024

<sup>19</sup> The share Class was launched 31 January 2024

<sup>20</sup> The share Class was launched 24 January 2024

### **Specific Performance Fee for Class H Shares:**

For Eleva European Selection Fund, Eleva Euroland Selection Fund, Eleva Leaders Small & Mid-Cap Europe Fund, Eleva Sustainable Impact Europe Fund and Eleva Euro Bonds Strategies Fund, the Investment Manager is entitled in respect of each Class H Shares to receive a performance fee calculated in relation to each Performance Period.

A performance fee may only be levied if the percentage evolution of the Net Asset Value per Share of the relevant Class is superior to the percentage evolution of the Relevant Benchmark for that Class during the period since the last performance fees were paid until the end of the Financial Period (the "Performance Period").

For the avoidance of doubt, the Performance Period will either be:

- a) the Financial Period if performance fees have been paid in the last Financial Period; or
- b) the period from the last performance fees payment (Net Asset Value per Share on the last Valuation Day of the preceding Performance Period at the end of which a performance fee was paid after deduction of accrued performance fees and distributions in respect of such period) until the end of the Financial Period.

For all Sub-Funds the performance fee is payable in arrears within 10 calendar days at the end of each Performance Period. The Net Asset Value per Share utilised in calculating the performance of a Class over a Performance Period will include accruals for investment management fees but not performance fees payable in respect of each Performance Period. In addition, appropriate adjustments will be made to take account of distributions made in respect of a Class for prior Performance Periods and the actual performance of the Net Asset Value per Share in a Performance Period will be adjusted to include any distributions made in respect of the Class for the Performance Period.

Shareholders should note that, as the performance fee is calculated at a Class level and not at an individual Shareholder level, Shareholders may be charged a performance fee even where the Net Asset Value of their Shares have remained the same or dropped in value.

### **Eleva UCITS Fund** Société d'Investissement à Capital Variable Notes to the Financial Statements as at 30 June 2024 (continued)

### 6. Performance Fees (continued)

### Specific Performance Fee for Class H Shares (continued):

In the event Shares of a Class are redeemed during a Performance Period, a performance fee will be payable equivalent to the performance fee accrued in calculating the Net Asset Value per Share at the time of redemption.

For Eleva European Selection Fund, Eleva Euroland Selection Fund, Eleva Leaders Small & Mid-Cap Europe Fund, Eleva Sustainable Impact Europe Fund, Eleva Global Bonds Opportunities Fund, Eleva Absolute Return Europe Fund (since November 2020) and Eleva Euro Bonds Strategies Fund the Performance Periods in respect of each Class comprise successive 06 monthly periods ending on 30 June in each calendar year. The first Performance Period in respect of a Class will commence on the first Dealing Day for Shares of a Class and will end on the date of termination of the Class.

The last Performance Period in respect of a Class will end on the date of termination of the Class. If the Investment Management Agreement is terminated before the end of a Performance Period, the performance fee in respect of the then current Performance Period will be calculated and paid to the Investment Manager as though the date of termination were the end of the relevant Performance Period.

### 7. Management Company Fees

The Fund will pay the Management Company a management company fee of 0.005% per Sub-Fund per period.

### 8. Director's Fees

The independent Directors of the Fund are entitled to receive Directors' fees. The Directors' fees for the year amounted to Euro 32,000 each. Conversely, the non-independent Director does not receive a fee for acting as a Director.

### 9. Depositary, Administration and Transfer Agent Fees

### **Depositary Fee**

Under the Depositary Services Agreement, the Depositary receives annual safekeeping and servicing fees, according to the agreed schedule with the Fund in respect of each Sub-Fund, the rates for which vary according to the country of investment and, in some cases, according to the Class. The depositary fee is payable at the end of each month by the Fund in respect of each Sub-Fund and is accrued on each Valuation Day based on the previous Valuation Day's Net Asset Value and the number of transactions processed. The depositary fees paid by the Fund will not exceed 0.009% per annum of the Net Asset Value of each Sub-Fund with a minimum of EUR 160,000 per year for the Fund (excluding charges for cash flow monitoring, charges for investment restriction duties, safekeeping fees, transaction charges and any other out-of-pocket expenses). These fees may be raised or lowered from time to time to reflect current market practice if agreed between the Fund and the Depositary, in which case the Prospectus will be updated accordingly.

