# Characteristics of the Fund

LUXEMBOURG SELECTION FUND (hereinafter the "Fund") was established on 9 October 2003 as a Société d'investissement à capital variable (SICAV) with multiple subfunds established in accordance with the provisions of the amended 2010 Law and the Luxembourg Law of 10 August 1915 on commercial companies, each as amended. The Fund is subject in particular to the provisions of Part I of the amended 2010 Law, specifically for Collective Investment in Transferable Securities as defined in the European Directive 2009/65/EC of the European Parliament and of the Council of 13 July 2009 on the coordination of laws, regulations and administrative provisions relating to undertakings for collective investment in transferable securities ("UCITS") ("Directive 2009/65/EC").

UBS Third Party Management Company S.A. (hereinafter the "Management Company"), is a société anonyme under Luxembourg law subject to the provisions of Section 15 of the amended 2010 Law with its registered office at 33A, avenue John F. Kennedy, L-1855 Luxembourg.

Following an extraordinary general meeting of the shareholders held on 29 December 2011, the Articles of Incorporation of the Fund (the "Articles of Incorporation") were amended in order to have the Fund regulated by the Part I of the amended Luxembourg law of 17 December 2010 on undertakings for collective investment (the "Amendments to the Articles of Incorporation"). The Articles of Incorporation have been deposited with the Registrar of the Luxembourg District Court. The Amendments to the Articles of Incorporation were published in the Memorial on 30 January 2012.

The Fund is characterised by a structure with multiple subfunds divided into several separate portfolios of assets called "subfunds", within which different classes of shares may be issued. The assets of different classes in the same subfund will be invested jointly pursuant to the investment policy of the subfund, but in which a specific fee structure, specific minimum investment amounts, a specific distribution policy, a specific accounting currency, special hedging or other features may be applied separately to each class.

The total net assets of the various subfunds constitutes the total net assets of the Fund, which always corresponds to the capital of the Fund and consists of fully paid up and non-nominal shares (the "shares").

At general meetings, shareholders have the right to one vote per share held, irrespective of the difference in value of shares of the respective subfunds. The shares of a particular subfund are entitled to one vote per share held when voting at meetings affecting that subfund. The rights attached to shares are those contained in the 1915 Law, provided that they are not derogated by the amended 2010 Law.

The Fund constitutes a single legal entity. It is specified, however, that in relations between shareholders, each subfund is considered a separate entity constituting a separate pool of assets with its own objectives and represented by one or more separate classes. In addition, vis-à-vis third parties, and particularly vis-à-vis the creditors of the Fund, each subfund shall be exclusively responsible for the commitments attributed to it.

The Board of Directors reserves the right at any time to launch new subfunds and/or other classes of shares, whose investment policy, features and terms of offer will be communicated in due course by an update of the sales prospectus. In compliance with the regulations laid down in "Dissolution and merger of the Fund and its subfunds" of the prospectus, the Board of Directors reserves the right to terminate or to merge certain subfunds.

The duration and the assets of the Fund are not restricted.

The Fund's financial year ends on the last day of April.

The annual and semi-annual reports are prepared based on the information from the sales prospectus in force at the closing date of the report.

The Annual General Meeting is held every year on second Wednesday of October at 11:00 a.m. at the registered office of the Fund or any other address indicated in the notice of the meeting. If such day is not a business day in Luxembourg, the annual general meeting will be held on the next business day.

Only the information contained in the prospectus and in one of the documents referred to therein is valid.

Other information on the Fund, as well as on the net asset value, the issue, conversion and redemption prices of the Fund's shares may be obtained on any business day at the registered office of the Fund and from the Depositary. If necessary, any information relating to a suspension or resumption of the calculation of the net asset value, the issue or redemption price as well as all notifications to shareholders will be published in the "Mémorial" and in the "Luxemburger Wort", and, if applicable, in the different distribution countries.

Copies of the Articles of Association of the Fund may be obtained at the registered office of the Fund. Provisions of the agreements referred to in the prospectus may be inspected during usual business hours on any Luxembourg business day at the registered office of the Fund.

In addition, the Articles of Association, the sales prospectus as well as the latest annual and semi-annual reports are available free of charge from the Depositary. The issue and redemption prices as well as any documents mentioned above may also be obtained there.

No subscriptions will be accepted on the basis of the financial reports. Subscriptions will only be accepted on the basis of the current issue prospectus accompanied by the most recent annual report, or the most recent semi-annual report, if applicable.

The figures stated in this report are historical and not necessarily indicative of future performance.

Semi-Annual Report as of 31 October 2024

# Notes to the Financial Statements

## Note 1 – Significant accounting policies

The financial statements have been prepared in accordance with the generally accepted accounting principles for investment funds in Luxembourg.

The significant accounting policies are summarised as follows:

### a) Calculation of the net asset value

The net asset value per share of the subfunds is determined each Business Day.

The net asset value of each subfund is equal to the total assets of that subfund less its liabilities. The net asset value of each subfund is expressed in the currency of that subfund as described in the prospectus, and is determined on each Valuation Day by dividing the total net assets of the subfund by the number of shares then in circulation. The net asset value per share of each subfund is determined using the last known price (i.e. the closing price, or if that price does not reflect a reasonable market value for the Board of Directors, the last price known at the time of valuation) each Business Day, unless otherwise indicated in Section I of the prospectus.

