Sigma Sub Fund - Prudent Growth I, EUR

A Sub-Fund of Sigma Fund, ISIN LU1877826518
This Fund is managed by Altex Partners Gestión SGIIC SAU

Objectives and Investment Policy

The objective of the Sub-Fund is to achieve an absolute total return of 600 basis points in excess of cash over an investment horizon of 3-5 years

The Sub-Fund tries to achieve an absolute return over an investment horizon of a full business cycle, which typically expands over 3-5 years in excess of the return that would be received by cash on deposit for such a period + 600 basis points. To achieve this, the Sub-Fund will use its ability to invest mainly in, but not limited to, equities, equity-related securities, futures, options, spot, forwards, debt securities, cash, money market instruments and cash equivalents. In general, debt securities can be held in the portfolio with a protective objective. Debt securities shall be investment grade from both corporate and government issuers. The Sub-Fund is a hedged equity and equity-linked global portfolio with a moderate to low beta. Allocations will be made at the Investment Manager's discretion, based upon the Investment Manager's proprietary global investment approach, both within each asset class and among the asset classes. The Sub-Fund need not be invested in any or all of the asset classes at any one time. The Sub-Fund may invest up to 10% of its net assets in transferable securities not listed or traded on Eligible Markets. The Sub-Fund may invest up to 10% of its net assets in UCIs or UCITS. The Sub-Fund may not invest more than 10% of its net assets in other Sub-Fund of the Fund.

The Sub-Fund employs the VAR method to measure its market risk. The global exposure is limited to 20% VAR.

The Sub-Fund will capitalise its entire earnings following an income accumulation policy.

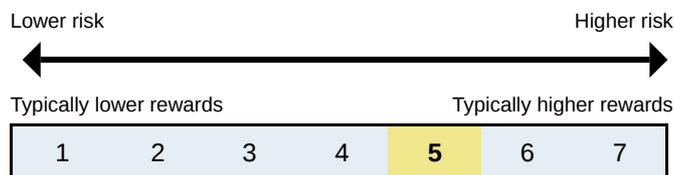

The Share Class's currency is EUR. The Sub-Fund's reference currency is EUR.

This Sub-Fund is aimed at investors wishing to diversify their portfolio by investing in a product complementary to traditional assets. The Sub-Fund aims to produce an absolute performance regardless of how the financial markets evolve and to limit fluctuations in value. To achieve this, the Sub-Fund invests a significant part of its assets in hedges with the purpose of limiting market volatility and risk.

In short, this investment offers a low level of risk on the basis of an investment horizon of at least three (3) years.

The investors are able to redeem their units on a daily basis.

Risk and Reward Profile

The risk/return indicator shows the correlation between risk and returns. Historical data may not be a reliable indication for the future. The risk category shown is not guaranteed and may shift over time. The lowest category does not mean 'risk free'.

The risk category of the Sub-Fund is 5 and is calculated from historical data or simulated historical data of the underlying securities when the real data is not sufficient. Past performance is not necessarily a reliable indicator of the Sub-Fund's future risk and reward profile.

The following risks may materially impact the Sub-Fund but are not captured by the indicator:

Credit risk: The default of the issuer of a debt instrument held by the Sub-Fund.

Liquidity risk: Securities in the Sub-Fund may be sold below their valuation due to insufficient liquidity in the market.

Counterparty risk: A counterpart may fail paying the proceeds related to the sale of securities by the Sub-Fund or may fail delivering the securities purchased by the Sub-Fund. A counterpart of the Sub-Fund in an OTC derivative may fail satisfying its obligations towards the Sub-Fund at any event of the OTC derivative agreement.

Operational risk: Failures or delays in operational processes may negatively affect the Sub-Fund.

Derivatives risk: Derivatives may be used to increase, lower or maintain the risk level of the Sub-Fund. The derivative strategy may fail resulting in significant losses for the Sub-Fund.

Currency risk: Exchange rate fluctuations may negatively affect the value of the Sub-Fund's investments.

Event Risk: The overall value of all types of investments may be affected by devaluations, political and governmental interventions in relevant markets or irregular and sudden market fluctuations.

The above mentioned list of risk factors is not exhaustive. Other factors may influence the pricing of the underlying securities and therefore the value of the Sub-Fund's investments.
