Features of the Fund

UBS (Lux) Equity Fund (hereinafter called the “Fund”) offers investors a range of different subfunds (“umbrella structure”) which invest in accordance with the investment policy described in the sales prospectus. The specific details on each subfund are defined in this sales prospectus, which will be updated on the inception of each new subfund.

The Fund has been established as a legally dependent open-end investment fund under Luxembourg law in the legal form of a collective investment fund in accordance with Part I of the Luxembourg law relating to undertakings for collective investment enacted on 30 March 1988 and adapted in to conform to the Luxembourg law dated 17 December 2010, as amended, relating to Undertakings for Collective Investment.

The activities of UBS Equity Fund Management Company S.A. in its function as Management Company of UBS (Lux) Equity Fund ended on 14 October 2010. On 15 October 2010, UBS Fund Management (Luxembourg) S.A. assumed the function of Management Company. The liquidation of the UBS Equity Fund Management Company S.A. was completed on 29 March 2011.

The Fund’s Management Regulations may be changed in observance of the provisions of the law. Each time a revision is deposited it is announced in the “Mémorial”. The new Management Regulations come into force upon by signing by the Management Company and the Depositary. The consolidated version is deposited at the Commercial and Company Register of the District Court in Luxembourg for inspection.

The Fund has no legal personality as an investment fund. The entire assets of each subfund are the undivided property of all investors who have equal rights in proportion to the number of units which they hold. These assets are separate from the assets of the Management Company. The securities and other assets of the Fund are managed by UBS Fund Management (Luxembourg) S.A. as in-house funds in the interest and for the account of the unitholders.

The management regulations give the Management Company the authority to establish different subfunds for the Fund as well as different unit classes with specific characteristics within these subfunds. The sales prospectus will be updated each time a new subfund or an additional unit class is issued.

As at 31 May 2023, the following subfunds are active:

The minimum subscription amount for these units is CHF 30 million (or foreign currency equivalent).

Upon subscription

- (i) a minimum subscription must be made in accordance with the list above; or
- (ii) based on a written agreement between the institutional investor and UBS Asset Management Switzerland AG (or one of its authorised contractual partners) or written approval by UBS Asset Management Switzerland AG (or one of its authorised contractual partners), the investor’s total assets managed by UBS or its holdings in UBS collective investment schemes must be more than CHF 100,000,000 (or foreign currency equivalent); or
- (iii) the institutional investor must be an institution for occupational retirement provision that is part of UBS Group AG or must be one of its wholly-owned group companies.

The management company may waive the minimum subscription if the total assets under management at UBS or the holdings of UBS collective investment schemes by institutional investors exceed CHF 100 million within a specified period.

“I-B”

Units in classes with “I-B” in their name are exclusively reserved for institutional investors within the meaning of Article 174(2)(c) of the amended Law of 2010 who have signed a written agreement with UBS Asset Management Switzerland AG or one of its authorised contractual partners on investing in one or more subfunds of this umbrella fund. A fee covering the costs for fund administration (comprising the costs of the Management Company, the administrative agent and the Depositary) is charged directly to the subfund. The costs for asset management and distribution are charged to investors under the aforementioned agreement. Their smallest tradable unit is 0.001. Unless the Management Company decides otherwise, the initial issue price of these units amounts to AUD 100, BRL 400, CAD 100, CHF 100, CZK 2,000, DKK 700, EUR 100, GBP 100, HKD 1,000, JPY 10,000, NOK 900, PLN 500, RMB 1,000, RUB 3,500, SEK 700, SGD 100, USD 100, NZD 100 or ZAR 1,000.

“I-X”

Units in classes with “I-X” in their name are exclusively reserved for institutional investors within the meaning of Article 174(2)(c) of the amended Law of 2010 who have signed a written agreement with UBS Asset Management Switzerland AG or one of its authorised contractual partners on investing

in one or more subfunds of this umbrella fund. The costs for asset management, fund administration (comprising the costs incurred by the Management Company, administrative agent and the Depositary) and distribution are charged to investors under the aforementioned agreement. Their smallest tradable unit is 0.001. Unless the Management Company decides otherwise, the initial issue price of these units amounts to AUD 100, BRL 400, CAD 100, CHF 100, CZK 2,000, DKK 700, EUR 100, GBP 100, HKD 1,000, JPY 10,000, NOK 900, PLN 500, RMB 1,000, RUB 3,500, SEK 700, SGD 100, USD 100, NZD 100 or ZAR 1,000.