For the subfund LUXEMBOURG SELECTION FUND – Active Solar, share classes in CHF, EUR and GBP may be the object of foreign exchange contracts to hedge their exposure to currency risk.

### Swing pricing mechanism

The swing pricing mechanism can only be applied for the below subfunds.

LUXEMBOURG SELECTION FUND – Arcano Low Volatility European Income Fund - ESG Selection

LUXEMBOURG SELECTION FUND – UBS Bond 2031\*

Shares are generally issued and redeemed based on a single price: the Net Asset Value. To reduce the effects of dilution, the Net Asset Value per share is nevertheless adjusted on valuation days as described below; this takes place irrespective of whether the subfund is in a net subscription or net redemption position on the relevant valuation day. If no trading is taking place in any subfund or class of a subfund on a particular valuation day, the unadjusted Net Asset Value per share is applied. The circumstances in which such a dilution

adjustment takes is made are determined at the discretion of the Board of Directors. The requirement to carry out a dilution adjustment generally depends on the scale of subscriptions or redemptions of shares in the relevant subfund. The Board of Directors may carry out a dilution adjustment if, in its view, the existing shareholders (in the case of subscription) or remaining shareholders (in the case of redemptions) could be put at a disadvantage. The dilution adjustment may take place if:

- (a) a subfund records a steady fall (i.e. a net outflow due to redemptions);
- (b) a subfund records a considerable volume of net subscriptions relative to its size;
- (c) a subfund shows a net subscription or net redemption position on a particular valuation day; or
- (d) in all other cases in which the Board of Directors believes a dilution adjustment is necessary in the interests of the shareholders.

When a valuation adjustment is made, a value is added to or deducted from the Net Asset Value per share depending on whether the subfund is in a net subscription or net redemption position; the extent of the valuation adjustment shall, in the opinion of the Board of Directors, adequately cover the fees and charges as well as the spreads of buy and sell prices. In particular, the Net Asset Value of the respective subfund will be adjusted (upwards or downward) by an amount that (i) reflects the estimated tax expenses, (ii) the trading costs that may be incurred by the subfund, and (iii) the estimated bid-ask spread for the assets in which the subfund invests. As some equity markets and countries may show different fee structures on the buyer and seller side, the adjustment for net inflows and outflows may vary. The adjustments are generally limited to a maximum of 2% of the prevailing Net Asset Value per share at the time. The Board of Directors may decide to temporarily apply a dilution adjustment of more than 2% of the prevailing Net Asset Value per share at the time in respect of any subfund and/or Valuation Day in exceptional circumstances (e.g. high market volatility and/or liquidity, exceptional market conditions, market disruption, etc.), provided the Board of Directors can justify that this is representative of the prevailing market conditions and that it is in the best interest of the shareholders. This dilution adjustment will be calculated in accordance with the method determined by

\* formerly LUXEMBOURG SELECTION FUND – UBS Asia Bond 2025

the Board of Directors. Shareholders will be informed via the usual communication channels when the temporary measures are introduced and when they end.

The Net Asset Value of each class of the subfund is calculated separately. However, dilution adjustments affect the Net Asset Value of each class to the same degree in percentage terms. The dilution adjustment is made at subfund level and relates to capital activity, but not to the specific circumstances of each individual investor transaction.

As at 31 October 2024, the swing pricing mechanism was only implemented for the subfund LUXEMBOURG SELECTION FUND – UBS Bond 2031\*.

#### *Other expenses*

The amount booked in the caption “Other expenses” in the subfund LUXEMBOURG SELECTION FUND - UBS Bond 2031\* relates to Swing pricing mechanism as described above and as per specific process on this subfund. As principle of the fund, an upfront fee has been booked in the fund. This amount has to be amortized every 6 month. Shareholders who redeem their shares before the end of the amortization period will leave those parts of the paid assurance company fee in the subfund which are not yet fully amortized. The exit fee aims not to harm shareholders holding in the subfund until or later the end of the amortization period.

#### *b) Valuation principles*

- Based on the net acquisition price and calculating returns on a constant basis, the value of money market instruments with a residual maturity of less than one year is constantly adjusted to the redemption price of these instruments. In the event of material changes in market conditions, the valuation basis is adjusted to reflect the new market yields;
- Debt securities with a residual maturity of more than one year and other securities are valued at the closing price, if they are listed on an official stock exchange. If a security is listed on several exchanges, the last known price on the primary market is the determinant;
- Debt securities with a residual maturity of more than one year and other securities, if they are not listed on an official stock exchange, but traded on another regulated market which is recognised, open to the public and operating regularly, are valued at the last available price on this market;

- Time deposits with an original maturity exceeding 30 days can be valued at their respective rate of return, provided the corresponding agreement between the credit institution holding the time deposits and the Fund stipulates that these time deposits may be called at any time and that, if called for repayment, their cash value corresponds to this rate of return;
- Any cash in hand or on deposit, notes payable on demand, bills and accounts receivable, prepaid expenses, cash dividends, interests declared or accrued as aforesaid and not yet received shall be valued at their full nominal value, unless in any case the same is unlikely to be paid or received in full, in which case the Board may value these assets with a discount he may consider appropriate to reflect the true value thereof;
- The value of swaps is calculated using a method based on the net present value of future cash flows, recognised by the Board of Directors;
- Shares of UCITS authorized according to Directive 2009/65/CE and/or other assimilated UCIs will be valued at the last known net asset value at the Valuation day;
- Securities and other investments listed on a stock exchange are valued at the last known prices. If the same security or investment is listed on several stock exchanges, the closing price on the stock exchange that represents the primary market for this security will be used.

