Investment objective

The Assenagon Funds Value Size Global aims to generate a performance that is linked to the development of the global equity market. The objective is to participate in the long-term excess return of equities with cheap valuation ("value premium") and low market capitalisation ("size premium").

Investment strategy

In order to achieve the investment objective, the fund invests in equities globally. The selection of equity securities is based on a quantitative approach that takes into account various equity parameters. The portfolio shows a cheaper valuation and a lower market capitalisation (i.e. higher allocation to small caps) than the global stock market. The investment process is subject to strict risk management, which is specifically adapted to value & size strategies, with focus on the factors leverage, profitability, momentum and single stock risk. ESG criteria are actively taken into account in the investment process, particularly with regard to improving the ESG score and significantly reducing the carbon footprint compared to the overall market. The fund is actively managed and is not linked to a benchmark.

With regards to LSEG Lipper, the following applies:

The LSEG Lipper Fund Awards, granted annually, highlight funds and fund companies that have excelled in delivering consistently strong risk-adjusted performance relative to their peers.

The LSEG Lipper Fund Awards are based on the Lipper Leader for Consistent Return rating, which is an objective, quantitative, risk-adjusted performance measure calculated over 36, 60 and 120 months. The fund with the highest Lipper Leader for Consistent Return (Effective Return) value in each eligible classification wins the LSEG Lipper Fund Award. For more information, see lipperfundawards.com. Although LSEG Lipper makes reasonable efforts to ensure the accuracy and reliability of the data used to calculate the awards, their accuracy is not guaranteed.
