**INVESTMENT POLICY**

The objective of the Sub-Fund ("the Fund") is to increase the value of the Fund (capital appreciation) over the long term. The Fund intends to achieve this objective through investment in a portfolio of "Opportunities" companies, headquartered or carrying out their predominant activity in Europe, which seek to deliver above-average quality earnings growth and are attractively valued. Such companies may have shorter track records and earnings than more established growth companies and may have a higher risk profile.

The Fund is actively managed. The index is provided for comparative purposes only.

The Fund is aimed at investors with a long-term investment horizon (typically 5 years or more).

**RISK PROFILE**

The indicator represents the risk profile presented in the PRIIPs Key Information Document. The indicator assumes you keep the product for 5 years otherwise the actual risk can vary significantly.