In the scenario where securities and other investments are traded on a stock exchange with low volume but are traded among market makers on a secondary market using price determination methods that are in line with market practice, the Fund may use the prices of this secondary market as the basis for valuing such securities and investments. Securities and other investments that are not listed on a stock exchange, but which are traded on another regulated market which is recognised, open to the public and operating regularly, are valued at the last known price on this market.

If the known prices are not in line with the market, the respective securities, as well as the other legally admissible assets, will be valued at their market value which the Fund, acting in good faith, shall estimate on the basis of the price likely to be obtained.

\* formerly LUXEMBOURG SELECTION FUND – UBS Asia Bond 2025

The Fund is authorized to temporarily apply other adequate valuation principles to the assets of a subfund if the aforementioned valuation criteria appear impractical or inappropriate due to extraordinary circumstances or events.

*c) Net realised profits (losses) on the sale of securities*  
The profits or losses realised on sales of securities are calculated based on the average cost of the securities sold.

*d) Valuation of forward exchange transactions*  
Unrealised profits and losses resulting from unexpired exchange transactions are determined on the Valuation Day on the basis of the forward exchange rate applicable on that date.

*e) Valuation of financial futures*  
Financial futures are valued at the most recently published price, applicable on the valuation day. Profits and losses and changes in unrealised profits and losses are recorded in the statement of operations. Profits and losses are determined using the FIFO method, according to which the first contracts acquired are considered the first sold.

*f) Valuation on options*  
Outstanding options traded on a regulated market are valued on the settlement price or the last available market price of the instruments. OTC options are marked to market based upon daily prices obtained from Bloomberg option pricer functionality and checked against third party pricing agents.

The realized gains or losses on options and the change in unrealized appreciation or depreciation on options are disclosed in the statement of operations and in the changes in net assets respectively under the positions realized gains (losses) on options and Unrealized appreciation (depreciation) on options.

*g) Swaps*  
The Fund may enter into interest rate swap contracts, forward rate agreements on interest rates swaptions and credit default swaps, if they are executed with first-class financial institutions that specialize in transactions of this kind.

The value of swap transactions is calculated by an external service provider and a second independent valuation is made available by another external service

provider. The calculation is based on the net present value of all cash flows, both inflows and outflows.

In some specific cases, internal calculations based on models and market data available from Bloomberg and/or broker statement valuations may be used.

The valuation methods depend on the respective security and are determined pursuant to the UBS Valuation Policy.

This valuation method is approved by the Board of Directors.

Changes in unrealized gains and losses are reflected in the statement of operations under the changes in "Unrealized appreciation (depreciation) on swaps".

Gains or losses on swaps incurred when closed-out or matured are recorded as "Realized gain (loss) on swaps" in the statement of operations.

*h) Foreign currency conversion*  
Cash at bank, other net assets and the assessed value of portfolio securities denominated in currencies other than the reference currency of the various subfunds are converted at the "mid-closing spot rates" in effect on the Valuation Day. Income and expenses denominated in currencies other than the reference currency of the various subfunds are converted to the "mid-closing spot rates" in effect at the date of payment. Profits or losses are recorded in the statement of operations.

The acquisition cost of securities denominated in currencies other than the reference currency of the various subfunds is converted to the "mid-closing spot rate" in effect at the acquisition date.

*i) Accounting of securities portfolio transactions*  
Securities portfolio transactions are accounted for the banking days following the date of transaction.

*j) Combined financial statements*  
The combined financial statements of the Fund are prepared in CHF. The various items of the combined statement of net assets, combined statement of operations and the combined statement of changes in net assets as of 31 October 2024 are equal to the sum of the corresponding items in the financial statements of each subfund converted into CHF at the closing exchange rates.

For the conversion of the combined financial statements as at 31 October 2024, the following exchange rates were used:

Exchange rates		
CHF 1 =	EUR	1.065233
CHF 1 =	USD	1.156470

#### k) Formation expenses

The formation expenses are borne by the Fund and are amortised over a period of five years. These expenses include the expenses of preparing and printing the sales prospectus, notary fees, launch fees paid to administrative and exchange authorities in Luxembourg and abroad, expenses for printing certificates and/or other fees in relation to the establishment, promotion and launch of the Fund.

Costs in connection with the launch of a new subfund are written off over a period not to exceed five years on the assets of the subfund, in an annual amount determined by the Board of Directors of the Fund on an equitable basis.