“U-X”

Units in classes with “U-X” in their name are exclusively reserved for institutional investors within the meaning of Article 174(2)(c) of the amended Law of 2010 who have signed a written agreement with UBS Asset Management Switzerland AG or one of its authorised contractual partners on investing in one or more subfunds of this umbrella fund. The costs for asset management, fund administration (comprising the costs incurred by the Management Company, administrative agent and the Depositary) and distribution are charged to investors under the aforementioned agreement. This unit class is exclusively geared towards financial products (i.e. funds of funds or other pooled structures under various legislative frameworks). Their smallest tradable unit is 0.001. Unless the Management Company decides otherwise, the initial issue price of these units amounts to AUD 10,000, BRL 40,000, CAD 10,000, CHF 10,000, CZK 200,000, DKK 70,000, EUR 10,000, GBP 10,000, HKD 100,000, JPY 1 million, NOK 90,000, PLN 50,000, RMB 100,000, RUB 350,000, SEK 70,000, SGD 10,000, USD 10,000, NZD 10,000 or ZAR 100,000.

Additional characteristics:

Currencies

The unit classes may be denominated in AUD, BRL, CAD, CHF, CZK, DKK, EUR, GBP, HKD, JPY, NOK, PLN, RMB, RUB, SEK, SGD, USD, NZD or ZAR. For unit classes issued in the currency of account of the subfund, this currency will not be included in the unit class name. The currency of account features in the name of the relevant subfund.

“hedged”

For unit classes with “hedged” in their name and with reference currencies different to the subfund’s currency of account (“**unit classes in foreign currencies**”), the risk of fluctuations in the value of the reference currency is hedged against the subfund’s currency of account. This hedging shall be between 95% and 105% of the total net assets of the unit class in foreign currency. Changes in the market value of the portfolio, as well as subscriptions and redemptions of unit classes in foreign currencies, can result in the hedging temporarily surpassing the aforementioned range. The Management Company and the Portfolio Manager will take all necessary steps to bring the hedging back within the aforementioned limits.

The hedging described has no effect on possible currency risks resulting from investments denominated in a currency other than the subfund’s currency of account.

“Portfolio hedged”

For unit classes with “portfolio hedged” in their name, the currency risk of the sub-fund’s investments is hedged against the reference currency of the unit class as follows: Systematically, between 95% and 105% of the proportion of investments in developed nation foreign currencies relative to the unit class’ total net assets is hedged, except where this is unfeasible or not cost-effective. Emerging market foreign currency investments are not hedged. Changes in the market value of the sub-fund’s investments, as well as subscriptions and redemptions of unit classes, can cause the hedge to temporarily exceed the range specified by the Portfolio Manager. The Management Company and the Portfolio Manager will take all necessary steps to bring the hedging back within the aforementioned limits. The hedging described is used to hedge the currency risk resulting from investments denominated in a currency other than the unit class’ reference currency, as described above.

“BRL hedged”

The Brazilian real (ISO 4217 currency code: BRL) may be subject to exchange control regulations and repatriation limits set by the Brazilian government. Prior to investing in BRL classes, investors should also bear in mind that the availability and tradability of BRL classes, and the conditions under which they may be available or traded, depend to a large extent on the political and regulatory developments in Brazil. The risk of fluctuations is hedged as described above under “hedged”. Potential investors should be aware of the risks of reinvestment, which could arise if the BRL class has to be liquidated early due to political and/or regulatory circumstances. This does not apply to the risk associated with reinvestment due to liquidation of a unit class and/or the subfund in accordance with the section “Liquidation and merger of the Fund and its subfunds or unit classes”.

“RMB hedged”

Investors should note that the renminbi (ISO 4217 currency code: CNY), the official currency of the People’s Republic of China (the “PRC”), is traded on two markets, namely as onshore RMB (CNY) in mainland China and offshore RMB (CNH) outside mainland China.

Units in classes with “RMB hedged” in their name are units whose net asset value is calculated in offshore RMB (CNH).

Onshore RMB (CNY) is not a freely convertible currency and is subject to foreign exchange control policies and repatriation restrictions imposed by the PRC government. Offshore RMB (CNH), on the other hand, may be traded freely against other currencies, particularly EUR, CHF and USD. This means the exchange rate between offshore RMB (CNH) and other currencies is determined on the basis of supply and demand relating to the respective currency pair.

Convertibility between offshore RMB (CNH) and onshore RMB (CNY) is a regulated currency process subject to foreign exchange control policies and repatriation restrictions imposed by the PRC government in coordination with offshore supervisory and governmental agencies (e.g. the Hong Kong Monetary Authority).

Prior to investing in RMB classes, investors should bear in mind that the requirements relating to regulatory reporting and fund accounting of offshore RMB (CNH) are not clearly regulated. Furthermore, investors should be aware that offshore RMB (CNH) and onshore RMB (CNY) have different exchange rates against other currencies. The value of offshore RMB (CNH) can potentially differ significantly from that of onshore RMB (CNY) due to a number of factors including, without limitation, foreign exchange control policies and repatriation restrictions imposed by the PRC government at certain times, as well as other external market forces. Any devaluation of offshore RMB (CNH) could adversely affect the value of investors’ investments in the RMB classes. Investors should therefore take these factors into account when calculating the conversion of their investments and the ensuing returns from offshore RMB (CNH) into their target currency.