### Société d'Investissement à Capital Variable Notes to the Financial Statements as at 30 June 2024 (continued)

### 9. Depositary, Administration and Transfer Agent Fees (continued)

### **Administrative Fee**

Under the Administration Agreement, the Central Administration Agent receives annual administrative fees, according to the agreed schedule with the Fund in respect of each Sub-Fund, the rates for which vary according to the country of investment and, in some cases, according to Class. The administrative fee is payable at the end of each month by the Fund in respect of each Sub-Fund and is accrued on each Valuation Day based on the previous Valuation Day's Net Asset Value and the number of transactions processed during that month. The administrative fee is calculated by the agreed schedule and shall, in principle, not exceed 0.025% per annum of the Net Asset Value of each Sub-Fund and remains subject to a minimum of EUR 192,000 per year for the Fund. These fees may be raised from time to time to reflect current market practice if agreed between the Fund and the Central Administration Agent, in which case the Prospectus will be updated accordingly. Further, additional transaction fees, share class surcharges, tax calculation charges and maintenance fees for transfer agency services will be levied by the Central Administration Agent.

The corporate secretarial service (including domiciliary service) fees paid by the Fund to the Central Administration Agent will be calculated on time-spent basis with an annual minimum fee of EUR 12,500.

#### **Transfer Agent Fee**

The transfer agent fee is payable by the Fund in respect of each Sub-fund and is accrued on each Valuation Day based on the previous Valuation Day's net Asset Value. The transfer agent fee includes Fund maintenance, Share Class maintenance, Shareholder service fees, transaction fees and out-of-pocket fees.

#### 10. Statement of Changes in Portfolio Composition

The statement of the changes in the Schedule of Investments for the period ended 30 June 2024, can be obtained free of charge from the registered office of the Fund (see page 3 for the address).

### 11. Collateral related to over-the-counter ("OTC") Financial Derivative Instruments

As at 30 June 2024, the Fund has delivered collateral to Counterparties related to OTC financial derivative instruments.

### 12. Swing pricing and dilution levy

In certain circumstances, subscriptions, redemptions, and conversions in a Sub-Fund may have a negative impact on the net asset value per Share. Where subscriptions, redemptions, and conversions in the Sub-Fund cause the Sub-Fund to buy and/or sell underlying investments, the value of these investments may be affected by bid/offer spreads, trading costs and related expenses. This investment activity may have a negative impact on the net asset value per Share called dilution. In order to protect existing or remaining investors from the potential effect of dilution, the Fund may apply an anti-dilution levy or a "swing pricing" methodology as part of its daily valuation policy for the following sub-funds: Eleva Euro Bonds Strategies Fund, Eleva Global Bonds Opportunities Fund, Eleva European Multi Opportunities Fund and Eleva Global Multi Opportunities.

The Board of Directors has chosen the partial swing approach. The Fund may apply a "swing pricing" methodology which adjusts the net asset value per Share to account for the aggregate costs of buying and/or selling underlying investments

Société d'Investissement à Capital Variable

### Notes to the Financial Statements as at 30 June 2024 (continued)

### 12. Swing pricing and dilution levy (continued)

The net asset value per Share will be adjusted by a certain percentage set by the Board of Directors from time to time for each Sub-Fund called the "swing factor" which represents the estimated bid-offer spread of the assets in which the Sub-Fund invests and estimated tax, trading costs, and related expenses that may be incurred by the Sub-Fund as a result of buying and/or selling underlying investments (called the Swing Factor). Generally, the Swing Factor will not exceed two percent (2%) of the net asset value per Share.

During the period the swing pricing mechanism was applied by the Fund. Swing price adjustments took place 1 time during the period under review at the following date:

• 2 May 2024

### 13. Significant Events during the Period

The conflict in Ukraine is still ongoing and can still reignite volatility to financial markets. A positive reassessment of the macroeconomic environment in the Eurozone and the resilience of earnings pushed markets higher in January and February 2023 but the collapse of three regional banks in the US and Credit Suisse have put markets under pressure in March. Last indicators suggest that Europe should avoid recession at short-term.

Eleva Global Bonds Dynamic Fund is dormant as from 24 March 2023.

The prospectus was updated in January 2024 and March 2024.

