Man Pan-European Equity Growth

Monthly summary report: 31 March 2026

Reporting Class: IC EUR

Investment Policy

Investment Objective

The Fund is a long-only, all-cap European equity Fund that invests in some of Europe's strongest companies through a focused, bottom-up research approach that typically invests in a concentrated portfolio of 25-35 stocks. The Investment Manager, through the application of detailed screening criteria, seeks to invest in companies which are either established market leaders in their industries or which demonstrate a competitive advantage in new and underdeveloped markets with most of the portfolio invested in the former.

Type of Assets

In addition to equities, the Fund may also invest up to one third in several other assets including money market instruments, debt securities, other funds, cash and other liquid assets. It may actively use financial derivative instruments to achieve the investment objective.

Benchmark Degree of Freedom

The Fund is actively managed. It does not intend to track the MSCI Europe Index and is not constrained by it. The Benchmark is being used for risk management purposes to ensure that it is managed in a manner

Monthly return¹: -9.23%

Performance Chart (Since Inception)¹

consistent with its investment objective and risk profile. The benchmark is also used for performance comparisons.

Please refer to the Fund's Prospectus /Offering documents for additional details regarding the Investment policy.

Fund Risks

The value of your investment and the income from it may rise as well as fall and you may not get back the amount originally invested. Prior to investing in the Fund investors should carefully consider the risks associated with investing, whether the Fund suits their investment requirements and whether they have sufficient resources to bear any losses which may result from an investment in the Fund. **Investors should only invest if they understand the terms on which the Fund is offered. Investors should consider the risks detailed in the Important considerations and where appropriate seek professional advice before investing.**

¹ Please note all performance statistics and charts are based on the reporting shareclass. Performance data is shown net of fees with income reinvested, and does not take into account sales and redemption charges where such costs are applicable. Returns are calculated net of management fees and any applicable performance fees. Other share classes may charge higher fees.

² Fund Size represents the combined AUM of all share-classes. The Fund promotes, among other characteristics, environmental or social characteristics within meaning of Article 8 of the Sustainable Finance Disclosure Regulation (SFDR) on sustainability-related disclosures in the financial services sector. Please note that the benchmark is not a reference benchmark pursuant to the Sustainable Finance Disclosure Regulation (SFDR).

³ Awards and/or ratings are for information purposes only and should not be construed as an endorsement of any Man Group company nor or of their products or services. Please refer to the websites of the sponsors/issuers for information regarding the criteria on which the awards/ratings are determined. © 2026 Morningstar UK Ltd. All rights reserved. The information contained herein: (1) is proprietary to Morningstar and/or its content providers; (2) may not be copied or distributed; and (3) is not warranted to be accurate, complete, or timely. Neither Morningstar nor its content providers are responsible for any damages or losses arising from any use of this information. Past performance is no guarantee of future results. Morningstar Overall Rating is for the Man Pan-European Equity Growth I C EUR share class only; other classes may have different performance characteristics. Out of 378 Europe Large-Cap Growth Equity funds.

⁴ Sharpe ratio is calculated using a risk-free rate in the appropriate currency over the period analysed. Where an investment has underperformed the risk-free rate, the Sharpe ratio will be negative. Because the Sharpe ratio is an absolute measure of risk-adjusted return, negative Sharpe ratios are not shown as they can be misleading.

⁵ The organisations and/or financial instruments mentioned are for reference purposes only. The content of this material should not be construed as a recommendation for their purchase or sale.

⁶ ESG Score data is provided by MSCI. Please note the MSCI ESG Score has been rebased to assume gross fund exposure of 100% to ensure a fair comparison is able to be made. These ESG Scores are provided for information purposes only. The Fund does not have any ESG scoring target as part of its commitments. Weighted average carbon intensity represents the exposure to carbon-intensive companies, expressed in tons CO2e / \$M revenue. Data provided by S&P Trucost, MSCI & Sustainalytics, calculated using the TCFD methodology (Scope 1&2 GHG Emissions in tonnes divided by Million \$ of revenue). Sustainalytics' ESG Risk Ratings measure a company's exposure to industry-specific material ESG risks and how well a company is managing those risks. A company's ESG Risk Rating score is assigned to one of five risk categories: Negligible Risk (Overall Score of 0-9.99 points), Low Risk (10-19.99 points), Medium Risk (20-29.99

points), High Risk (30-39.99 points) & Severe Risk (40 and higher points). Index positions are not decomposed

It is important to note that there are limitations to the ESG data shown. By relying on externally sourced data, Man Group do not have full control over its quality. All three providers prioritise data related to corporate equity, whereas corporate credit coverage is generally lower. Certain markets, such as small and mid-cap issuers, continue to have incomplete disclosures or limited coverage. There is often a lag in the data available, driven by the timing of company reporting or the provider's collection, which presents a lack of continuity.