Prior to investing in RMB classes, investors should also bear in mind that the availability and tradability of RMB classes, and the conditions under which they may be available or traded, depend to a large extent on the political and regulatory developments in the PRC. Thus, no guarantee can be given that offshore RMB (CNH) or the RMB classes will be offered and/or traded in future, nor can there be any guarantee as to the conditions under which offshore RMB (CNH) and/or RMB classes may be made available or traded. In particular, since the currency of account of the relevant subfunds offering the RMB classes would be in a currency other than offshore RMB (CNH), the ability of the relevant subfund to make redemption payments in offshore RMB (CNH) would be subject to the subfund’s ability to convert its currency of account into offshore RMB (CNH), which may be restricted by the availability of offshore RMB (CNH) or other circumstances beyond the control of the Management Company.

The risk of fluctuations is hedged as described above under “hedged”.

Potential investors should be aware of the risks of reinvestment, which could arise if the RMB class has to be liquidated early due to political and/or regulatory circumstances. This does not apply to the risk associated with reinvestment due to liquidation of a unit class and/or the subfund in accordance with the section “Liquidation and merger of the Fund and its subfunds or unit classes”.

“acc”

The income of unit classes with “-acc” in their name is not distributed unless the Management Company decides otherwise.

“dist”

The income of unit classes with “-dist” in their name is distributed unless the Management Company decides otherwise.

“qdist”

Units in classes with “-qdist” in their name may make quarterly distributions, gross of fees and expenses. Distributions may also be made out of the capital (this may include, inter alia, realised and unrealised net gains in net asset value) (“**capital**”). Distributions out of capital result in the reduction of an investor’s original capital invested in the subfund. Furthermore, any distributions from the income and/or involving the capital result

in an immediate reduction of the net asset value per unit of the subfund. Investors in certain countries may be subject to higher tax rates on distributed capital than on any capital gains from the sale of fund units. Some investors may therefore prefer to subscribe to accumulating (-acc) rather than distributing (-dist, -qdist) unit classes. Investors may be taxed at a later point in time on income and capital arising on accumulating (-acc) unit classes compared with distributing (-dist) unit classes. Investors should consult qualified experts for tax advice regarding their individual situation.

“mdist”

Units in classes with “-mdist” in their name may make monthly distributions, gross of fees and expenses. Distributions may also be made out of capital. Distributions out of capital result in the reduction of an investor’s original capital invested in the subfund. Furthermore, any distributions from the income and/or involving the capital result in an immediate reduction of the net asset value per unit of the subfund. Investors in certain countries may be subject to higher tax rates on distributed capital than on any capital gains from the sale of fund units. Some investors may therefore prefer to subscribe to accumulating (-acc) rather than distributing (-dist, -mdist) unit classes. Investors may be taxed at a later point in time on income and capital arising on accumulating (-acc) unit classes compared with distributing (-dist) unit classes. Investors should consult qualified experts for tax advice regarding their individual situation. The maximum entry costs for units in classes with “-mdist” in their name is 6%.

“UKdist”

The aforementioned unit classes can be issued as those with “UKdist” in their name. In these cases, the Management Company intends to distribute a sum which corresponds to 100% of the reportable income within the meaning of the **UK reporting fund** rules when the unit classes are subject to these reporting fund rules. The Management Company does not intend to make taxable values for these unit classes available in other countries, as they are intended for investors whose investment in the unit class is liable to tax in the UK.

“2%”, “4%”, “6%”, “8%”

Units in classes with “2%” / “4%” / “6%” / “8%” in their name may make monthly (-mdist), quarterly (-qdist) or annual (-dist) distributions at the respective aforementioned annual percentage rates, gross of fees and expenses. The distribution amount is calculated based on the net asset value of the respective unit class at the end of the month (in the case of monthly distributions), financial quarter (in the case of quarterly distributions) or financial year (in the case of annual distributions). These unit classes are suitable for investors who wish for more stable distributions, unrelated to the past or expected returns or income of the respective subfund.

Distributions may thus also be made from the capital. Distributions out of capital result in the reduction of an investor’s original capital invested in the subfund. Furthermore, any distributions from the income and/or involving the capital result in an immediate reduction of the net asset value per unit of the subfund. Investors in certain countries may be subject to higher tax rates on distributed capital than on any capital gains from

the sale of fund units. Some investors may therefore choose to invest in the accumulating (-acc) instead of the distributing (-dist, -qdist, -mdist) unit classes. Investors may be taxed at a later point in time on income and capital arising on accumulating (-acc) unit classes compared with distributing (-dist, -qdist, -mdist) unit classes. Investors should consult qualified experts for tax advice regarding their individual situation.

