INVESTMENT MANAGER

Newton Investment Management: Newton seeks to deliver strong outcomes to its clients by taking an active, multidimensional and engaged investment approach, applied across its active equity, income, absolute-return (including fixed-income), multi-asset and thematic strategies, and strategies with sustainability characteristics.

INVESTMENT OBJECTIVE

To generate annual distributions and to achieve long-term capital growth by investing predominantly in equity and equity-related global securities.

PERFORMANCE BENCHMARK

The Fund will measure its performance against the FTSE World TR Index (the "Benchmark").

However, as the Fund will typically purchase company shares that meet minimum yield thresholds, the Fund performance may differ from and, in certain conditions, underperform the Benchmark.

The Fund is actively managed, which means the Investment Manager has absolute discretion to invest outside the Benchmark subject to the investment objective and policies disclosed in the Prospectus. While the Fund's holdings may include constituents of the Benchmark, the selection of investments and their weightings in the portfolio are not influenced by the Benchmark. The investment strategy does not restrict the extent to which the Investment Manager may deviate from the Benchmark.
