Performance scenarios

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product and a suitable benchmark over the last 11 years. Markets could develop very differently in the future.

The stress scenario shows what you might get back in extreme market circumstances.

Unfavourable scenario: This type of scenario occurred when investing between 09/2016 and 09/2022.

lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 4 out of 7, which is a medium risk class. This rates the potential losses from future performance at a medium level, and poor market conditions could impact the capacity to pay you.

Be aware of currency risk. In some circumstances, you may receive payments in a different currency, so the final return you will get may depend on the exchange rate between the two currencies. This risk is not considered in the indicator shown above

Due to effects of unusual market conditions, other risks could be triggered, such as: counterparty risk and liquidity risk. Please refer to the prospectus for more detail.

This product does not include any protection from future market performance so you could lose some or all of your investment.

If we are not able to pay you what is owed, you could lose your entire investment.

Moderate scenario: This type of scenario occurred when investing between 04/2018 and 04/2024.

Favourable scenario: This type of scenario occurred when investing between 07/2020 and 07/2026.

What happens if Generali Investments Luxembourg S.A. is unable to pay out?

The assets of the fund are held in safekeeping by its depositary. In the event of the insolvency of Generali Investments Luxembourg S.A., the fund's assets in the safekeeping of the depositary will not be affected. However, in the event of the depositary's insolvency, or someone acting on its behalf, the product may suffer a financial loss. This risk is mitigated by the fact the depositary is required by law and regulation to segregate its own assets from the assets of the Fund. The depositary will also be liable to the Fund and the investors for any loss arising from, among other things, its negligence, fraud or intentional failure to properly fulfil its obligations. There is no compensation or guarantee scheme protecting you from a default of the fund's Management Company or depositary.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product. The amounts shown here are illustrations based on an example investment amount and different possible investment periods. We have assumed:

- in the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario,
- EUR 10 000 is invested.

Example Investment 10 000 EUR		
Scenarios	If you exit after 1 Year	If you exit after 6 years (recommended holding period)
Total Costs	717 EUR	1 694 EUR
Annual Cost impact (*)	7.2%	3.4% each year

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 7.5 % before costs and 4.1 % after costs.
