ESG status	Article 8 SFDR - No Sustainability Commitment		

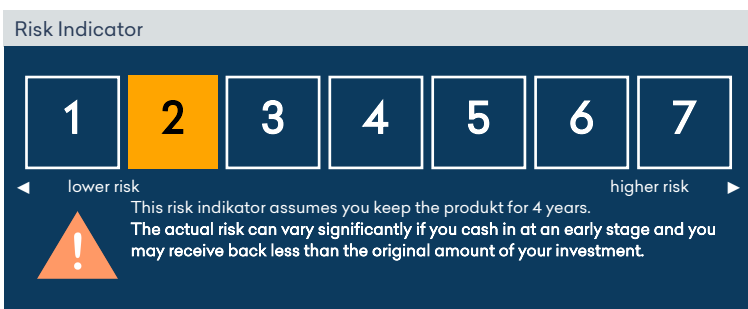

Fund Features

The investment objective of Storm Fund II – Storm Bond Fund (the "Sub-Fund") is to achieve the best possible performance while maintaining a balanced risk-return profile. The management team selects all investments independently and does not follow a fixed market index (benchmark). The Sub-Fund primarily invests in corporate bonds, with a focus on the Nordic markets, such as Norway, Sweden, Finland, and Denmark. A particular focus may be placed on high-yield bonds. These securities offer investors the opportunity for higher interest rates. However, they also carry an increased risk of price declines or even complete default by the issuing companies. Before each purchase, every company undergoes a thorough, data-driven analysis. The management team examines the company's finances, debt repayment capacity, loan agreements, management expertise, and ownership structure. To mitigate the risk of loss on individual investments, the fund's capital is broadly diversified across various companies and sectors. The potential return for the fund consists of two sources: the companies' regular interest payments (coupons) and any potential capital gains from the bonds. The Sub-Fund promotes environmental and social characteristics and is classified as an Article 8 fund under the European Financial Reporting Standard (SFDR). Environmental, social, and governance (ESG) risks and opportunities are continuously analyzed before purchase and throughout the holding period and are incorporated into all investment decisions. Important note: There is no guarantee that the stated investment objectives will be achieved. Investing in this fund involves the risk of capital loss.

Explanations and modeling; assumption: an investor wishes to purchase units for EUR 1,000.00. With a maximum sales charge of 3.00%, the investor has to pay EUR 1,030.00. The gross performance (BVI method) includes all costs incurred at the fund level, the net performance also includes the sales charge; additional costs may be incurred at the investor level (e.g. custody costs). Since the sales charge is only levied in the first year, the net/gross amount shown is different only in this year. Past performance is not a reliable indicator of future performance.

Gross Performance Storm Fund II - Storm Bond Fund RC (EUR)			
Period	Performance	Volatility	Sharpe Ratio
01/01 until end of Q1/2026	1.32 %	1.19 %	2.70
2021	12.40 %	1.54 %	8.42
2022	5.19 %	2.32 %	2.09
2023	9.25 %	1.21 %	4.80
2024	7.17 %	0.73 %	4.91
2025	5.15 %	1.19 %	2.50
1/1/2016 to 3/31/2026	100.00 %		

The global risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to repay you.

Disclaimer:

This document is a marketing communication. The information contained in this document does not constitute any form of investment advice; it merely provides a brief summary of the essential features of the Fund. All information and data have been carefully put together, in part by drawing on information supplied by third parties. It may happen that individual data prove, in particular with the passage of time, to be no longer correct, or no longer wholly correct, on account of changes in the applicable legislation, on-going developments in the markets or other material circumstances, including short-term developments. Consequently, no warranty is given as to the accuracy, completeness or up-to-dateness of any of the data. It should be noted that the information on the respective countries of distribution only refers to the existence of a distribution licence for the fund/sub-fund/share class in the respective country. Any separate investor profile requirements must be checked by the investor individually. For EEA states, the investor profile must be differentiated. Investors are advised to consult their adviser regarding this matter. The particulars contained in this information may change at any time without prior notice. The data and information are based on our assessment of the current legal and tax situation. The tax treatment of the investment depends on the investor's personal circumstances and may be subject to future changes. No liability is assumed or accepted in relation to any loss or damage that may arise, directly or indirectly, from the distribution or use of this product information or its contents.

Investing in investment funds carries with it the risk of price losses and currency losses, so that the future value of units may rise or fall in relation to their value at the time of acquisition. In so far as any statements are made concerning market developments, returns, price gains or other instances of asset growth, as well as risk ratios, these merely constitute forecasts for which we accept and assume no liability as regards the actual occurrence of the events predicted. In particular, previous performance, simulations and/or forecasts cannot be taken as a reliable indicator of future performance.

Full details concerning the Fund can be found in the key investor information and the sales prospectus, together with the latest audited annual report and, where data exist which are more recent than those contained in the latest annual report, the latest half-yearly report. These documents constitute the sole binding basis for any acquisition. In so far as any tax or legal interests are affected, these should be discussed by the addressee with his/her tax adviser or lawyer.

The above-mentioned sales documents (in German) can be obtained by you free of charge, in electronic or printed form on the homepage <https://www.hauck-aufhaeuser.com/fondsportal> or from the business premises of Hauck & Aufhäuser Fund Services S.A., 1c, rue Gabriel Lippmann, L-5365 Munsbach. Units in Funds may only be offered in countries where such an offer or sale is permissible and/or is the subject of an authorisation issued by the local supervisory authority. In particular, units in this Fund may not be offered or sold within the USA or to, or for the account of, US citizens or persons resident in the USA. This document, and the information which it contains, is not addressed to US citizens or to persons having their permanent residence in the USA; nor may it be distributed in the USA. Moreover, the distribution and publication of this document may also be restricted in other legal systems.

Please note that we use external data that has been provided to us for our exclusive use. Although we consider the data to be reliable, we do not take any liability for the accuracy and completeness of this external data. We make no warranty or assurance, express or implied, as to the results that may be obtained by any person or entity from the use of this information. Without limiting the foregoing, in no case shall we be liable for any direct, indirect, special, punitive, consequential or other damages (including lost profits), even if advised of the possibility of such damages. All external data is the property of third parties and may not be used in any way without the express written permission of the owner. The user of this information bears the entire risk of using this information. The forwarding or further processing of this external data is explicitly prohibited.

Conceptual Definitions:

TER: Total expense Ratio - TOR: Turnover Rate: Frequency of portfolio turnover in the period (figure may be negative under certain circumstances) - VaR (Value at Risk): risk measure for the maximum loss under a given probability for a given holding period - FY: fiscal year - order of Lipper Rating: consistent return / preservation / expense / total return
