

ACATIS Aktien Global Fonds

AS OF: MARCH 31, 2026

3rd place over 20 years of 69

Global equity fund, aggressive, Art. 8 (SFDR)

MARKET COMMENTARY

The fund lost 4.0% of its value in March. In the current year, it is down 3.0%. The two inflation hedges made a clearly positive contribution to performance. In addition, Aixtron, the New York Times and KWS Saat were performance drivers. In addition to BioNTech, some semiconductor stocks were on the losing side: TSMC, Lam Research, Infineon and others. We bought three new shares: CTS Eventim, a concert ticket marketer, Yara, a Norwegian fertiliser producer (benefiting from domestic gas supply and higher prices) and Kraft Heinz, a beleaguered food producer (Heinz ketchup as an example) and at the same time an example of mismanagement under the dogma of zero-based budgeting. We sold Aurubis (after a pleasing share price performance) and China Resources Gas.

INVESTMENT OBJECTIVE AND - PHILOSOPHY

The fund invests mainly in companies that have been chosen based upon fundamental "bottom-up" analysis of individual stocks. The selection adheres to classical shareholder value aspects. The fund invests in companies that are undervalued according to criteria as: undervalued net asset value, high earnings power (that is not reflected in the stock price), above-average dividend yield, neglected industries or countries, overrated crises. The fund is invested in accordance with Art. 8 of the EU Disclosure Regulation. ACATIS has defined 54 sustainability criteria that investors have rated as "very important". Exclusion criteria were defined by the majority of those surveyed. Companies that breach these requirements are only supposed to be included in the portfolio if their cumulative portion does not exceed 10% of fund assets. The fund has the opportunity to make an additional contribution to reducing CO2 emissions.