⁷ Weighted average carbon intensity data is provided by a combination of Trucost, Sustainalytics and MSCI. Please note, to ensure a fair comparison between the fund and benchmark, the weighted average carbon intensity score will only be shown if greater than 60% of the fund or benchmark's exposure is captured in the calculation, to ensure the majority of the fund or benchmark is covered and avoid misleading information. Scaled Weighted Average Carbon Intensity is normalized to 100% absolute exposure to enable comparison between fund and benchmark. Long-short portfolios may have absolute exposure exceeding 100%, which has been scaled to this baseline. The underlying calculation may be based on partial holdings coverage and has been proportionally adjusted to represent the stated exposure level.

⁸ The share class in blue in the table is the reporting share class for the Fund and may be closed to new subscriptions.

⁹ Ongoing Charges Figure ('OCF'): A variable charge payable over a year, normally based on expenses to the Fund as of the previous accounting year. It excludes Performance Fees (if applicable) but includes the Management Fee.

¹⁰ Performance Fee (up to): The payment made to an Investment Manager if certain performance levels are achieved (often over and above any levels set out in the investment objective) within a set time period.

¹¹ Management Fee: Representative of the maximum management fee that may apply. For full details regarding the management fee, please refer to the fund's prospectus.

Important Considerations

Prior to investing in the Fund investors should carefully consider the risks associated with investing, whether the Fund suits their investment requirements and whether they have sufficient resources to bear any losses which may result from an investment in the Fund. Investors should only invest if they understand the terms on which the Fund is offered. Investors should consider the following risks and where appropriate seek professional advice before investing:

Investment Objective Risk - There is no guarantee that the Fund will achieve its investment objective.

Market Risk - The Fund is subject to normal market fluctuations and the risks associated with investing in international securities markets.

Therefore, the value of your investment and the income from it may rise as well as fall and you may not get back the amount originally invested.

Counterparty Risk - The Fund will be exposed to credit risk on counterparties with which it trades in relation to on-exchange traded instruments such as futures and options and where applicable, 'over-the-counter' ("OTC", "non-exchange") transactions. OTC instruments may also be less liquid and are not afforded the same protections that may apply to participants trading instruments on an organised exchange.

Currency Risk - The value of investments designated in another currency may rise and fall due to exchange rate fluctuations. Adverse movements in currency exchange rates may result in a decrease in return and a loss of capital. It may not be possible or practicable to successfully hedge against the currency risk exposure in all circumstances.

Liquidity Risk - The Fund may make investments or hold trading positions in markets that are volatile and which may become illiquid. Timely and cost efficient sale of trading positions can be impaired by decreased trading volume and/or increased price volatility.

Concentration Risk - The Fund may invest in a limited number of investments which can increase the volatility of performance.

Financial Derivatives Instruments - The Fund may invest in financial derivative instruments ("FDI") (instruments whose prices are dependent on one or more underlying asset) typically for hedging purposes. The use of FDI involves additional risks such as high sensitivity to price movements of the asset on which it is based. The use of FDI may multiply the gains or losses.

Single Region/Country Risk - The Fund is a specialist country-specific or geographic regional fund, the investment carries greater risk than a more internationally diversified portfolio.

A complete description of risks is set out in the Fund's prospectus.

Glossary

Alpha - The excess returns relative to the market for a given amount of expected risk taken by the scheme.

Annualised Return - An annualised total return is an average amount of money earned by an investment each year over a given time period. It is calculated to show what an investor would earn over a period of time if the annual return was compounded.

Annualised Volatility - Volatility is the rate and extent at which the price of a portfolio, security or index, moves up and down. If the price swings up and down with large movements, it has high volatility. If the price moves more slowly and to a lesser extent, it has lower volatility. It is used as a measure of the riskiness of an investment. Annualised volatility is an average annual amount of volatility over a given time period.

