INVESTMENT STRATEGY

Since 2007, ODDO BHF Polaris Dynamic has offered a global and broadly diversified, dynamic multi-asset investment solution. It is characterized by an equity allocation between 70% and 100% and a bond portfolio that invests mainly in investment-grade bonds. The portfolio may invest in securities listed or traded on regulated markets, primarily in Europe, the US or Emerging Markets.

The investment objective is to generate attractive asset growth with reduced fluctuations in value through value-oriented investments, while taking into account environmental, social issues and corporate governance (ESG) criteria.

Sustainalytics provides company-level analysis used in the calculation of Morningstar's Sustainability Score.

(1) The summary risk indicator (SRI) is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the market or because we are not able to pay you. It ranges from 1 (low risk) to 7 (high risk). This indicator is not constant and will change according to the fund's risk profile. The lowest category does not mean risk-free. Historical data, such as that used to calculate the SRI, may not be a reliable indication of the fund's future risk profile. There is no guarantee that the investment objectives in terms of risk will be achieved.

(2) Information on the EU Sustainable Finance Disclosure Regulation (SFDR) can be found in the SFDR classification(2) section of the document.

ASSET ALLOCATION

MONTHLY MANAGEMENT COMMENT

Despite ongoing geopolitical tensions and weak economic data from Europe, international stock markets remained robust in October. In the meantime, the renewed trade conflict between the US and China caused uncertainty on the stock markets. However, an agreement between the two economic powers towards the end of the month helped to calm the situation. As expected, the US Federal Reserve lowered its key interest rate again. However, Fed Chairman Jerome Powell dampened hopes of continued monetary easing by emphasising that further interest rate cuts were not guaranteed. The markets were supported by predominantly solid corporate earnings. In particular, the continuing euphoria surrounding artificial intelligence applications drove share prices higher. We invested in an ETF for European healthcare stocks. These had been under severe pressure in recent months against the backdrop of high uncertainty in the US sales market. After Pfizer succeeded in concluding an agreement with the US government and exemptions from tariffs were granted for the pharmaceutical industry, the timing was right to build up a diversified position in this sector via the ETF. By purchasing an ETF for Chinese technology companies, we also increased the proportion of emerging markets in our portfolio. In addition, we made a new investment in ASM International, one of the world's leading manufacturers of machines for the production of the latest generation of semiconductors. As the outlook for major customers such as Samsung and Intel has also brightened, we believe that ASMI's growth prospects are good. On the other hand, we divested our position in specialty chemicals manufacturer Sika following disappointing quarterly results. We also reduced our position in the Diploma Group for valuation reasons, although we believe its strategy continues to offer growth potential.

SUSTAINABLE REPORT – METHODOLOGY

ODDO BHF AM considers that measuring the environmental, social and governance impact of an investment is an essential step in disseminating good practices in ESG integration. To do this, it is imperative to have reliable, simple quantitative criteria (no reprocessing) and to allow comparison between portfolios regardless of their composition (large vs midcaps, geographical and sectoral diversity). The choice of indicators is therefore crucial for the relevance of impact measurement. The data for the environmental indicators come from our external non-financial analysis provider, MSCI. We systematically indicate the availability of the data at the level of the portfolio and its benchmark.

ESG integration at ODDO BHF Asset Management | 3 systematic steps

Exclusions

- **Norm-based:** exclusion of companies that do not comply with certain international standards (chemical weapons, anti-personnel mines, violation of the principles of the Global Compact, etc.)
- **Sector-based:** total or partial exclusion of sectors or activities based on ethical considerations (tobacco, gambling, weapon, adult entertainment / pornographie and Coal...)

ESG ratings

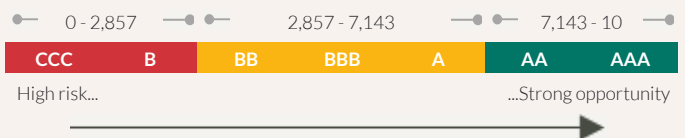

- Usage of MSCI data based on a « Best-in-Class » approach

Dialogue and engagement

- Regular dialogue with companies on ESG issues
- Individual and joint engagement
- Inclusion of ESG research within ODDO BHF Asset Management's voting policy
- Escalation procedure if engagement is not conclusive

ESG rating methodology

	Fund
Yield To Maturity (YTM)*	0.0
Yield To Worst (YTW)**	0.0
Modified duration to worst	
Spread duration	
EUR Exposure	
Non-Eur Exposure	

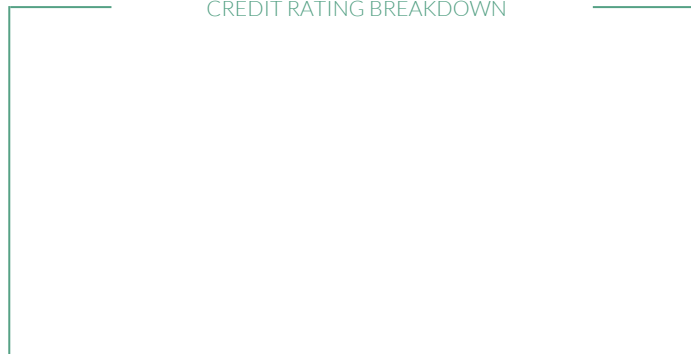

The Yield to Maturity (YTM) is the estimation at a certain date of the expected rate of return of a bond portfolio if the securities are held to maturity. It does by no means constitute a promised return. It can, therefore, be affected by interest rate risks, default risks, reinvestment risks and the fact that bonds may not be held until maturity.

