Investment Committee

Managed by the Global Equity Investment Committee, whose members' average tenure at Dodge & Cox is 27 years.

Investment Objective

The Global Stock Fund seeks long-term growth of principal and income.

Investment Approach¹

The Fund offers investors a highly selective, actively managed core global equity fund that invests in the United States and other developed countries as well as emerging markets, based on our analysis of fundamentals relative to current valuations. Generally, we:

- Target a diversified portfolio of equity securities, typically investing in medium-to-large, well-established companies that, in our opinion, appear to be temporarily undervalued by the stock market but have a favourable outlook for long-term growth.
- Select individual securities based on our analyses of various factors—including a company's financial strength, economic condition, competitive advantage, quality of the business franchise, financially material environmental, social, and governance (ESG) issues, and the reputation, experience, and competence of its management—as weighed against valuation.

Returns represent past performance and do not guarantee future results. Investment return, the value of any income received, costs and share price will fluctuate with market conditions and may be affected by currency fluctuations. Investors may have a gain or loss when shares are sold and may not get back the amount originally invested. Fund performance changes over time and currently may be significantly lower than stated above. Visit the Fund's website at dodgeandcox.com for current month-end performance figures.

Risks

The Fund is subject to market risk, meaning holdings in the Fund may decline in value for extended periods due to the financial prospects of individual companies or due to general market and economic conditions. Investments in certain countries, particularly underdeveloped or developing countries, may be subject to heightened political and economic risks. Please refer to the risk indicator under the applicable key information document for details regarding the Fund's risk profile.

- Please see the Fund's Sustainable Finance Disclosures Regulation SFDR Disclosure available at [dodgeandcox.com](https://www.dodgeandcox.com).
- Active Share is a measure of how much an investment portfolio differs from its primary benchmark index, based on a scale of 0% (complete overlap with the index) to 100% (no overlap). Overlap for each security in the Fund is the lower of either its percentage weight in the Fund or its percentage weight in the relevant index. Active share is calculated as 100% minus the sum of the overlapping security weights.
- The Fund may classify a company or issuer in a different category than the Index. The Fund usually classifies a company or issuer based on its country of risk, but may designate a different country in certain circumstances.
- Dodge & Cox has voluntarily agreed to reimburse the Fund for all ordinary expenses to the extent necessary to limit aggregate annual ordinary expenses to 0.63% of the average daily net assets of each share class. Dodge & Cox may terminate or modify this agreement upon 30 days' notice to shareholders.
- Historic yield reflects distributions declared over the past twelve months as a percentage of the current share price. Investors may be subject to tax on their distributions. Tax treatment depends on individual circumstances and may change.
- Portfolio Turnover is calculated as the lesser of the portfolio purchases or sales divided by the average portfolio value for the period.
- The Fund's total returns include dividends and interest income and reflect the deduction of expenses charged to the Fund. Index returns include dividends but, unlike Fund returns, do not reflect fees or expenses.
- The Fund is actively managed and uses the benchmark index for performance comparison purposes only.
- The data represents the USD Accumulating Share Class.
- Beta is a measure of the volatility—or systematic risk—of a portfolio compared to the benchmark measured over a specified time period.
- Standard Deviation measures the volatility of the Fund's returns. Higher Standard Deviation represents higher volatility.
- Excludes derivatives.
- Net Cash & Other includes cash, short-term investments, unrealised gain (loss) on derivatives, receivables, and payables.
- The Fund's portfolio holdings are subject to change without notice. The mention of specific securities is not a recommendation to buy, sell, or hold any particular security and is not indicative of Dodge & Cox's current or future trading activity.
- The portfolio's Price-to-Earnings ratios exclude extraordinary items and negative earnings. Benchmark figures exclude extraordinary items but include negative earnings.
- Price-to-Earnings (forward) ratios are calculated using 12-month forward earnings estimates from third-party sources as of the reporting period. Estimates reflect a consensus of sell-side analyst estimates, which may lag as market conditions change.
- Portfolio and benchmark calculation excludes Financials, Utilities, and Real Estate.
- This figure sums the product of each holding's company market capitalisation (market price multiplied by the number of shares outstanding) and weighting in the portfolio.
- Median market capitalisation represents the midpoint of market capitalisation for all of the equity securities in the portfolio. Half of the securities will have a higher market capitalisation and half will have a lower market capitalisation. (Market capitalisation is a measure of the security's size. It is the market price of a security multiplied by the number of shares outstanding.)
- Dividend yield is an indication of the income generated by the Fund's portfolio holdings. It represents a weighted average of the gross dividend yields for each holding.

Figures represented by a dash are zero or have no associated data while figures represented by a zero may be rounded to zero. The MSCI ACWI (All Country World Index) Index is a broad-based, unmanaged equity market index aggregated from developed and emerging market country indices. Results reflect dividends net of withholding taxes. MSCI makes no express or implied warranties or representations and shall have no liability whatsoever with respect to any MSCI data contained herein. The MSCI data may not be further redistributed or used as a basis for other indices or any securities or financial products. This report is not approved, reviewed, or produced by MSCI. MSCI ACWI is a service mark of MSCI. For more information, visit [dodgeandcox.com/index_disclosures](https://www.dodgeandcox.com/index_disclosures).

Important Information

This marketing communication is intended to be of general interest only and should not be construed as investment advice or a solicitation or an offer by Dodge & Cox Worldwide Investments Ltd. and its affiliates to provide services in any jurisdiction. It does not constitute legal or tax advice and it is not an offer for shares or an invitation to apply for Shares of the Dodge & Cox Worldwide Funds plc (the Fund). For the avoidance of doubt, if you decide to invest, you will be buying Shares in the Fund and will not be investing directly in the underlying assets of the Fund. There is no guarantee or assurance that the Fund's investment objective will be attained. The value of Shares in the Fund and income received from it can go down as well as up, and investors may not get back the full amount invested. **Past performance is not a reliable indicator of future performance.** Currency fluctuations may cause the value of Fund investments to diminish or increase. Data has been obtained from sources considered reliable but Dodge & Cox Worldwide Investments Ltd. and its affiliates make no representations as to the completeness or accuracy of such information. The Fund may use financial derivatives or other instruments which may entail specific risks more fully described in the Fund's Prospectus. Subscriptions for Shares of the Fund should only be made on the basis of the Fund's current Prospectus, and, where available, the relevant key information document ("KID"), accompanied by the latest available audited annual report and the latest semi-annual report if subsequently published. KIDs are available for each share class of each of the sub-funds of the Fund that are available for investment and in one of the official languages of each of the EU Member States into which each sub-fund has been notified for marketing under the Directive 2009/65/EC (the "UCITS Directive"). To obtain more information about the Fund, before making any final investment decisions, please refer to these documents which are available on our website at dodgeandcox.com or by calling +353 1 242 5411. A summary of investor rights is available in English at dodgeandcox.com/summary-of-investor-rights.

Dodge & Cox Worldwide Funds plc are currently registered for distribution in Austria, Denmark, Finland, France, Germany, Ireland, Italy, Luxembourg, the Netherlands, Norway, Portugal, Spain, Sweden, Switzerland, and the United Kingdom. The Fund's Manager may terminate the arrangements made for the marketing of any fund or share class in an EU Member State at any time by using the process contained in Article 93a of the UCITS Directive. As Shares of the Fund are not available for public distribution in all jurisdictions, prospective investors, who are not financial professionals, should consult their financial advisor before deciding to invest. No shares of the Fund may be directly or indirectly offered or sold to residents of the United States of America.