“seeding”

Units in classes with “seeding” in their name are only offered during a limited time period. Further subscriptions are prohibited after the end of this period, unless otherwise decided by the Management Company. However, units can still be redeemed in accordance with the conditions for unit redemptions. Unless otherwise decided by the Management Company, the smallest tradable unit, the initial issue price and the minimum subscription amount shall correspond to the characteristics of the unit classes listed above.

The Fund is subject to no restrictions with regard to the size of its net assets, the number of units, number of subfunds and duration.

The Fund is a single and undividable legal entity. With respect to the unitholders, each subfund is regarded as being separate from the others. The assets of a subfund can only be used to offset the liabilities which the subfund concerned has assumed.

The acquisition of Fund units implies acceptance of the management regulations by the unitholder.

There is no provision in the management regulations for a meeting of the unitholder.

The financial year of the Fund ends on the last day of November.

Information on whether a subfund of the Fund is listed on the Luxembourg Stock Exchange can be obtained from the Administrative Agent or the Luxembourg Stock Exchange website (www.bourse.lu).

The issue and redemption of units of the Fund are subject to the regulations prevailing in the country concerned.

Only the information contained in the sales prospectus and in one of the documents referred to therein shall be deemed to be valid.

The annual and semi-annual reports shall be available free of charge to unitholders at the registered office of the Management Company and the Depositary.

No subscription may be accepted on the basis of the financial reports. Subscriptions are accepted only on the basis of the current sales prospectus accompanied by the latest annual report and the latest semi-annual report if available.

The figures stated in this report are historical and not necessarily indicative of future performance.

Notes to the Financial Statements

Note 1 – Summary of significant accounting policies

The financial statements have been prepared in accordance with the generally accepted accounting principles for investment funds in Luxembourg. The significant accounting policies are summarised as follows:

a) Calculation of the net asset value

The net asset value and the issue and redemption price per unit of each subfund or unit class are expressed in the reference currency of the subfund or unit class concerned and are calculated every business day by dividing the overall net assets of the subfund attributable to each unit class by the number of units in circulation in this unit class of the subfund.

In this context, “business day” refers to normal bank business days in Luxembourg (i.e. each day on which the banks are open during normal business hours) with the exception of individual non-statutory rest days in Luxembourg and days on which exchanges in the main countries in which the subfund invests are closed or 50% or more subfund investments cannot be adequately valued.

The percentage of the net asset value attributable to each unit class of a subfund changes each time units are issued or redeemed. It is determined by the ratio of the units in circulation in each unit class to the total number of subfund units in circulation, taking into account the fees charged to that unit class.

b) Valuation principles

– Liquid assets (whether in the form of cash and bank deposits, bills of exchange, cheques, promissory notes, expense advances, cash dividends and declared or accrued interest still receivable) are valued at face value, unless this value is unlikely to be fully paid or received, in which case their value is determined by deducting an amount deemed appropriate to arrive at their real value.

– Securities, derivatives and other assets listed on a stock exchange are valued at the most recent market prices available. If these securities, derivatives or other assets are listed on several stock exchanges, the most recently available price on the stock exchange that represents the major market for this asset shall apply.

In the case of securities, derivatives and other assets not commonly traded on a stock exchange and for which a secondary market among securities traders exists with pricing in line with the market, the Management Company may value these securities, derivatives and other investments based on these prices. Securities, derivatives and other investments not listed on a stock exchange, but traded on another regulated market that operates regularly and is recognised and open to the public, are valued at the most recently available price on this market.

– Securities and other investments not listed on a stock exchange or traded on another regulated market, and for which no appropriate price can be obtained, are valued by the Management Company according to other principles chosen by it in good faith on the basis of probable market prices.

