INVESTMENT POLICY

The objective of the Sub-Fund ("the Fund") is to increase the value of the Fund (capital appreciation) over the long term. The Fund intends to achieve this objective through investment in a portfolio of high-quality, long-term growth companies. The Fund will invest at least two-thirds of its assets in securities issued by companies listed or traded on regulated markets that have their headquarters in, or principally carry out their activities in Japan or in securities issued or guaranteed by the Japanese government. This share class will use currency hedging with the aim of limiting the effect of changes in foreign exchange rates between the share class currency and the base currency of the Fund. The Fund is actively managed. The index is provided for comparative purposes only. The Fund is aimed at investors with a long-term investment horizon (typically 5 years or more).