#### l) Receivable on securities sales Payable on securities purchases

The position "Receivable on securities sales" can also include receivables from foreign currency transactions. The position "Payable on securities purchases" can also include payables from foreign currency transactions.

Receivables and payables from foreign exchange transactions are netted.

#### m) Recording of income

Dividends, net of taxes withheld at source, are recorded as income on the date on which the corresponding securities are listed for the first time "ex-dividend." Income from interest is compounded daily.

## Note 2 – Fees and expenses

The Depositary receives a fee (see table below), calculated based on the assets of the subfund, calculated and accrued at each Valuation Day and payable on a monthly basis during the following month directly out of the asset of the subfund for all subfund.

LUXEMBOURG SELECTION FUND – Arcano Low Volatility European Income Fund - ESG Selection and LUXEMBOURG SELECTION FUND – UBS Bond 2031\*

In addition, for the above mentioned subfunds, the Depositary is entitled to receive out of the assets of the subfund an annual fee equal to a percentage of the Net Asset Value of the subfund subject to a minimum per subfund. The Depositary fee is accrued on each Valuation Day and shall be payable monthly in arrears. The Depositary will also be entitled to transaction fees charged on the basis of the investments made by each subfund consistent with market practice in Luxembourg. Fees paid to the Depositary may vary depending on the nature of the investments of each subfund and the countries and/or markets in which the investments are made. The Depositary will also be entitled to reimbursement of reasonable out-of-pocket expenses properly incurred in carrying out its duties. Further fees may be payable to the Depositary in consideration of ancillary services rendered to the Fund and relating to the core services of the Depositary.

#### LUXEMBOURG SELECTION FUND – Thema Equities Fund

In addition, for the subfund mentioned above, the Depositary receives a fixed service fee of EUR 15 000 p.a. per account.

of which a maximum of 0.75% per annum will be paid to distribution partners. The annual management fee for Class I shares is of a maximum of 1.00% per annum. This fee is calculated based on the assets of the subfund, calculated and accrued at each Valuation Day and payable on a monthly basis during the following month directly out of the assets of the subfund.

LUXEMBOURG SELECTION FUND  
– PSY ENPAP Selection Fund

The remuneration for the performance of the Portfolio Management services provided by the Portfolio Manager as agreed with the Management Company shall be of 0.25% of the portion of the assets of the subfund managed by the Portfolio Manager (excluding any cash or funds for which the Portfolio Manager or an affiliate is acting as portfolio manager), calculated at each NAV calculation date and payable on a monthly basis to the Portfolio Manager (since 4 August 2022).

The annual management fee paid by the subfund is each of the Portfolio Managers are authorized to receive a fee of up to 0.525% p.a. for exercising their function in relation to the relevant Segment of the subfund managed by the respective Portfolio Manager. The services of all Portfolio Managers for the subfund are subject to a global minimum fee of EUR 360 000 p.a.

Each of the sub-Portfolio Managers are authorized to receive a fee described in the relevant agreements for exercising their function in relation to the relevant Segment of the subfund managed by the respective sub-Portfolio Manager. Each of the sub-Portfolio Managers will receive their fee from the relevant Portfolio Manager, who has appointed the respective sub-Portfolio Manager.

These fees are calculated based on the portion of the assets of the subfund managed by each of the subfund's Portfolio Managers, calculated and accrued at each Valuation Day and payable on a monthly basis during the following month directly out of the assets of the subfund (excluding any cash or funds for which the Portfolio Manager or an affiliate is acting as Portfolio Manager) to the respective Portfolio Managers.

By way of derogation from the preceding sentence, as regards the Amundi Segment *"Cash & Delta One Reference Portfolio Hedging Strategies"* (as further

described under section 3. "Investment objective and policy"), the fee is calculated as a percentage of the Equity Notional to be Hedged. More precisely, the Portfolio Manager's remuneration shall be as follows:

*Portfolio manager fee = 0.23% x the Equity Notional to be Hedged;*

*Equity Notional to be Hedged = Equity Notional x the Hedge Ratio.*

The Equity Notional to be Hedged is initially set at EUR 90 000 000.00, but may be modified during each Advisory Committee meeting. The fee will be calculated and accrued on each Valuation Day. The minimum fee for the first twelve months is set at EUR 100 000.00.

LUXEMBOURG SELECTION FUND  
– Thema Equities Fund

The subfund's share Classes are subject to a Management Fee calculated daily on the average total net assets of the respective class during the month concerned, as of up to 0.30% p.a. for Class I, 0.50% p.a. for Class A and 1.00% p.a. for Class B. This fee does also comprise the remuneration for Central Administration, Management Company and investment management.

LUXEMBOURG SELECTION FUND  
– UBS Bond 2031\*

The annual management fee paid by the subfund will amount to 0.20% p.a., calculated based on the assets of the subfund, calculated and accrued at each Valuation Day and payable on a monthly basis during the following month directly out of the assets of the subfund. ### **Distribution fee**

#### LUXEMBOURG SELECTION FUND – Active Solar

For this subfund distributors are authorised to receive a fee for their services of an applicable amount of 0.30% of the net assets of the subfund per year, calculated based on the assets of the subfund, calculated and accrued at each Valuation Day and payable on a monthly basis during the following month directly out of the assets of the subfund.