Beta - A measure of how sensitive an investment portfolio is to market movements. The sign of the beta (+/-) indicates whether, on average, the portfolio's returns move in line with (+), or in the opposite direction (-), to the market. The market has a beta of 1. If the portfolio has a beta of less (more) than 1, it means that the security is theoretically less (more) volatile than the market.

Direct Trading Strategies - These strategies are the same as for fund investments, the categories of investment strategy are 'Equity Long-Short' (e.g. specialist equity strategies with a low directional bias), 'Risk Seeking' (e.g. credit, convertible bonds, emerging markets and long biased strategies) and 'Diversifying' (e.g. global macro, managed futures and overlay or hedging strategies).

Diversifying Strategies - These strategies comprise global macro, managed futures and overlay strategies that generally have low correlation to both traditional assets and other hedge fund strategies. As such, these strategies have the potential to improve overall Sharpe ratio and provide valuable downside protection.

Entry Charge - The entry charge shown is a maximum figure and in some cases you might pay less. Please refer to your financial advisor or the distributor for the actual charges.

Equity Long/Short Strategies - These strategies are the core capital allocation of the portfolio and are typically comprised of specialist equity strategies which have a low directional bias. These strategies aim to generate uncorrelated returns that provide the portfolio with consistent capital growth for a moderate level of risk.

Exposure - This refers to the part of a portfolio that is subject to the price movements of a specific security, sector, market or economic variable. It is typically expressed as a percentage of the total portfolio, e.g. the portfolio has 10% exposure to the mining sector.

Futures - Derivative financial contracts that obligate parties to buy or sell an asset at a predetermined future date and price.

Hedge/hedging - A method of reducing unnecessary or unintended risk.

Leverage - When referring to a company, leverage is the level of a company's debt in relation to its assets. A company with significantly more debt than capital is considered to be leveraged. It can also refer to a fund that borrows money or uses derivatives to magnify an investment position.

Long Position - A security that is bought in expectation that it will rise in value.

Market neutral - Type of investment strategy undertaken by an investor or an investment manager that seeks to profit from both increasing and decreasing prices in one or more markets while attempting to completely avoid some specific form of market risk.

NAV - The Net Asset Value (NAV) represents the value per share. It is calculated by dividing the total net asset value of the fund (the value of the fund's assets less its liabilities) by the number of shares outstanding.

Ongoing Charge Figure (OCF) - The OCF is estimated and based on expenses and may vary from year to year. It includes management fees but excludes performance fees (where applicable) and portfolio transaction costs, except in the case of an entry/exit charge paid by the Fund when buying or selling units in another sub-fund. The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

Options - Financial contracts that offer the right, but not the obligation, to buy or sell an asset at a given price on or before a given date in the future.

Performance Fee - The payment made to an Investment Manager if certain performance levels are achieved (often over and above any levels set out in the investment objective) within a set time period. Please refer to the fund's offering documents for a complete description.

Redemption Fee - This is the maximum that might be taken out of your money before the proceeds of your investment are paid out.

Risk-seeking Strategies - These strategies include more opportunistic and directional based strategies such as emerging markets, credit and long-biased. These strategies provide the portfolio with additional return potential and the ability to capitalise on attractive sector/market opportunities.

Share Class - Type of fund shares held by investors in a fund (share classes differ by levels of charge and/or by other features such as hedging against currency risk). Each has a different level of charges and minimum investment.

Sharpe Ratio - The Sharpe Ratio is a measure for calculating risk-adjusted return, and has become the industry standard for such calculations. The Sharpe Ratio is the average return earned in excess of the risk-free rate per unit of volatility or total risk. The higher the ratio the better, with a number greater than 1 usually considered good, a number greater than 2 considered very good and a ratio of 3 or higher considered excellent. As it is an absolute measure of risk-adjusted return, negative Sharpe Ratios can be misleading and are therefore shown as N/A.

Short Position - Fund managers use this technique to borrow a security and then sell it with the intention of buying it back for less when the price falls. The position profits if the security falls in value. Within UCITS funds, derivatives – such as contracts for difference (CFDs) – can be used to simulate a short position.

UCITS - Stands for Undertakings for Collective Investments in Transferable Securities. This is the European regulatory framework for an investment vehicle that can be marketed across the European Union and is designed to enhance protections for Retail Investors.

YTD - Year-to-date.

EOM Position - End-of-month Position

Important information

This material is of a promotional nature.

