BNY Mellon Brazil Equity Fund

INVESTMENT MANAGER

ARX Investimentos Ltda:
Specialists in Brazilian
multistrategy, equity long
short, equity long only and

fixed income investment strategies. The firm's philosophy is based on delivering quality risk-adjusted returns with an emphasis on capital preservation. The investment process combines fundamental bottom-up analysis with a detailed macro top-down overview whilst applying rigid risk controls with a preference for liquidity.

INVESTMENT OBJECTIVE

To achieve long-term capital growth through investment primarily (meaning at least three-quarters of the Fund's total assets) in a portfolio of equity and equity-related securities of companies having their registered office in Brazil or carrying out a preponderant part of their activities in Brazil.

PERFORMANCE BENCHMARK

The Fund will measure its performance against MSCI Brazil 10/40 NR Index (the "Benchmark").

The Fund is actively managed, which means the Investment Manager has absolute discretion to invest outside the Benchmark subject to the investment objective and policies disclosed in the Prospectus. However, as the Benchmark covers a significant proportion of the investable universe, the majority of the Fund's holdings will be constituents of the Benchmark but the weightings in the portfolio are not influenced by those of the Benchmark. The investment strategy does not restrict the extent to which the Investment Manager may deviate from the Benchmark.