#### LUXEMBOURG SELECTION FUND – Arcano Low Volatility European Income Fund - ESG Selection

For this subfund the distribution fee is included in the Management fee.

#### LUXEMBOURG SELECTION FUND – Nerrick US Equities

The distributor of the subfund's shares will not receive a specific remuneration.

#### LUXEMBOURG SELECTION FUND – PSY ENPAP Selection Fund

For this subfund no distribution fee is paid to the distributor of the subfund.

#### LUXEMBOURG SELECTION FUND – Thema Equities Fund

For this subfund no distribution fee is paid to the distributor of the subfund.

### **Performance fee**

#### LUXEMBOURG SELECTION FUND – Active Solar

For this subfund, as part of the remuneration for portfolio management, the Management Company may also pay the Portfolio Manager a performance fee out of the assets of the subfund (hereafter, the "Performance Fee"). The Performance Fee will be calculated in respect of each financial year ending on 30 April (the "Calculation Period"). The Performance Fee will be calculated and accrued as an expense of the subfund at each Valuation Day and will be crystallised at the end of each Calculation Period and payable to

the Portfolio Manager in arrears within thirty (30) calendar days of the end of each Calculation Period upon the final determination of the Administrative Agent.

For the avoidance of doubt and subject to this section, a performance fee will be paid regardless of whether the reference benchmark index itself has positive or negative performance for the applicable Calculation Period, and there may be instances when the reference benchmark index return is negative and the Portfolio Manager generates a positive net excess return, resulting in a performance fee accrual even if the absolute performance of the subfund is negative.

For each Calculation Period, the Performance Fee rate will be equal to 15 per cent of any new net relative appreciation as at the end of such Calculation Period. The new net relative appreciation calculated at each Valuation Day shall equal the amount by which the Net Asset Value (after the deduction of any fixed portfolio management fee and before the deduction of any accrued Performance Fee) (hereinafter, the "Total Net Assets") exceeds the Aggregate Benchmark Amount (as defined in the prospectus), adjusted for any loss carry forward. The "Aggregate Benchmark Amount" attributable to the subfund, (either during such Calculation Period at each Valuation Day or as at the end of such Calculation Period), shall be equal to the sum of the Benchmark Capital Amount and the Period Benchmark Amount (as such terms are defined in the prospectus).

In respect of the first Valuation Day of each Calculation Period, the "Benchmark Capital Amount" shall be the Total Net Assets after the deduction of any Performance Fees (hereinafter, the "Net Assets") as at the last Valuation Day of the previous Calculation Period (or the Valuation Day before the date of first implementation), increased for additional asset allocation inflows and reduced for asset allocation outflows from the subfund as of the Valuation Day immediately before the relevant Valuation Day. For all other Valuation Days, the "Benchmark Capital Amount" is the aggregate Benchmark Capital Amount as at the end of the previous Valuation Day, increased by the amount of any additional asset allocation inflows to the Portfolio Manager's sub-account and reduced proportionately for asset allocation outflows as of the Valuation Day immediately before the relevant Valuation Day from the Portfolio Manager's sub-account by being multiplied by a fraction, the numerator of which is the Net Assets immediately after, and the denominator of which is the Net Assets immediately prior to, the

allocation of the net flows in the Net Assets of the relevant Valuation Day.

The “Period Benchmark Amount” for each Valuation Day equals the Benchmark Capital Amount increased by the loss carry forward and then multiplied by the Performance Fee Benchmark Return (as defined in the prospectus).

The loss carry forward for the first Valuation Day of each Calculation Period shall be (i) where new net relative appreciation as at the end of the previous Calculation Period for such Calculation Period is greater than zero, zero; and (ii) where new net relative appreciation as at the end of the previous Calculation Period is less than zero, such new net relative appreciation reduced proportionately for asset allocation outflows from the subfund by being multiplied by a fraction, the numerator of which is the Net Assets immediately after, and the denominator of which is the Net Assets immediately prior to, the allocation of the outflows in the Net Assets of the first Valuation Day of the relevant Calculation Period. For all other Valuation Days, the loss carry forward shall be the loss carry forward as at the end of the previous Valuation Day proportionally reduced for any asset allocation outflows from the subfund, as set out above, as at the relevant Valuation Day. For the avoidance of doubt, the loss carry forward as at each Valuation Day in the first Calculation Period and at the end of the first Calculation Period shall be zero.

The “Performance Fee Benchmark Return” for each Valuation Day shall be the percentage return of the performance fee benchmark index or, if an index disruption event occurs with respect to such index, such other equivalent index or indices as the Management Company may determine, calculated over the relevant Valuation Day.