- Derivatives not listed on a stock exchange (OTC derivatives) are valued on the basis of independent pricing sources. If only one independent pricing source is available for a derivative, the plausibility of the valuation obtained will be verified using calculation models that are recognised by the Management Company and the Fund’s auditor, based on the market value of that derivative’s underlying.
- Units of other undertakings for collective investment in transferable securities (UCITS) and/or undertakings for collective investment (UCIs) are valued at their last known asset value.
- Money market instruments not traded on a stock exchange or on another regulated market open to the public will be valued on the basis of the relevant curves. Curve-based valuations are calculated from interest rates and credit spreads. The following principles are applied in this process: The interest rate nearest the residual maturity is interpolated for each money market instrument. Thus calculated, the interest rate is converted into a market price by adding a credit spread that reflects the creditworthiness of the underlying borrower. This credit spread is adjusted if there is a significant change in the borrower’s credit rating.
- Securities, money market instruments, derivatives and other assets denominated in a currency other than the relevant subfund’s currency of account, and not hedged by foreign exchange transactions, are valued using the average exchange rate (between the bid and ask prices) known in Luxembourg or, if none is available, using the rate on the most representative market for that currency.
- Term and fiduciary deposits are valued at their nominal value plus accumulated interest.
- The value of swaps is calculated by an external service provider and a second independent valuation is provided by another external service provider. Such calculations are based on the net present value of all cash flows (both inflows and outflows). In some specific cases, internal calculations (based on models and market data made available by Bloomberg) and/or broker statement valuations may be used. The valuation method depends on the security in question and is chosen pursuant to the applicable UBS valuation policy.

The Management Company is authorised to apply other generally recognised and verifiable valuation criteria in good faith to arrive at an appropriate valuation of the net assets if a valuation in accordance with the foregoing provisions proves unfeasible or inaccurate.

Due to fees and charges as well as the buy-sell spreads for the underlying investments, the actual costs of buying and selling assets and investments for a subfund may differ from the last available price or, if applicable, the net asset value used to calculate the net asset value per unit. These costs have a negative impact on the value of a subfund and are termed “dilution”. To reduce the effects of dilution, the Board of Directors may at its own discretion make a dilution adjustment to the net asset value per unit (swing pricing).

Units are issued and redeemed based on a single price: the net asset value per unit. To reduce the effects of dilution, the net asset value per unit is nevertheless adjusted on valuation days as described below; this takes place irrespective of whether the subfund is in a net subscription or net redemption position

on the relevant valuation day. If no trading is taking place in a subfund or class of a subfund on a particular valuation day, the unadjusted net asset value per unit is applied. The Board of Directors has discretion to decide under which circumstances such a dilution adjustment should be made. The requirement to carry out a dilution adjustment generally depends on the scale of subscriptions or redemptions of units in the relevant subfund. The Board of Directors may apply a dilution adjustment if, in its view, the existing unitholders (in the case of subscriptions) or remaining unitholders (in the case of redemptions) could otherwise be put at a disadvantage. The dilution adjustment may take place if:

- (a) a subfund records a steady fall (i.e. a net outflow due to redemptions);
- (b) a subfund records a considerable volume of net subscriptions relative to its size;
- (c) a subfund shows a net subscription or net redemption position on a particular valuation day; or
- (d) In all other cases in which the Board of Directors believes a dilution adjustment is necessary in the interests of the unitholders.

When a valuation adjustment is made, a value is added to or deducted from the net asset value per unit depending on whether the subfund is in a net subscription or net redemption position; the extent of the valuation adjustment shall, in the opinion of the Board of Directors, adequately cover the fees and charges as well as the buy-sell spreads. In particular, the net asset value of the respective subfund will be adjusted (upwards or downwards) by an amount that (i) reflects the estimated tax expenses, (ii) the trading costs that may be incurred by the subfund, and (iii) the estimated bid-ask spread for the assets in which the subfund invests. As some equity markets and countries may show different fee structures on the buyer and seller side, the adjustment for net inflows and outflows may vary. Generally speaking, adjustments shall be limited to a maximum of 2% of the relevant applicable net asset value per unit. Under exceptional circumstances (e.g. high market volatility and/or illiquidity, extraordinary market conditions, market disruptions etc.), the Board of Directors may decide to apply temporarily a dilution adjustment of more than 2% of the relevant applicable net asset value per unit in relation to each subfund and/or valuation date, provided that the Board of Directors is able to justify that this is representative of prevailing market conditions and is in the unitholders' best interest. This dilution adjustment shall be calculated according to the procedure specified by the Board of Directors. Unitholders shall be informed through the normal channels whenever temporary measures are introduced and once the temporary measures have ended. The net asset value shall be calculated separately for each class of the subfund. However, dilution adjustments affect the net asset value of each class to the same degree in percentage terms. The dilution adjustment is made at subfund level and relates to capital activity, but not to the specific circumstances of each individual investor transaction.

For all subfunds the Swing Pricing methodology is applied.

If there were Swing Pricing adjustments to the net asset value at the end of the period, this can be seen from the most

important figures of the net asset value information of the subfunds. The issue and redemption price per unit represents the adjusted net asset value.

As some of the Fund's subfunds may be invested in markets that are closed at the time their assets are valued, the Management Company may – by way of derogation to the aforementioned provisions – allow the net asset value per unit to be adjusted in order to more accurately reflect the fair value of these subfunds' assets at the time of valuation. In practice, the securities in which the subfunds are invested are generally valued on the basis of the latest available prices at the time of calculating the net asset value per unit, as described above. There may, however, be a substantial time difference between the close of the markets in which a subfund invests and the time of valuation.

