

ACATIS Aktien Global Fonds

AS OF: AUGUST 31, 2026

3rd place over 20 years
of 69

Global equity fund, aggressive, Art. 8 (SFDR)

MARKET COMMENTARY

In August, the fund rose by 2.9 per cent and is up 11.6 per cent so far this year. As can be seen from the return triangle, we are roughly within the range of historical returns (9.5 per cent p.a. since inception). The performance stemmed from a mix of sectors and countries. Firstly, the price gains of the supposed AI losers stand out: Veeva Systems up 38.9%, Salesforce up 38.6%, SAP up 21.1% and Adyen up 19.4%. The SaaS apocalypse is dividing the software world into winners and losers. The fund includes a number of winners. Then there is the group of chip beneficiaries such as Deutz (generators for data centres), Kokusai (Atomic Layer Deposition), the entire medical sector from Sysmex via Sartorius, Genmab, Vertex, Resmed etc., and finally the long-standing General Mills, which is diligently buying back its own shares. We have purchased a certificate tracking the variance of the S&P Index – a sort of insurance for turbulent times.

INVESTMENT OBJECTIVE AND - PHILOSOPHY

The fund invests mainly in companies that have been chosen based upon fundamental "bottom-up" analysis of individual stocks. The selection adheres to classical shareholder value aspects. The fund invests in companies that are undervalued according to criteria as: undervalued net asset value, high earnings power (that is not reflected in the stock price), above-average dividend yield, neglected industries or countries, overrated crises. The fund is invested in accordance with Art. 8 of the EU Disclosure Regulation. ACATIS has defined 54 sustainability criteria that investors have rated as "very important". Exclusion criteria were defined by the majority of those surveyed. Companies that breach these requirements are only supposed to be included in the portfolio if their cumulative portion does not exceed 10% of fund assets. The fund has the opportunity to make an additional contribution to reducing CO2 emissions.