In the event of asset allocation outflows from the subfund on a Valuation Day other than the first Valuation Day of a Calculation Period, a Performance Fee (if accrued as of the Valuation Day immediately prior to the date of such asset allocation outflow) attributable to the portion of such asset allocation outflow shall be crystallised and payable to the Portfolio Manager at the end of the annual Calculation Period (or upon termination of the Portfolio Management Agreement, if earlier). If the appointment of a Portfolio Manager is terminated during a Calculation Period, the Performance Fee in respect of

the then current Calculation Period will be calculated and paid as though the date of termination were the end of the relevant period and the relevant Portfolio Manager shall not be reappointed during the same Calculation Period.

The applicable Performance Fee benchmark for the subfund shall be the following:

subfund	Performance Fee Benchmark
Luxembourg Selection Fund – Active Solar	MSCI WORLD NET TOTAL RETURN USD INDEX

LUXEMBOURG SELECTION FUND – Arcano Low Volatility European Income Fund - ESG Selection

Portfolio Manager will also be entitled to receive a performance-based fee out of the assets of the subfund (the “Performance Fee”).

The Performance Fee will be calculated in respect of each calendar year (the “Calculation Period”) ending on 31 December (the “Crystallisation Date”), it being clarified that the first Calculation Period in respect of any share class commencing on the Business Day immediately following the expiry of the initial offer period for that share class and ending on the Crystallisation Date of the next calendar year. If the Crystallisation Date is not a Business Day, it shall designate the last Business Day in December.

The Performance Fee will be calculated and accrued as an expense of the subfund at each Valuation Day and will be crystallised at the Crystallisation Date and payable to the Portfolio Manager in arrears as soon as reasonably practicable as of the Crystallisation Date upon the final determination of the Administrative Agent.

The “Performance Reference Period”, which is the period at the end of which the past losses can be reset, corresponds to the whole life of the subfund. Any underperformance or loss previously incurred during the Performance Reference Period should be recovered before a Performance Fee becomes payable.

For each Calculation Period, the Performance Fee will be equal to 18% p.a. (until end of March 2024) and 15% p.a. (since April 2024) of the Net Outperformance (as defined below). The “Net Outperformance” is the Net Asset Value per share in excess

of the High-on-High (as defined below). For the first Calculation Period of a share class, the starting point to be considered in the calculations of the Performance Fee should be the initial offering price per share.

A Performance Fee shall only be payable where the Net Asset Value per share of the relevant share class exceeds the Net Asset Value at which the Performance Fee was last crystallised during the Performance Reference Period (the "High-on-High").

The Performance Fee will be calculated and accrued as at each Valuation Day and paid annually in arrears. The Performance Fee in respect of each Calculation Period will be calculated by reference to the Net Asset Value per share after deduction of all costs, but before deduction for any accrued Performance Fee. The Performance Fee calculation will also be adjusted on each Valuation Day by any subscriptions, redemptions or dividend distribution.

If shares are redeemed during a Calculation Period, the Performance Fee can be calculated as if the relevant redemption date were the end of the Calculation Period and an amount equal to the Performance Fee accrued in respect of such shares will be calculated and paid to the Portfolio Manager as soon as possible after redemption. The above applies mutatis mutandis in case of (i) conversion of shares into other shares of any share class of this subfund or another subfund and (ii) transfer of assets or merger of a share class or the subfund with another share class or existing subfund (including of other existing fund). However, no Performance Fee shall be payable where this subfund or a share class of this subfund is merged with a newly established receiving fund or subfund with no performance history and with an investment policy not substantially different from that of this subfund. In that case, the Performance Reference Period of this subfund shall continue applying in the receiving fund or subfund.

If the portfolio management agreement is terminated during a Calculation Period, the Performance Fee in respect to the then current Calculation Period will be calculated and paid as though the date of termination were the end of the Calculation Period.

## LUXEMBOURG SELECTION FUND

– Nerrick US Equities

PvB Pernet von Ballmoos AG as Portfolio Manager is entitled to receive a performance-based fee out of the assets of the subfund (the "Performance Fee"). The Performance Fee will be calculated in respect of each financial year of the Fund (the "Calculation Period") ending on 30 April (the "Crystallisation Date"), it being clarified that the first Calculation Period in respect of any share class will be the period commencing on the date such class is issued and ending on the Crystallisation Date of the next year such share class is issued. If the Crystallisation Date is not a Business Day, it shall designate the last Business Day in April.

The Performance Fee will be calculated and accrued as an expense of the subfund at each Valuation Day and will be crystallised at the Crystallisation Date and payable to the Portfolio Manager in arrears as soon as reasonably practicable as of the Crystallisation Date upon the final determination of the Administrative Agent.

The "Performance Reference Period", which is the period at the end of which the past losses can be reset, corresponds to the whole life of the subfund. Any underperformance or loss previously incurred during the Performance Reference Period should be recovered before a Performance Fee becomes payable.

For each Calculation Period, the Performance Fee will be equal to 10% of the Net Outperformance (as defined below) calculated at the end of the Calculation Period.

The "Net Outperformance" corresponds to the performance of the net asset value per share (calculated net of all costs, but prior to the deduction of the Performance Fee) in excess of the Performance of the Benchmark (as defined below) over the Calculation Period. In the event of a negative Net Outperformance, no Performance Fees shall be paid, and the negative Net Outperformance shall be carried forward to the next Calculation Period. Where there is a negative Net Outperformance brought forward, the Net Outperformance shall correspond to the cumulative performance of the net asset value per share (prior to the deduction of the Performance Fee) in excess of the cumulative performance of the benchmark since the last Performance Fee payment (or since

the inception of the share class, if no Performance Fee has been paid to date). This means that any negative Net Outperformance must be compensated before a Performance Fee can be charged in subsequent Calculation Periods.

