## Administrative Notes

The Fund's disclosures comply with Regulation (EU) 2019/2088 (SFDR) although are not prepared in a way that also meets the specific criteria contained in Autorité des Marchés Financiers' Position/Recommendation DOC-2020-03 and therefore these marketing materials are required to disclose that investors should note that, relative to the expectations of the Autorité des Marchés Financiers, this Fund presents disproportionate communication on the consideration of non-financial criteria in its investment policy.

Sustainability Risk: The fund promotes environmental and/or social characteristics. This means that the fund's sustainability policy may require it to forgo certain investment opportunities based on non-financial factors. Securities are exposed to certain environmental, social, or governance events or conditions that, if they occur, could potentially or actually cause a material negative impact on the value of an investment.

Effective August 1, 2025, the Fund changed its benchmark from ICE BofAML 1-3 Year German Government Index (G1D0) to ICE BofA 1-3 Year Global Corporate Index (G1BC)

### Notes

For the Muzinich Funds Prospectus and Key Investor Information Document (KIID) or Key Investor Document (KID) go to [www.muzinich.com](http://www.muzinich.com).

All data as of 31/01/2026. All calculations in Fund Characteristics are based on internal Muzinich & Co. calculations. SI = since inception. YTD = year to date.

The Average Credit Rating reflects the highest rating of Moody's, Fitch and S&P or, where such is unavailable, Muzinich assigned rating but may not reflect the ratings regime used for the account's official guideline compliance calculations. Duration Distribution, Credit Breakdown, 10 Largest Industries, Geographic Diversification, Currency Breakdown and Fund Information includes securities portfolio only, excluding cash. Cash position is shown on a trade date basis.

Note on currency hedging: Currency exposure can introduce significant risk to an international bond allocation; hedging that risk can reduce that volatility over time. Hedging currency, however, produces a return - positive or negative - that is distinct from currency return and the return of an investment's underlying bonds. This "hedged return" is part of the investor's total return, and it effectively replaces the currency return. The hedged yield may therefore differ materially from the local currency yield.

### Important Information

For professional clients and, in Switzerland and Singapore, for qualified investors only. Before subscribing investors should read the most recent Prospectus, financial reports and KIID which contain a comprehensive disclosure of applicable risks. Past performance is not a reliable indicator of future results. The value of investments and the income from them may fall as well as rise and is not guaranteed and investors may not get back the full amount invested. The views, opinions expressed and Fund characteristics should not be construed as an offer to buy or sell or invitation to engage in any investment activity and are subject to change. Investors in the UK should also access the Muzinich Supplemental Information Document (SID). Investors should confer with their independent financial, legal or tax advisors.