Had the financial statements in this report been prepared on the last available market prices as of 31 May 2023, the net asset value would have been impacted as following:

Subfunds	Variation (%)
UBS (Lux) Equity Fund – China Opportunity (USD)	0.76%
UBS (Lux) Equity Fund – Emerging Markets Sustainable Leaders (USD)	0.59%
UBS (Lux) Equity Fund – Greater China (USD)	0.40%

As a result, developments that may influence the value of these securities and that occur between the closure of the markets and the time of valuation are not generally taken into account in the net asset value per unit of the subfund concerned. If, as a result of this, the Management Company deems that the most recently available prices of the securities in a subfund's portfolio do not reflect their fair value, it may allow the net asset value per unit to be adjusted in order to reflect the assumed fair value of the portfolio at the time of valuation. Such an adjustment is based on the investment policy determined by the Management Company and a number of practices. If the value is adjusted as described above, this will be applied consistently to all unit classes in the same subfund.

The Management Company reserves the right to apply this measure to the relevant subfunds of the Fund whenever it deems this to be appropriate.

Evaluating assets at fair value calls for greater reliability of judgement than evaluating assets for which readily available market quotations can be referred to. Fair-value calculations may also be based on quantitative models used by price reporting providers to determine the fair value. No guarantee can be given that the Fund will be in a position to accurately establish the fair value of an asset when it is about to sell the asset around the time at which the Fund determines the net asset value per unit. As a consequence, if the Fund sells or redeems units at the net asset value at a time when one or more participations are valued at fair value, this may lead to a dilution or increase in the economic participation of the existing unitholders.

If necessary, additional valuations may be made throughout the day. Such new valuations shall apply for subsequent issues and redemptions of units.

c) Net realized gain (loss) on sales of securities

The realized gains or losses on the sales of securities are calculated on the basis of the average cost of the securities sold.

d) Valuation of forward foreign exchange contracts

The unrealized gain (loss) of outstanding forward foreign exchange contracts is valued on the basis of the forward exchange rates prevailing at valuation date.

e) Valuation of financial futures contracts

Financial futures contracts are valued based on the latest available published price applicable on the valuation date. Realized gains and losses and the changes in unrealized gains and losses are recorded in the statement of operations. The realized gains and losses are calculated in accordance with the FIFO method, i.e. the first contracts acquired are regarded as the first to be sold.

f) Valuation on options

Outstanding options traded on a regulated market are valued on the settlement price or the last available market price of the instruments.

Options which are not listed on an official stock exchange (OTC options) are marked to market based upon daily prices obtained from Bloomberg option pricer functionality and checked against third party pricing agents.

The realized gains or losses on options and the change in unrealized appreciation or depreciation on options are disclosed in the statement of operations and in the changes in net assets respectively under the positions realized gains (losses) on options and Unrealized appreciation (depreciation) on options.

g) Conversion of foreign currencies

Bank accounts, other net assets and the valuation of the investments in securities held denominated in currencies other than the currency of account of the different subfunds are converted at the mid closing spot rates on the valuation date. Income and expenses denominated in currencies other than the currency of the different subfunds are converted at the mid closing spot rates at payment date. Gain or loss on foreign exchange is included in the statement of operations.

The cost of securities denominated in currencies is other than the currency of account of the different subfunds is converted at the mid closing spot rate prevailing on the day of acquisition.

h) Accounting of securities' portfolio transactions

The securities' portfolio transactions are accounted for the bank business day following the transaction dates.

i) Combined financial statements

The combined financial statements of the Fund are expressed in EUR. The various items of the combined statement of net assets and the combined statement of operations as at 31 May 2023 of the Fund are equal to the sum of the corresponding items in the financial statements of each subfund converted into EUR at the following exchange rates.

The following exchange rates were used for the conversion of the combined financial statements as at 31 May 2023:

Exchange rates

EUR 1	=	JPY	149.174043
EUR 1	=	USD	1.066100

j) Receivable on securities sales, Payable on securities purchases

The position "Receivable on securities sales" can also include receivables from foreign currency transactions. The position "Payable on securities purchases" can also include payables from foreign currency transactions.

Receivables and payables from foreign exchange transactions are netted.

k) Income recognition

Dividends, net of withholding taxes, are recognized as income on the date upon which the relevant securities are first listed as "ex-dividend". Interest income is accrued on a daily basis.