If a Performance Fee has been paid at the end of a Calculation Period, the negative Net Outperformance carried forward for the beginning of the next Calculation Period will be zero.

The "Performance of the Benchmark" is the return of the S&P 500 Index (the "Index" – BBG ticker S&P 500 Index) over the course of the Calculation Period.

The Performance Fee calculation will be adjusted for any subscriptions, conversions, redemptions, dividend distributions at each valuation day.

For the avoidance of doubt, it is hereby noted that a Performance Fee may be paid irrespective of whether the performance of the benchmark for the relevant Calculation Period is positive or negative, and that there may be instances where the performance of the benchmark is negative and the share class achieves a positive Net Outperformance, which will result in a Performance Fee being paid even if the absolute performance of the share class is negative.

If, (i) shares are redeemed during a Calculation Period or (ii) shares are converted shares into other shares of any share class of this subfund or another subfund during a Calculation Period or (iii) in case of transfer of assets or merger of a share class or the subfund with another share class or existing subfund (including of other existing fund) during a Calculation Period, the Performance Fee will be calculated as though respectively the relevant redemption day, conversion day or merger day were the end of a Calculation Period and an amount equal to any accrued Performance Fee in respect of such shares will be crystallised to the Portfolio Manager. The accrued Performance Fee as crystallised in respect of those shares will be paid to the Portfolio Manager as of the next Crystallisation Date if any Performance Fee is due.

However, no Performance Fee shall be payable where this subfund or a share class of this subfund is merged with a newly established receiving fund or subfund with no performance history and with an investment policy not substantially different from that of this subfund. In that case, the Performance Reference Period

of this subfund shall continue applying in the receiving fund or subfund.

If the portfolio management agreement is terminated during a Calculation Period, the Performance Fee in respect of the then current Calculation Period will be calculated and paid as though the date of termination were the end of the relevant Calculation Period.

#### LUXEMBOURG SELECTION FUND – PSY ENPAP Selection Fund

In addition one delegated Portfolio Manager (namely AGF International Advisors Co. Ltd.) will also be entitled to receive a performance-based fee out of the assets of the subfund (the "Performance Fee"). If due, the Performance Fee will be paid out of the Net Asset Value attributable to the relevant share classes of each relevant Segment.

The Performance Fee will be calculated in respect of each financial year of the Fund (the "Calculation Period") ending on 30 April (the "Crystallisation Date"), it being clarified that the first Calculation Period in respect of any class will be the period commencing on the date such class is issued and ending on the Crystallisation Date of the next year such share class is issued. If the Crystallisation Date is not a Business Day, it shall designate the last Business Day in April.

The Performance Fee shall be calculated and accrued as an expense of the subfund at each Valuation Day and will be crystallised at the Crystallisation Date and payable to the Portfolio Manager in arrears as soon as reasonably practicable as of the Crystallisation Date upon the final determination of the Administrative Agent.

The "Performance Reference Period", which is the period at the end of which the past losses can be reset, corresponds to the whole life of the subfund. Any underperformance or loss previously incurred during the Performance Reference Period should be recovered before a Performance Fee becomes payable.

For each Calculation Period, the Performance Fee will be equal to 20% of the Net Outperformance (as defined below) calculated at the end of the Calculation Period. The Performance Fee for any class is capped at 4% p.a. of the Net Asset Value attributable to the relevant share classes of each Segment at the end of the Calculation Period.

The “Net Outperformance” corresponds to the performance of the share Net Asset Value attributable to the relevant share classes of each Segment (calculated net of all costs, but prior to the deduction of the Performance Fee) in excess of the Performance of the Benchmark (as defined below) over the Calculation Period. In the event of a negative Net Outperformance, no Performance Fees shall be paid, and the negative Net Outperformance shall be carried forward to the next Calculation Period. Where there is a negative Net Outperformance brought forward, the Net Outperformance shall correspond to the cumulative performance of the Net Asset Value attributable to the relevant share classes of each Segment (prior to the deduction of the Performance Fee) in excess of the cumulative performance of the benchmark since the last Performance Fee payment (or since the inception of the share class, if no Performance Fee has been paid to date). This means that any negative Net Outperformance must be compensated before a Performance Fee can be charged in subsequent Calculation Periods.

If a Performance Fee has been paid at the end of a Calculation Period, the negative Net Outperformance carried forward for the beginning of the next Calculation Period will be zero.

The “Performance of the Benchmark” is the return of the index composed of MXEU MSCI Europe NR (46%), MXWOE MSCI World ex EUROPE NR (42%) and MSDEEMN MSCI Emerging Markets in EURO NR (12%) (the “Index”) over the course of the Calculation Period.

The Performance Fee calculation will be adjusted for any subscriptions, conversions, redemptions, dividend distributions at each valuation day.

