FUND RATINGS

INVESTMENT OBJECTIVE

To deliver positive returns greater than the Cash Benchmark SOFR(90-day compounded) on a 3 year rolling basis. However, a positive return is not guaranteed and a capital loss may occur.

PERFORMANCE BENCHMARK

The Fund will measure its performance against SOFR (90-day compounded) (the "Cash Benchmark"). SOFR (the Secured Overnight Financing Rate) is a broad measure of the cost of borrowing cash overnight collateralised by U.S. Treasuries and is administered by the New York Federal Reserve. The Cash Benchmark is used as a target against which to measure its performance on a rolling annualised 3-year basis, before fees. The Fund is actively managed, which means the Investment Manager has discretion over the selection of investments, subject to the investment objective and policies disclosed in the Prospectus.

PERFORMANCE DISCLOSURE

Past performance is not a guide to future performance. The value of investments and the income received can fall as well as rise and investors may not get back the original amount invested.

Please refer to the prospectus, KID and other fund documents for a full list of risks and before making any investment decisions. Documents are available in English and in selected local languages where the fund is registered. Go to bny.com/ investments.

Returns may increase or decrease as a result of currency fluctuations.