The Yield to worst (YTW) is the estimation at a certain date of the worst expected rate of return of a bond portfolio of which some of the securities would not be held until maturity but redeemed at the discretion of the issuer (call). It does by no means constitute a promised return. It can, therefore, be affected by interest rate risks, default risks, reinvestment risks and the fact that bonds may not be held until maturity.

RISKS:

The fund is exposed to the following risks :operational risks including custody risk, target fund risk, currency risk, Sustainability risk

SFDR CLASSIFICATION²

The EU Sustainable Finance Disclosure Regulation (SFDR) is a set of EU rules which aim to make the sustainability profile of funds transparent, more comparable and better understood by end investors. Article 6: The management team does not consider sustainability risks or adverse effects of investment decisions on sustainability factors in the investment decision making process. Article 8: The management team addresses sustainability risks by integrating ESG criteria (Environment and/or Social and/or Governance) into its investment decision making process. Article 9: The management team follows a strict sustainable investment objective that significantly contributes to the challenges of the ecological transition, and addresses Sustainability Risks through ratings provided by the Management Company's external ESG data provider.

DISCLAIMER

This document has been drawn up by ODDO BHF AM LUX. Potential investors should consult an investment advisor before subscribing to the fund. The investor is informed that the fund presents a risk of capital loss, but also many risks linked to the financial instruments/strategies in the portfolio. In case of subscription, investors must read the Key Information Document (KID) and the fund's prospectus in order to acquaint themselves with the detailed nature of any risks incurred and all costs. The value of the investment may vary both upwards and downwards and may not be returned in full. The investment must be made in accordance with investors' investment objectives, their investment horizon and their capacity to deal with the risk arising from the transaction. ODDO BHF AM LUX cannot be held responsible for any direct or indirect damages resulting from the use of this document or the information contained in it. This information is provided for indicative purposes and may be modified at any moment without prior notice. Any opinions presented in this document result from our market forecasts on the publication date. They are subject to change according to market conditions and ODDO BHF AM LUX shall not in any case be held contractually liable for them. The net asset values presented in this document are provided for indicative purposes only. Only the net asset value marked on the transaction statement and the securities account statement is authoritative. Subscriptions and redemptions of mutual funds are processed at an unknown asset value.

A summary of investor rights is available free of charge in electronic form in English language on the website at : https://am.oddo-bhf.com/FRANCE/en/non_professional_investor/infos_reglementaire. The fund may have been authorized for distribution in different EU member states. Investors are advised to the fact that the management company may decide to withdraw with the arrangements it has made for the distribution of the units of the fund in accordance with Article 93a of Directive 2009/65/EC and Article 32a of Directive 2011/61/EU.

The Key Information Document (DEU, ESP, FR, GB, ITL, POR, SWD) and the prospectus (DEU, FR, GB) are available free of charge from ODDO BHF AM LUX or at am.oddo-bhf.com or at authorized distributors. The annual and interim reports are available free of charge from ODDO BHF AM LUX or on its internet site am.oddo-bhf.com.

The complaints handling policy is available on our website am.oddo-bhf.com in the regulatory information section. Customer complaints can be addressed in the first instance to the following e-mail address: service_client@oddo-bhf.com or directly to the Consumer Mediation Service: <http://mediationconsummateur.be>. If the fund is licensed for sale in Switzerland, the representative there is ACOLIN Fund Services AG, Leutschenbachstrasse 50 - 8050 Zurich, Switzerland. Paying agent is ODDO BHF (Switzerland) Ltd., Schulhausstrasse 6, 8027 Zurich, Switzerland. Further useful information regarding the fund, the Sales Prospectus including the Fund Rules, the Key Information Document as well as the annual and half-yearly reports will also be available there free of charge and in the German language.

If ODDO BHF Asset Management GmbH receives any rebates on the management fee of target funds or other assets, ODDO BHF Asset Management GmbH undertakes to fully remit such payment to the investor or the fund. If ODDO BHF Asset Management GmbH performs services for an investment product of a third party, ODDO BHF Asset Management GmbH will be compensated by the relevant company. Typical services are investment management or sales activities for funds established by a different investment management company. Normally, such compensation is calculated as a percentage of the management fee (up to 100%) of the respective fund, calculated on the basis of such fund's assets managed or distributed by ODDO BHF Asset Management GmbH. This may result in the risk that the investment advice given may not be consistent with the investor's interest. The amount of the management fee is published in the prospectus of the respective fund. Further details are available upon request.

It is further intended solely for persons based in countries in which the respective funds are registered for distribution or in which such registration is not required. The shares of the fund have not been registered under the United States Securities Act of 1933, as amended (the "1933 Act"); they may therefore not be publicly offered or sold in the United States of America or to US citizens or any US residents. This publication is intended as marketing instrument and does not satisfy the statutory requirements regarding the impartiality of a financial analysis, and the financial instruments concerned are not subject to any prohibition of trading in advance of the publication of this presentation.