For the avoidance of doubt, it is hereby noted that a Performance Fee may be paid irrespective of whether the performance of the benchmark for the relevant Calculation Period is positive or negative, and that there may be instances where the performance of the benchmark is negative and the share class achieves a positive Net Outperformance, which will result in a Performance Fee being paid even if the absolute performance of the share class is negative.

If (i) shares are redeemed during a Calculation Period or (ii) shares are converted shares into other shares of any share class of this subfund or another subfund during a Calculation Period or (iii) in case of transfer of assets or merger of a share class or the subfund

with another share class or existing subfund (including of other existing fund) during a Calculation Period, the Performance Fee will be calculated as though respectively the relevant redemption day, conversion day or merger day were the end of a Calculation Period and an amount equal to any accrued Performance Fee in respect of such shares will be paid to the relevant Portfolio Manager. The accrued Performance Fee as crystallised in respect of those shares will be paid to the relevant Portfolio Manager as of the next Crystallisation Date if any Performance Fee is due.

However, no Performance Fee shall be payable where this subfund or a share class of this subfund is merged with a newly established receiving fund or subfund with no performance history and with an investment policy not substantially different from that of this subfund. In that case, the Performance Reference Period of this subfund shall continue applying in the receiving fund or subfund. If the relevant Portfolio Management Agreement is terminated during a Calculation Period, the Performance Fee in respect of the then current Calculation Period will be calculated and paid as though the date of termination were the end of the relevant Calculation Period. For the avoidance of doubt, Performance Fee will not be paid in case of a global underperformance of the subfund (even if a Portfolio Manager has overperformed).

All of the fees and expenses that cannot be attributed to a specific subfund will either be allocated equitably to all subfunds or will be charged pro rata on the net asset value of each subfund, if the amount and reason justify doing so.

For the period ending 31 October 2024 the following performance fees have been paid:

Performance fee

LUXEMBOURG SELECTION FUND	Share class	Amount	Currency	Fee
- Arcano Low Volatility European Income Fund - ESG Selection	VC-AP	191 218.81	EUR	1.47%
- Arcano Low Volatility European Income Fund - ESG Selection	VE-AP	3 635 052.36	EUR	1.86%
- Arcano Low Volatility European Income Fund - ESG Selection	VE-DP	739 198.74	EUR	1.61%
- PSY ENPAP Selection Fund	A	3 027 864.04	EUR	0.26%

## Other commissions and fees

The Fund shall also bear all ordinary operating costs and expenses incurred in the operation of the Fund or any subfund or share class (“Operating and Administrative Expenses”) including, inter alia:

- a) the expenses purchasing and selling securities;
- b) all taxes which may be payable on the Fund’s assets or income and especially “taxed d’abonnement” and regulatory authority fees;
- c) the costs of exchange listings;
- d) the costs which may be incurred for extraordinary steps or measures, in particular expert opinions or lawsuits which might be necessary for the protection of the Fund’s assets;
- e) the fees for the auditors, all legal advisors, notary fees;
- f) costs incurred indirectly in connection with the offer, advertising and sale of shares, the cost of translating any documents intended for foreign regulatory authorities;
- g) the cost of printing the Prospectus and the share certificates, expenses related to the preparation, deposition and publications of agreements and other documents concerning the Fund (including fees for the notification of and registration with all authorities);
- h) the cost of preparing, translating, printing and distributing the periodical publications and all other documents which are required by the relevant legislation and regulations;
- i) the expenses for preparing and printing PRIIP KIDs or the the KID (where relevant),
- j) the cost of preparing and distributing notifications to the Shareholders;
- k) the cost in relation to the applicable due diligence procedures on delegates;
- l) the cost for the provision of services relating to the appointment of the Responsable du contrôle du respect des obligations (RC) in view of the Fund’s anti-money laundering obligations; and
- m) other operational costs in relation to the day-to-day management of the Fund, a subfund or share class.

All expenses are taken into account in the determination of the Net Asset Value per Share of each class/subfund. Operating and Administrative Expenses are allocated among the subfunds, the categories and the classes of Shares pro rata to their respective net assets (or in a fair and reasonable manner as determined by the Fund).

## Note 3 – Taxe d’abonnement

In accordance with the legislation in force and current practice in the Grand Duchy of Luxembourg, the Fund is not liable to any withholding, income, capital gains or wealth tax. The Fund is, however, liable in Luxembourg to a tax of 0.05% per annum (“taxe d’abonnement”) on the Net Asset Value; this tax is payable quarterly on the basis of the value of the net assets of the Fund at the end of the each quarter. If any subfund or any class of a subfund is reserved to institutional investors, the “taxe d’abonnement” may be reduced to 0.01% p.a. on the net assets of that specific subfund or class.

Under certain conditions, reduced rates ranging from 0.04% to 0.01% may also be available for the portion of the net assets of subfunds that are invested in sustainable economic activities (as defined in Article 3 of Regulation (EU) 2020/852 of the European Parliament and of the Council of 18 June 2020 on the establishment of a framework to facilitate sustainable investment, and amending Regulation (EU) 2019/2088).