Since 13 January 2024, the Management Company new address is: 61 rue des Belles Feuilles 75116, Paris France

As from 15 January 2024, Eleva Global Multi Opportunities Fund was transited from an article 6 SFDR classification to an article 8.

As from 15 January 2024, a 20% ratio of "sustainable investments" was added to the investment strategies of Eleva European Selection Fund, Eleva Euroland Selection Fund and Eleva Leaders Small & Mid-Cap Europe Fund.

There were no other significant events during the period that require adjustment to, or disclosure in, the financial statements.

Société d'Investissement à Capital Variable

### Notes to the Financial Statements as at 30 June 2024 (continued)

## 14. Subsequent Events

A new sub-fund Eleva SRI European Selection Fund was launched on 1 August 2024. A new sub-fund Eleva SRI Euroland Selection Fund was launched on 1 August 2023.

An updated prospectus is dated July 2024.

Société d'Investissement à Capital Variable

### Appendix

### Appendix 1 – Securities Financing Transactions Regulation

Securities Financing Transaction Regulation ("SFTR") introduces reporting requirements for securities lending transactions ("SFTs") and total return swaps.

A Securities Financing Transaction (SFT) is defined as per Article 3(11) of the SFTR as:

- a repurchase/reverse repurchase agreement
- securities or commodities lending and securities or commodities borrowing
- a buy-sell back transaction or sell-buy back transaction, or
- a margin lending transaction

As at 30 June 2024, three Sub-Funds held Securities Lending as types of instruments under the scope of the SFTs.

### Global Data

The amount of assets across all SFTs as at 30 June 2024 is as follows:

Eleva European Selection Fund

| Type of Asset      | Amount*     | % of NAV | % of lendable<br>assets |
|--------------------|-------------|----------|-------------------------|
| Securities lending | 153,661,350 | 2.64%    | 2.68%                   |

Eleva Absolute Return Europe Fund

Société d'Investissement à Capital Variable

### Appendix 2 – Report on Remuneration (Unaudited)

### **Remuneration policies and practices – Management Company**

The Management Company has established and applies a remuneration policy and practices that are consistent with, and promote, sound and effective risk management and that neither encourage risk taking which is inconsistent with the risk profile of the Fund, this Prospectus or the Articles of Incorporation nor impair compliance with the Management Company's obligation to act in the best interests of the Fund (the "Remuneration Policy").

The Remuneration Policy is in line with the business strategy, objectives, values and interests of the Management Company, the Fund and the Shareholders and includes measures to avoid conflicts of interest.

The Remuneration Policy includes fixed and variable components of salaries and applies to those categories of staff, including senior management, risk takers, control functions and any employee receiving total remuneration that falls within the remuneration bracket of senior management and risk takers, whose professional activities have a material impact on the risk profiles of the Management Company, the Fund or the Sub-Funds. Within the Management Company, these categories of staff represent 44 persons.

The fixed component of the remuneration represents a sufficiently high proportion of the total remuneration to allow the operation of a fully flexible policy on variable remuneration components, including the possibility to pay no variable remuneration component.

The variable component of the remuneration is based on qualitative and quantitative criteria which include but are not limited to the following ones:

- The individual and collective financial performance;
- Customer service;
- Risk management;
- Quality of the performed tasks;
- Compliance with the internal rules of ethics and regulations;
- Management of the workload and teamwork.

The variable remuneration component of the employee's compensation is not a guaranteed payment, neither in principle nor in amount, and cannot be considered as fixed or quasi-fixed remuneration, even if an employee receives the same amount for several years.

In order to determine the overall budget of the variable component for the salaries, account shall be taken of:

- The overall result of the Management Company;
- The need of the Management Company to meet its capital requirements to face regulatory obligations on the one hand, and to finance its projects on the other;
- Shareholders' expectations regarding the remuneration of their investment.

Société d'Investissement à Capital Variable

### Appendix 2 – Report on Remuneration (Unaudited) (continued)

### Remuneration policies and practices – Management Company (continued)

In particular, the Remuneration Policy seeks to ensure that:

- a) staff engaged in control functions are compensated in accordance with the achievement of the objectives linked to their functions, independently of the performance of the business areas that they control;
- b) the measurement of performance used to calculate variable remuneration components or pools of variable remuneration components includes a comprehensive adjustment mechanism to integrate all relevant types of current and future risks.