Note 2 – Flat fee

The Fund pays a monthly flat fee for each of the subfunds, calculated on the average net asset value of the subfund as shown in the tables below:

The aforementioned flat fee shall be used as follows:

1. In accordance with the following provisions, a maximum flat fee based on the net asset value of the Fund is paid from the Fund's assets for the management, administration, portfolio management and distribution of the Fund (if applicable), as well as for all Depositary tasks, such as the safekeeping and supervision of the Fund's assets, the processing of payment transactions and all other tasks listed in the "Depositary and Main Paying Agent" of the sales prospectus. This fee is charged to the Fund's assets pro rata temporis upon every calculation of the net asset value, and is paid on a monthly basis (maximum flat management fee). The relevant maximum flat management fee will not be charged until the corresponding unit classes have been launched. An overview of the maximum flat management fees can be found under "The subfunds and their special investment policies" of the sales prospectus. The actual maximum rate applied to the flat management fee can be found in the annual and semi-annual reports.

This fee is shown in the Statement of Operations as "Flat fee".

2. The maximum flat management fee does not include the following fees and additional expenses, which are also taken from the Fund assets:
 - a) all other Fund asset management expenses for the sale and purchase of assets (bid-ask spread, market-based brokerage fees, commissions, fees, etc.); As a rule, these expenses are calculated upon the purchase or sale of the respective assets. In derogation hereto, these additional expenses, which arise through the sale and purchase of assets in connection with the settlement of the issue and redemption of units, are covered by the application of the swing pricing principle pursuant to the section titled "Net asset value, issue, redemption and conversion price" of the sales prospectus;
 - b) fees of the supervisory authority for the establishment, modification, liquidation and merger of the Fund, as well as all charges payable to the supervisory authorities and any stock exchanges on which the subfunds are listed;
 - c) auditor's fees for the annual audit and for authorisations in connection with creations, alterations, liquidations and mergers within the Fund, as well as any other

fees paid to the audit firm for services provided in relation to the administration of the Fund and as permitted by law;

- d) fees for legal consultants, tax consultants and notaries in connection with the creation, registration in distribution countries, alteration, liquidation and merger of the Fund, as well as for the general safeguarding of the interests of the Fund and its investors, insofar as this is not expressly prohibited by law;
- e) costs for publishing the Fund's net asset value and all costs for notices to investors, including translation costs;
- f) costs for the Fund's legal documents (prospectuses, KID, annual and semi-annual reports, and other documents legally required in the countries of domiciliation and distribution);
- g) costs for the Fund's registration with any foreign supervisory authorities (if applicable), including fees payable to the foreign supervisory authorities, as well as translation costs and fees for the foreign representative or paying agent;
- h) expenses incurred through use of voting or creditors' rights by the Fund, including fees for external advisers;
- i) costs and fees related to any intellectual property registered in the Fund's name, or to the Fund's rights of usufruct;
- j) all expenses arising in connection with any extraordinary measures taken by the Management Company, Portfolio Manager or Depositary to protect the interests of the investors;
- k) if the Management Company participates in class action suits in the interests of investors, it may charge expenses arising in connection with third parties (e.g. legal and Depositary costs) to the Fund's assets. Furthermore, the Management Company may bill for all administrative costs, provided these are verifiable, and disclosed and accounted for in the Fund's published total expense ratio (TER).

These commissions and fees are shown in the Statement of Operations as "Other commissions and fees".

- 3. The Management Company may pay trailer fees for the distribution of the Fund.

For unit class F, an additional fee will also be charged; this shall be determined via a separate contract between the investor and UBS Asset Management Switzerland AG or one of its authorised distribution partners.

For unit class "I-B", a fee is charged to cover the costs of fund administration (comprising the costs of the Management Company, the administrative agent and the Depositary). The costs for asset management and distribution are charged outside of the Fund under a separate contract concluded directly between the investor and UBS Asset Management Switzerland AG or one of its authorised representatives.

Costs relating to the services performed for unit classes I-X, K-X and U-X for asset management, fund administration (comprising the costs of the Management Company, the administrative agent and the Depositary) and distribution are

covered by the compensation to which UBS Asset Management Switzerland AG is entitled under a separate contract with the investor.

Costs relating to the services to be performed for share classes "K-B" for asset management purposes are covered by the compensation to which UBS Asset Management Switzerland AG or one of its authorised distribution partners is entitled under a separate contract with the investor.

All costs that can be attributed to individual subfunds will be charged to these subfunds.

Costs that can be allocated to unit classes will be charged to those unit classes. Costs pertaining to some or all subfunds/unit classes will be charged to those subfunds/unit classes in proportion to their respective net asset values.

With regard to subfunds that may invest in other UCIs or UCITS under the terms of their investment policies, fees may be incurred both at the level of the subfund as well as at the level of the relevant target fund. The management fees (excluding performance fees) of the target fund in which the assets of the subfund are invested may amount to a maximum of 3%, taking into account any trailer fees.