The Fund is a sub-fund of Man Funds plc, domiciled in Ireland and registered with the Central Bank of Ireland. Full details of the Fund's objectives, investment policy and risks are located in the Prospectus which with the Key Investor Information Document (KIID) / Key Investor Document (KID), and the Report and Accounts of the UCITS, are accessible free of charge from the local information/paying agent, from authorised distributors and from www.man.com/documents. The KIID/KID is available in English and in an official language of the jurisdictions in which the Fund is registered for public sale. The Prospectus and the Reports and Accounts of the UCITS can be obtained in English. **In Switzerland**, the Prospectus is also available in German.

In Spain: Full prospectuses, KIDs, statutes and annual and semi-annual accounts of the investment products are available free of charge at the offices of the Spanish distributors authorised in Spain. A list of the Spanish distributors authorised and their contact details can be obtained on the Comisión Nacional del Mercado de Valores ("CNMV") website: www.cnmv.es. Man Funds plc: The sub-funds mentioned herein are authorised to be marketed to the public in Spain and belong to the Man Funds plc that is registered with the CNMV with registration number 296. The fund is a UCITS and registered with the Dutch regulator, the Netherlands Authority for the Financial Markets ('AFM'). Man Asset Management (Ireland) Limited is appointed to market the fund(s) in the Netherlands and is registered as such by the AFM www.afm.nl. For the avoidance of doubt, if you decide to invest, you will be buying units/shares in the Fund and will not be investing directly in the underlying assets of the Fund. Before deciding to invest, investors should consider all fund characteristics and objectives as outlined in the prospectus or related documents, please refer to the KID / KIID for information on commissions, fees, and other charges. The difference at any one time between the sale and repurchase price of a unit in the UCITS means that the investment should be viewed as medium term to long term. In order to fulfil the fund's objectives the Prospectus allows the manager the ability to invest principally in units of other collective investment schemes, bank deposits, derivatives contracts designed with the aim of gaining short term exposure to an underlying stock or index at a lower cost than owning the asset, or assets aiming to replicate a stock or debt securities index.

The Fund typically carries a risk of high volatility.

The value of an investment and any income derived from it can go down as well as up and investors may not get back their original amount invested. Alternative investments can involve significant additional risks.

For a summary of investor rights please see www.man.com/investor-relations and for guidelines for individual or collective redress mechanisms, please consult the fund's prospectus and its key information document, as well as the complaints handling policy found here www.man.com/complaints-handling-policy.

The Prospectus / Offering Memorandum, the Key Information Document, the Articles of the Fund and the annual financial statements of the Fund may be obtained free of charge from the Swiss Representative. In respect of the Shares distributed / offered in or from Switzerland, the place of performance and the place of jurisdiction are at the registered office of the Swiss Representative in Switzerland.

United Kingdom: Unless indicated otherwise this material is communicated in the United Kingdom by Man Solutions Limited ("MSL") which is a private limited company registered in England and Wales under number 3385362. MSL is authorised and regulated by the UK Financial Conduct Authority (the "FCA") under number 185637 and has its registered office at Riverbank House, 2 Swan Lane, London, EC4R 3AD, United Kingdom. The Fund is authorised overseas, not in the UK. UK investors will not be able to refer a complaint against its management company or its depositary to the UK's Financial Ombudsman Service. Any claims for losses relating to the management company or the depositary will not be covered by the UK's Financial Services Compensation Scheme. Investors should consider getting financial advice before deciding to invest and should see the prospectus of the Fund for more information. A UK Shareholder will be able to make a complaint to the Manager and will have a right to access the alternative dispute resolution scheme in Ireland. For more information please refer to man.com/contact. A UK Shareholder may not have a right to access a compensation scheme in Ireland in the event that either the Manager or the Depositary should become unable to meet its liabilities to Shareholders.

If you wish to complain please contact MAMIL ('The Manager') to obtain a copy of the complaints procedure which is available in English. If you are not satisfied with the final response resolution you may be able to refer your complaint to an Alternative Dispute Resolution Authority (ADR). For more information please refer to man.com/contact. Alternatively, in the EEA, you can find more information about local ADRs and find a complaint form in your local language on the Financial Dispute Resolution network (FIN-NET) section of the European Commission website (https://ec.europa.eu/info/business-economy-euro/banking-and-finance/consumer-finance-and-payments/retail-financial-services/financial-dispute-resolution-network-fin-net_en).

Please note that at any time the Manager or the Management company retains the right to terminate arrangements for the marketing of this product.