In the context of delegation, the Remuneration Policy seeks to ensure, as required by regulatory requirements that any delegate of the Management Company complies with the following criteria:

- a) the assessment of performance is set in a multi-year framework appropriate to the holding period recommended to the Shareholders in order to ensure that the assessment process is based on the longer-term performance of the Fund and its investment risks and that the actual payment of performance-based components of remuneration is spread over the same period;
- b) if at any point of time, the management of the Fund were to account for 50% or more of the total portfolio managed by the delegate, at least 50% of any variable remuneration component will have to consist of Shares, equivalent ownership interests, or share-linked instruments or equivalent non-cash instruments with equally effective incentives as any of the instruments referred to in this item b); and
- c) a substantial portion, and in any event at least 40% of the variable remuneration component, is deferred over a period which is appropriate in view of the holding period recommended to the Shareholders and is correctly aligned with the nature of the risks of the Fund.

The variable and fixed remuneration component of the salary will be determined by the partners of the Eleva group once a year in consideration of the overall result of the Management Company.

Also a remuneration committee has been created, which performs its duties in line with the directive 2014/91/EU (UCITS V) in order to evaluate the applicability of the Remuneration Policy and to formulate recommendations when necessary.

The following table shows the fixed and variable remuneration in 2023 for the Identified Staff, who are fully or partly involved in the activities of all the Sub-Funds managed by the Management Company. For the purposes of the disclosures below, where investment management activities have been formally delegated to another entity, the remuneration of the relevant identified staff of the delegate has been excluded, as it is not paid out by the Management Company or the Fund or the Sub-Funds.

Société d'Investissement à Capital Variable

### Appendix 2 – Report on Remuneration (Unaudited) (continued)

### Remuneration policies and practices – Management Company (continued)

### Staff expenses split into fixed and variable remuneration

Wages and salaries

a. Fixed

b. Variable

Staff expenses broken down by categories of staff subject to UCITS V pay rules

| Staff code | Fixed remuneration | Variable remuneration | Total      |
|------------|--------------------|-----------------------|------------|
| S          | 476,324            | 13,039,056            | 13,515,380 |
| R          | 2,388,925          | 2,109,610             | 4,498,535  |
| С          | 465,000            | 87,000                | 552,000    |
| 0          | 497,745            | 467,511               | 965,256    |

S = Senior Management.

R = Risk takers, which includes staff members whose professional activities can exert material influence the Funds or Sub-Funds.

C = Staff engaged in control functions (other than senior management) responsible for risk management, compliance, internal audit and similar functions.

O = Any other staff member receiving total remuneration that takes them into the same remuneration bracket as senior management and risk-takers, whose professional activities have a material impact on Eleva Capital SAS's risk profile.

A paper copy of the Remuneration Policy is available free of charge to the Shareholders upon request to the Management Company.

### Commitment approach:

For the Sub-Fund Eleva European Selection Fund, Eleva Euroland Selection, Eleva Leaders Small & Mid-Cap Europe, Eleva Impact Sustainable Europe, Eleva European Multi Opportunities Fund and Eleva Global Multi Opportunities Fund, the commitment approach is used to monitor and measure the global exposure in accordance with the CSSF Circular 11/512.

### Appendix 4 – Sustainable Finance Disclosure Regulation ("SFDR") (unaudited)

All Sub-Fund reported in this annual report except Eleva European Selection Fund, Eleva Euroland Selection Fund, Eleva Leaders Small & Mid-Cap Europe Fund, Eleva Absolute Return Europe Fund, Eleva Absolute Return Dynamic Fund, Eleva Sustainable Impact Europe Fund and Eleva Global Multi Opportunities Fund were considered as falling within the scope of Article 6 of the SFDR as they did not promote sustainability factors and did not maximize portfolio alignment with sustainability factors in 2023. The investments underlying these Sub-Funds did not take into account the EU criteria for environmentally sustainable economic activities.

Eleva European Selection Fund, Eleva Euroland Selection Fund, Eleva Leaders Small & Mid-Cap Europe Fund, Eleva Absolute Return Dynamic Fund and Eleva Global Multi Opportunities Fund promoted Environmental and Social characteristics, within the meaning of Article 8 of the SFDR.

Eleva Sustainable Impact Europe Fund had sustainable investment as its objective, within the meaning of Article 9 of the SFDR.