Should a subfund invest in units of funds that are managed directly or by delegation by the Management Company itself or by another company linked to the Management Company through common management or control or through a substantial direct or indirect holding, no issue or redemption charges may be charged to the investing subfund in connection with these target fund units.

Details on the Fund's ongoing charges can be found in the KID.

Note 3 – Taxe d'abonnement

In accordance with the law and the regulations currently in force, the Fund is subject to a subscription tax at the annual rate of 0.05%, for some unit classes only a reduced "taxe d'abonnement" of 0.01% p.a., payable quarterly and calculated on the basis of the net assets of each subfund at the end of each quarter.

The "taxe d'abonnement" is waived for that part of the Fund assets invested in units or shares of other undertakings for collective investment that have already paid the "taxe d'abonnement" in accordance with the statutory provisions of Luxembourg law.

Note 4 – Other income

Other income mainly consist of income resulting from Swing Pricing.

Note 5 – Income distribution

In accordance with Article 10 of the Management Regulations, once the annual accounts are closed the Management Company will decide whether and to what extent distributions are to be paid out by each subfund. The payment of distributions must not result in the net assets of the Fund falling below the minimum amount for Fund's assets laid down by law. If distributions are made, payment will be effected within four months of the end of the financial year.

The Management Company is authorized to pay interim dividends and to suspend the payment of distributions.

An income equalisation amount will be calculated so that the distribution corresponds to the actual income entitlement.

Note 6 – Soft commission arrangements

During the period from 1 December 2022 until 31 May 2023 no "soft commission arrangements" were entered into on behalf of UBS (Lux) Equity Fund and "soft commission arrangements" amount to nil.

Note 7 – Commitments on Financial Futures

Commitments on Financial Futures per subfund and respective currency as of 31 May 2023 can be summarised as follows:

Financial Futures

UBS (Lux) Equity Fund	Financial Futures on Indices (bought)	Financial Futures on Indices (sold)
– Euro Countries Opportunity Sustainable (EUR)	- EUR	26 693 610.00 EUR
– European Opportunity Sustainable (EUR)	- EUR	23 741 710.00 EUR

The commitments on Financial Futures on bonds or index (if any) are calculated based on the market value of the Financial Futures (Number of contracts*notional contract size*market price of the futures).

Note 8 – Total Expense Ratio (TER)

This ratio was calculated in accordance with the Asset Management Association Switzerland (AMAS) / Swiss Funds & Asset Management Association (SFAMA) "Guidelines on the calculation and disclosure of the TER" in the current version and expresses the sum of all costs and commissions charged on an ongoing basis to the net assets (operating expenses) taken retrospectively as a percentage of the net assets.

The TER for classes of units which were active less than a 12 month period are annualised.

Transaction costs, interest costs, securities lending costs and any other costs incurred in connection with currency hedging are not included in the TER.

Note 9 – Applicable law, place of performance and authoritative language

The Luxembourg District Court is the place of performance for all legal disputes between the unitholders, the Management Company and the Depositary. Luxembourg law applies. However, in matters concerning the claims of investors from other countries, the Management Company and/or the Depositary can elect to make themselves and the Fund subject to the jurisdiction of the countries in which the Fund units were bought and sold.

The English version of these financial statements is the authoritative version. However, in the case of units sold to investors from the other countries in which Fund units can be bought and sold, the Management Company and the Depositary may recognize approved translations (i.e. approved by the Management Company and the Depositary) into the languages concerned as binding upon themselves and the Fund.

Note 10 – Securities Lending

The Fund may lend portions of its securities portfolio to third parties. In general, lendings may only be effected via recognized clearing houses such as Clearstream International or Euroclear, or through the intermediary of prime financial institutions that specialise in such activities and in the modus specified by them. Collateral is received in relation to securities lent. Collateral is composed of high quality securities in an amount typically at least equal to the market value of the securities loaned.

UBS Europe SE, Luxembourg Branch acts as securities lending agent.

Data on income and expense for each type of SFT

All expenses relating to the execution of securities lending transactions and their collateralization are borne by the counterparties and the depositary.

Service providers that provide securities lending services to the Fund have the right to receive a fee in line with market standards in return for their services. The amount of this fee is reviewed and adapted, where appropriate, on an annual basis. Currently, 60% of the gross revenue received in the context of securities lending transactions negotiated at arm's lengths is credited to the relevant subfund, while 40% of the gross revenue are retained as costs/fees by UBS Europe SE, Luxembourg Branch acting as securities lending agent and UBS Switzerland AG providing securities lending services. All costs/fees of running the securities lending programme are paid from the securities lending agents' portion of the gross income. This includes all direct and indirect costs/fees generated by the securities lending activities. UBS Europe SE, Luxembourg Branch and UBS Switzerland AG are part of the UBS Group.
